Language in the Greek and Roman Worlds Douglas Cairns,2005-12-31 A distinguished cast of scholars discusses models of gesture and non verbal communication as they apply to Greek and Roman culture literature and art Topics include dress and costume in the Homeric poems the importance of looking eye contact and face to face orientation in Greek society the construction of facial expression in Greek and Roman epic the significance of gesture and body language in the visual meaning of ancient sculpture the evidence for gesture and performance style in the texts of ancient drama the erotic significance of feet and footprints and the role of gesture in Roman law The volume seeks to apply a sense of history as well as of theory in interpreting non verbal communication It looks both at the cross cultural and at the culturally specific in its treatment of this important but long neglected aspect of Classical Studies **Seduction in Popular Culture, Psychology,**

and Philosophy Martins, Constantino,Damásio, Manuel,2016-08-15 Seduction is a complicated concept that is a part of the general human experience Despite the prevalence of seduction in our personal lives as well as within popular culture the concept has not been widely discussed and researched as an academic field Seduction in Popular Culture Psychology and Philosophy explores the concept of seduction and the many ways it can be understood either as a social and individual practice a psychological trait or a schema for manipulation Taking a cross disciplinary approach this publication features research based chapters relevant to sociologists media professionals psychologists philosophers advertising professionals researchers and graduate level students studying in related areas **Laughter in the Middle Ages and Early Modern**

Times Albrecht Classen,2010-09-22 Despite popular opinions of the dark Middle Ages and a gloomy early modern age many people laughed smiled giggled chuckled entertained and ridiculed each other This volume demonstrates how important laughter had been at times and how diverse the situations proved to be in which people laughed and this from late antiquity

to the eighteenth century The contributions examine a wide gamut of significant cases of laughter in literary texts historical documents and art works where laughter determined the relationship among people In fact laughter emerges as a kaleidoscopic phenomenon reflecting divine joy bitter hatred and contempt satirical perspectives and parodic intentions In some examples protagonists laughed out of sheer happiness and delight in others because they felt anxiety and insecurity It is much more difficult to detect premodern sculptures of laughing figures but they also existed Laughter reflected a variety of concerns interests and intentions and the collective approach in this volume to laughter in the past opens many new windows to the history of mentality social and religious conditions gender relationships and power structures

What is more common than a pair of shoes In a world where shoes have become an object of mass consumption these accessories are now rid of any significance The industry has accomplished its duty producing a large quantity at a low price But there was a time when the shoe symbolised the strength of the Roman legion the power of the Medieval lords or the oppression of the Chinese woman Its history is both vast and enthralling as revealed by the author Marie Jos phe Bossan Supporting her analysis with an outstanding iconography the author gives these commonplace objects a universal quality that sheds light on the whole of civilisation and elevates them to the rank of a work of art Textiles Bibliography ,2000
