arts law economy science medicine and commerce etc At the academic level Muslim philosophers educationists and experts of Islamic law have made great contributions The evolution of Islam has impacted the political economic and military history of an enormous geographical region A century after the demise of Prophet Muhammad PbuH the Islamic empire extended from the Atlantic Ocean in the west to Central Asia in the east Islamic civilization gave rise to many centers of culture and science and produced notable philosophers scientists astronomers mathematicians doctors and nurses during the Golden Age of Islam In today s world Islam is one of the major religions and perhaps there is hardly any corner of the world where Muslims are not found History of Islam is a vast subject Here it is in a concise form This modest work a comprehensive book in one cover is an effort in the direction of recording the history of Islam in nutshell authentically This excellent book is an asset for all scholars and academics in all spheres of learning *History of Islamic Philosophy* I.M.N. Al-Jubouri, 'Imād al-Dīn Jubūrī, 2004 Very occasionally a book appears which provides a perfect bridge between amateurs and professionals This event is usually less likely to happen in the somewhat arcane field of philosophy and almost beyond concept in the English speaking world when the subject is entwined with the history of Islam The finer points of philosophical issues are also discussed and presented to enable anyone whether a scholar or not Arabic or Westerner to understand the truths these ancients sought A Short History of Freethought John Mackinnon Robertson, 1899 *The Wiley Blackwell History of Islam* Armando Salvatore, Roberto Tottoli, Babak Rahimi, 2018-06-18 A theoretically rich nuanced history of Islam and Islamic civilization with a unique sociological component This major new reference work offers a complete historical and theoretically informed view of Islam as both a religion and a sociocultural force Uniquely comprehensive it surveys and discusses the transformation of Muslim societies in different eras and various regions providing a broad narrative of the historical development of Islamic civilization This text explores the complex and varied history of the religion and its traditions It provides an in depth study of the diverse ways through which the religious dimension at the core of Islamic traditions has led to a distinctive type of civilizational process in history The book illuminates the ways in which various historical forces have converged and crystallized in institutional forms at a variety of levels embracing social religious legal political cultural and civic dimensions Together the team of internationally renowned scholars move from the genesis of a new social order in 7th century Arabia right up to the rise of revolutionary Islamist currents in the 20th century and the varied ways in which Islam has grown and continues to pervade daily life in the Middle East and beyond This book is essential reading for students and academics in a wide range of fields including sociology history law and political science It will also appeal to general readers with an interest in the history of one of the world s great religions A Short History of the Fatimid Khalifate De Lacy O'Leary, 1923 *A short history of Islam* S.
