Short History Of Western Performance Space:

A Short History of Western Performance Space David Wiles, 2003-10-02 This innovative book provides a historical account of performance space within the theatrical traditions of western Europe David Wiles takes a broad based view of theatrical activity as something that occurs in churches streets pubs and galleries as much as in buildings explicitly designed to be theatres He traces a diverse set of continuities from Greece and Rome to the present including many areas that do not figure in standard accounts of theatre history

A Short History of Western Performance Space David Wiles, 2003-10-02 David Wiles considers theatrical activity happening in churches streets pubs and galleries as well as in buildings explicitly designed to be theaters in this historical account Surveying performance space usage within the traditions of Western Europe Wiles traces a diverse set of continuities from Greece and Rome to the present including many areas not included in standard accounts of theater history

Shipping Out Anita Gonzalez, 2025-02-25 Shipping Out Race Performance and Labor at Sea provides a rare perspective on performance by staff above and below deck on Caribbean cruise ships as viewed through the lenses of race class and gender Drawing on her experiences as a destination lecturer on Caribbean cruise lines for twenty years Anita Gonzalez offers a unique viewpoint as she examines contemporary Caribbean cruise culture as an ethnographically complex site where North American and European travelers are exposed to other cultures through the orchestrated experiences on ship and via excursions to ports Gonzales argues that the cruise ship experience is deliberately crafted to deliver the best immersive performance by its workers However the workers never leave the theater they merely move below deck and like ships stewards and cooks from previous centuries they work within an imaginary where Global Majority people are envisioned as servants By utilizing ethnography and archival materials to illustrate ship workers experiences on contemporary cruise ships and then contrasting those circumstances with the personal accounts of workers on historical merchant ships Shipping Out illuminates how workers presence on ships complicates notions of freedom and enslavement home and journey place and space

New Theatre Quarterly 77: Volume 20, Part 1 Simon Trussler, Clive Barker, 2006-05-18 Provides an international forum where theatrical scholarship and practice can meet

Performing Wales Lisa Lewis, 2018-05-15 This book uses ideas from performance studies to examine Welsh culture as performance Focusing on three aspects central to the investigation notions of people memory and place all of which are central to definitions of Welsh cultural performance the book explores these aspects in relation to specific case studies taken from the museum from heritage festival and theatre

Event-Space Dorita Hannah, 2018-07-11 As the symbolists constructivists and surrealists of the historical avant garde began to abandon traditional theatre spaces and embrace the more contingent locations of the theatrical and political event the built environment of a performance became not only part of the event but an event in and of itself Event Space radically re evaluates the avant garde s championing of nonrepresentational spaces drawing on the specific fields of performance studies and architectural studies to establish a

theory of performative architecture Event was of immense significance to modernism's revolutionary agenda resisting realism and naturalism and simultaneously the monumentality of architecture itself Event Space analyzes a number of spatiotemporal models central to that revolution both illuminating the history of avant garde performance and inspiring contemporary approaches to performance space *Theatre Symposium*, Vol. 24 Arnab Banerji, 2016-07-19 At a time when so many options exist for access to theatrical entertainments it is no surprise that theatre practitioners and scholars are often preoccupied with the role of the audience While space undoubtedly impacts the rehearsal and production processes its greater significance seems to rest in the impact a specific location has on the audience This volume delves into issues of theatre and space traversing traditional theatre spaces such as the African Grove Theater discussed by Gregory Carr Tony Gunn's examination of Edward Gorey's theatrical designs and George Pate's reflections on Beckett's stage directors Also highlighted are some decidedly innovative spaces like those described by J K Curry in her examination of Theatre for One and modern uses of medieval sacred spaces as detailed by Carla Lahey Whether positive or negative in scope meanings generated within theatre spaces are impacted by the cultural context from which they emerge the ways in which space is conceived scrutinized and experienced As a result the relationship between space theatre and audience is diverse complex and ever changing in practice

