Ambiguous Bodies Michelle Osterfeld Li, 2009-03-10 *Ambiguous Bodies* draws from theories of the grotesque to examine many of the strange and extraordinary creatures and phenomena in the premodern Japanese tales called setsuwa Grotesque representations in general typically direct our attention to unfinished and unrefined things they are marked by an earthy sense of the body and an interest in the physical Because they have many meanings they can both sustain and undermine authority This book aims to make sense of grotesque representations in setsuwa animated detached body parts unusual sexual encounters demons and shape shifting or otherwise wondrous animals and in a broader sense to show what this type of critical focus can reveal about the mentality of Japanese people in the ancient classical and early medieval periods It is the first study to place Japanese tales of this nature which have received little critical attention in English within a sophisticated theoretical framework Li masterfully and rigorously focuses on these fascinating tales in the context of the historical periods in which they were created and compiled      **A Journey Through the Kingdom of Oude, 1849-1850 ...** Sir William Henry Sleeman (K.C.B.), 1858      **Two Years in the Jungle** William Temple Hornaday, 1885      **Indonesian Primates** Sharon Gursky-Doyen, Jatna Supriatna, 2010-01-15 Indonesia possesses the second largest primate population in the world with over 33 different primate species Although Brazil possesses more primate species Indonesia outranks it in terms of its diversity of primates ranging from prosimians slow lorises and tarsiers to a multitude of Old World Monkey species macaques langurs proboscis monkeys to lesser apes siamangs gibbons and great apes orangutans The primates of Indonesia are distributed throughout the archipelago Partly in response to the number of primates distributed throughout the Indonesian archipelago Indonesia is classified as the home of two biodiversity hotspots Wallacea and Sundaland In order to be classified as a hotspot an area must have a large proportion of endemic species coupled with a high degree of threat including having lost more than 70% of its original habitat Two areas within Indonesia meet these criteria The tremendous diversity of primates in Indonesia in conjunction with the conservation issues facing the primates of this region created a need for this volume

**The Killing Jars** Dan Neil, 2007-02-14 John Trickett is a rancher in southern Saskatchewan suffering from guilt since his brother Luke vanished from the world twenty five years ago Luke was diagnosed with Schizophrenia while studying Entomology at the University of British Columbia and was institutionalized by his family who could not bear the shame of another illness Institutions closed and Luke fell through the cracks When John's father calls him to his house in Maple Creek

he finds his frail mother clutching a newspaper article on the lost souls living in the ravines of Toronto There is a photograph She thinks it s Luke and pleads John to bring him home He makes a promise to her and to himself to reconcile a life lost But John s wife Nora implores him not to go She has a dire fear of Luke and what his return may bring to Windrush John defies Nora and leaves on a journey to Toronto s netherworld in the ravines of Toronto where he meets Steven a contemptible panhandler But he knows how to find Luke John befriends him and soon learns that he is more than he seems an intelligent young man hiding from unimaginable horrors Finally Steven leads John to Luke Together at long last Luke is skittish wild and does not recognize John In that moment enemies of Steven interrupt the reunion There is a shooting and Luke is wounded Luke recovers and in the fall John brings him home to Windrush Nora tries to accept him but cannot see past her fear Still John is determined to make things right at all costs to give Luke back the life taken from him But all is not well with Luke He is lost again And John comes to terms with his past What his family did and did not do for Luke could never be truly forgiven but at last acknowledged and accepted to allow space for new beginnings

Slocum 346 Jake Logan,2007-11-27 A man owes Slocum his life and Slocum aims to collect Joe Cash is fit to be lynched when Slocum first sees him Unaware of the man s name let alone his nasty lack of character Slocum takes pity and saves his neck Getting them both mixed up in a ranch war Cash turns from bad to evil Switching sides for profit he sends a young ranch hand to do Slocum in only to turn tail when the scheme doesn t work Now Slocum s on his trail about to undo the mistake of saving Cash s life

Conservation and the Use of Wildlife Resources Melvin Bolton,1997-06-30 Not everybody cares about the fate of wild animals or the state of the natural environment I met a lady who said it wouldn t worry her if all the wild animals in the world disappeared overnight She was a city person she said There are also people who would prefer

to let animals become extinct than to have them kept in captivity no matter how progressive the zoo There are those who on principle will not eat meat let alone do the killing and there are those who enjoy nothing so much as shooting birds People in the last two camps may oppose each other in claiming to be conservationists Extremists are unlikely to find their opinions being reversed by this book but because of the scope of the subject I believe there is a good chance that anybody with an interest in wildlife will find in it something new to think about It may not be too much to hope that a few disagreements might also be settled because I suspect there is more common ground than is generally realized among those with opposing views *Cases Argued and Decided in the Supreme Court of Mississippi* Mississippi. Sindhu Radhakrishna,Michael A. Woodrow Call leave their Texas ranch to lead a cattle drive to Montana encountering outlaws Native Americans and ex loves along the way **Shooting Ladders** Gary Keeney,2010-08-03 *Shooting Ladders* is a book of advice written to a little girl named Tori She was four years old when the author started writing the first topic and she was eight years old when he finished the last topic But he didn't write it for the Tori of then or even the Tori of now instead he wrote it for the Tori of the

future as something to help her make the right decisions in her late childhood early adult years and throughout her life The book contains the authors opinions on hundreds of various subjects some of them practical many of them philosophical some serious some whimsical On a typical subject the author tells a story from his own personal experiences and then adds a moral lesson for her to learn from the story Although hes not trying to tell her what to think he is trying to guide her into making the proper decisions in life The author hopes that she will carefully weigh all the options and choose the paths that lead her to a good and happy life
