promotional literature Romans's book was an enthusiastic guide aimed at those seeking to establish modest holdings in the region. What a field is open here. No country ever had such inexhaustible resources; no empire had ever half so many advantages combining in its behalf. Romans explained how settlers should travel to the area, what they would need in terms of provisions and tools, and what it would cost to have their land surveyed. In addition to providing an abundance of practical advice, Romans also offered information about the history of earlier settlements, including the earliest and most complete account of New Smyrna near St. Augustine. Romans also presented unique information about the various Indian tribes he encountered. In fact, historians agree that among the most useful portions of the book are Romans's descriptions of the largest Indian tribes in the 18th century Southeast: the Creeks, Choctaws, and Chickasaws. Romans's account of the diet of the Creeks and Choctaws is one of the most complete available. And his description of the location of Choctaw village sites is one of the best sources for this information.