A Cultural History of Theatre in Antiquity Martin Revermann, 2019-08-08 Theatre was at the very heart of culture in Graeco Roman civilizations and its influence permeated across social and class boundaries The theatrical genres of tragedy comedy satyr play mime and pantomime operate in Antiquity alongside the conception of theatre as both an entertainment for the masses and a vehicle for intellectual political and artistic expression Drawing together contributions from scholars in Classics and Theatre Studies this volume uniquely examines the Greek and Roman cultural spheres in conjunction with one another rather than in isolation Each chapter takes a different theme as its focus institutional frameworks social functions sexuality and gender the environment of theatre circulation interpretations communities of production repertoire and genres technologies of performance and knowledge transmission

comedy for the first time in or out of the classroom would do well to start with *A Short Introduction to Ancient Greek Theater* Didaskalia **The Oxford Companion to Theatre and Performance** Dennis Kennedy, 2010-08-26 An authoritative reference covering primarily actors playwrights directors styles and movements companies and organizations **Reseña de "A Short History of Western Performance Space" de David Wiles** María Inés Saravia de Grossi, 2005 Between Jerusalem and Athens Nurit Yaari, 2018 This first in depth study of the reception of ancient Greek drama in Israeli theatre over the last 70 years offers ground breaking analysis of a wide range of translations adaptations and new writing and how performances of these works were created and staged at key points in the development of Israeli culture *Theory for Theatre Studies: Space* Kim Solga, 2019-02-07 Space it s everywhere all around a given It s abstract and yet not abstract at all because it governs all human relations shapes the way we understand our place on the planet and orients us toward others for better and for worse How do theatre scholars understand space and place in performance What tools do they use to theorize the political work space does on and beyond the stage How can students use these tools to unpack the workings of space and place in the performances they see the plays they study and the experiences they have outside their classrooms *Theory for Theatre Studies Space* provides a comprehensive introduction to the spatial turn in modern theatre and performance theory exploring topics as diverse as embodied space environmental performance politics and urban performance studies The book is written in accessible prose and features in depth case studies of Platform s audio walk And While London Burns Katie Mitchell s Fra lein Julie Young Jean Lee s The Shipment and Evalyn Parry and Laakkuluk Williamson Bathory s Kiinalik These Sharp Tools TftS Space begins with fresh readings of historical dramatic theory discusses twentieth century theoretical trends at length and ends by asking what it will take and what work is already underway to decolonize the Western settler colonial stage Online resources to accompany this book are available at www.bloomsbury.com/uk/theory-for-theatre-studies-space 9781350006072 *Medieval English Drama* Katie Normington, 2013-04-30 *Medieval English Drama* provides a fresh introduction to the dramatic and festive practices of England in the late Middle Ages The book places particular emphasis on the importance of the performance contexts of these events bringing to life a period before permanent theatre buildings when performances took place in a wide variety of locations and had to fight to attract and maintain the attention of an audience Showing the interplay between dramatic and everyday life the book covers performances in convents churches parishes street processions and parades and in particular distinguishes between modes of outdoor and indoor performance Katie Normington aids the reader to a fuller understanding of these early English dramatic practices by explaining the significance of the place of performance the particularities of spectatorship for each event and how the conventions of the form of drama were manipulated to address its reception Audiences considered range from cloistered members congregations and parish members to urban citizens nobles and royalty Undergraduate students of literature of this period will find this an approachable and illuminating guide

Democracy, Theatre and Performance David Wiles, 2024-06-27 Democracy argues David Wiles is actually a form of theatre In making his case the author deftly investigates orators at the foundational moments of ancient and modern democracy demonstrating how their performative skills were used to try to create a better world People often complain about demagogues or wish that politicians might be more sincere But to do good politicians paradoxically must be hypocrites or actors Moving from Athens to Indian independence via three great revolutions in Puritan England republican France and liberal America the book opens up larger questions about the nature of democracy When in the classical past Plato condemned rhetoric the only alternative he could offer was authoritarianism Wiles bold historical study has profound implications for our present calls for personal authenticity he suggests are not an effective way to counter the rise of populism

