Hucker, 1978 By the author of the highly acclaimed *China's Imperial Past* and written in the same lively style this is a distillation of what every general reader and beginning student should know about the history of traditional Chinese civilization It weaves together chronologically all aspects of Chinese life and culture broadly surveying general history socioeconomic organization political institutions religion and thought and art and literature The author explains how the Chinese empire emerged in antiquity how it flourished and declined in successive cycles for thousands of years and how in the end it found itself unprepared for both the domestic and the external challenges of the modern era The result is a concise overview that is both absorbing in itself and basic to a more detailed study of China's long and complex evolution I A Brief History of the Relationship Between Confucianism, Daoism, and Buddhism Zhongjian Mou, 2023-01-01 Chinese traditions of Confucianism Daoism and Buddhism have a profoundly philosophical dimension The three traditions are frequently referred to as three paths of moral teachings In this book Mou provides a clear account of the textual corpus that emerges to define each of these traditions and how this canonical axis was augmented by a continuing commentarial tradition as each generation reauthorized the written core for their own time and place In his careful exegesis Mou lays out the differences between the

more religious reading of these traditions with their defining practices that punctuate the human journey through life and the more intellectual and philosophical treatment of the texts that has and continues to produce a first order culture of annotation that become integral to the traditions themselves At the center of the alternative religious experience reflected throughout the teachings of Confucianism Daoism and Buddhism is the project of personal cultivation as it comes to be expressed as robust growth in family and communal relations For Mou these three highly distinctive and yet complementary ways of thinking and living constitute a kind of moral ecology wherein each of them complements the others as they stand in service to a different dimension of the human need for an educated spirituality *A Short History of Chinese Civilization*