Street theatre and the production of postindustrial space David Calder, 2019-03-26 This electronic version has been made available under a Creative Commons BY NC ND open access license Deindustrialising communities have called upon street theatre companies to re animate public space and commemorate industrial heritage How have these companies converted derelict factories into spaces of theatrical production How do they connect their work to the industrial work that once occurred there How do those connections manifest in theatrical events and how do such events give shape and meaning to ongoing redevelopment projects This book develops an understanding of the relationship between theatre and redevelopment that goes beyond accusations of gentrification or celebrations of radical resistance Ultimately Calder argues that deindustrialisation and redevelopment depend on theatrical events and performative acts to make ongoing change intelligible and navigable Working memories brings together some of current theatre scholarship s fundamental concerns while demonstrating the significance of those concerns to an interdisciplinary readership

Theatre and Performance Design Jane Collins, Andrew Nisbet, 2012-10-02 Theatre and Performance Design A Reader in Scenography is an essential resource for those interested in the visual composition of performance and related scenographic practices Theatre and performance studies cultural theory fine art philosophy and the social sciences are brought together in one volume to examine the principle forces that inform understanding of theatre and performance design The volume is organised thematically in five sections looking the experience of seeing space and place the designer the scenographic bodies in space making meaning This major collection of key writings provides a much needed critical and contextual framework for the analysis of theatre and performance design By locating this study within the broader field of scenography the term increasingly used to describe a more integrated reading of performance this unique anthology recognises the role played by all the elements of production in the creation of meaning Contributors include Josef Svoboda Richard Foreman Roland Barthes Oscar Schlemmer Maurice Merleau Ponty Richard Schechner Jonathan Crary Elizabeth Wilson Henri Lefebvre Adolph Appia and Herbert Blau

Mapping Irish Theatre Chris Morash, Shaun Richards, 2013-12-12 Seamus Heaney once described the sense of place generated by the early Abbey theatre as the imaginative protein of later Irish writing Drawing

on theorists of space such as Henri Lefebvre and Yi Fu Tuan Mapping Irish Theatre argues that theatre is a machine for making place from space Concentrating on Irish theatre the book investigates how this Irish sense of place was both produced by and produced the remarkable work of the Irish Revival before considering what happens when this spatial formation begins to fade Exploring more recent site specific and place specific theatre alongside canonical works of Irish theatre by playwrights including J M Synge Samuel Beckett and Brian Friel the study proposes an original theory of theatrical space and theatrical identification whose application extends beyond Irish theatre and will be useful for all theatre scholars

Theatre, Exhibition, and Curation Georgina Guy, 2016-04-20 Examining the artistic intellectual and social life of performance this book interrogates Theatre and Performance Studies through the lens of display and modern visual art Moving beyond the exhibition of immaterial art and its documents as well as re enactment in gallery contexts Guy's book articulates an emerging field of arts practice distinct from but related to increasing curatorial provision for live performance Drawing on a recent proliferation of object centric events of display that interconnect with theatre the book approaches artworks in terms of their curation together and re theorizes the exhibition as a dynamic context in which established traditions of display and performance interact By examining the current traffic of ideas and aesthetics moving between theatricality and curatorial practice the study reveals how the reception of a specific form is often mediated via the ontological expectations of another It asks how contemporary visual arts and exhibition practices display performance and what it means to generalize the theatrical as the optic or directive of a curatorial concept Proposing a symbiotic relation between theatricality and display Guy presents cases from international arts institutions which are both displayed and performed including the Tate Modern and the Guggenheim and assesses their significance to the enduring relation between theatre and the visual arts The book progresses from the conventional alignment of theatricality and ephemerality within performance research and teases out a new temporality for performance with which contemporary exhibitions implicitly experiment thereby identifying supplementary modes of performance which other discourses exclude This important study joins the fields of Theatre and Performance Studies with exciting new directions in curation aesthetics sociology of the arts visual arts the creative industries the digital humanities cultural heritage and reception and audience theories
