

WORLD WAR II

A SHORT HISTORY

Short History Of World War I

Gary Sheffield

Short History Of World War I:

World War I Tammy M. Proctor, 2017-10-05 A lively engaging history of The Great War written for a new generation of readers In recent years scholarship on World War I has turned from a fairly narrow focus on military tactics weaponry and diplomacy to incorporate considerations of empire globalism and social and cultural history This concise history of the first modern global war helps to further broaden the focus typically provided in World War I surveys by challenging popular myths and stereotypes to provide a new engaging account of The Great War The conventional World War I narrative that has evolved over the past century is that of an inevitable but useless war where men were needlessly slaughtered due to poor decisions by hidebound officers This characterization developed out of a narrow focus on the Western Front promulgated mainly by British historians In this book Professor Proctor provides a broader more multifaceted historical narrative including perspectives from other fronts and spheres of interest and a wider range of participants She also draws on recent scholarship to consider the gendered aspect of war and the ways in which social class religion and cultural factors shaped experiences and memories of the war Structured chronologically to help convey a sense of how the conflict evolved Each chapter considers a key interpretive question encouraging readers to examine the extent to which the war was total modern and global Challenges outdated stereotypes created through a focus on the Western Front Considers the war in light of recent scholarship on empire global history gender and culture Explores ways in which the war and the terms of peace shaped the course of the 20th century World War I A Short History is sure to become required reading in undergraduate survey courses on WWI as well as courses in military history the 20th century world or the era of the World Wars *World War One* Norman Stone, 2009-04-28 After the unprecedented destruction of the Great War the world longed for a lasting peace The victors however valued vengeance even more than stability and demanded a massive indemnity from Germany in order to keep it from rearming The results as eminent historian Norman Stone describes in this authoritative history were disastrous In World War Two Stone provides a remarkably concise account of the deadliest war of human history showing how the conflict roared to life from the ashes of World War One Adolf Hitler rode a tide of popular desperation and resentment to power in Germany promptly making good on his promise to return the nation to its former economic and military strength He bullied Europe into giving him his way and in so doing backed the victors of the Great War into a corner Following the invasion of Poland in 1939 Britain and France declared war on Germany a decision that Stone argues was utterly irrational Yet Hitler had driven the world mad and the rekindling of European hostilities soon grew to a conflagration that spread across the globe fanned by political and racial ideologies more poisonous and weaponry more destructive than the world had ever seen With commanding expertise Stone leads readers through the escalation climax and mournful denouement of this sprawling conflict World War Two is an invaluable contribution to our understanding of the twentieth century and its defining struggle **A Short History of World War I** James L. Stokesbury, 2024-03-19 A concise history

covering the causes and the battles of the world's first global conflict the war to end all wars World War I was a bloodletting so vast and unprecedented that for a generation it was known simply as the Great War Casualty lists reached unimagined proportions as the same ground places like Ypres and the Somme was fought over again and again Other major bloody battles remain vivid in memory to this day Gallipoli and the Battle of Jutland are but two examples Europe was at war with itself and the effect on Western civilization was profound its repercussions felt even today World War I saw the introduction of modern technology into the military arena The tank airplane machine gun submarine and most lethal of all poison gas all received their first widespread use Professor James L Stokesbury analyzes these technological innovations and the war's complex military campaigns in lucid detail At the same time he discusses the great political events that unfolded during the war such as the Russian Revolution and the end of the Hapsburg dynasty putting the social and political side of the war into the context of modern European history Includes Maps

A Short History of World War I James E. Edmonds (Brigadier-General Sir.), **A Short History of the Great World War** F. The United States in World War I James T. Controvich, 2023-05-08 With the centennial of the First World War rapidly approaching historian and bibliographer James T Controvich offers in *The United States in World War I A Bibliographic Guide* the most comprehensive up to date reference bibliography yet published Organized by subject this bibliography includes the full range of sources vintage publications of the time books pamphlets periodical titles theses dissertations and archival sources held by federal and state organizations as well as those in public and private hands including historical societies and museums As Controvich's bibliographic accounting makes clear there were many facets of World War I that remain virtually unknown to this day Throughout Controvich's bibliography tracks the primary sources that tell each of these stories and many others besides during this tense period in American history Each entry lists the author title place of publication publisher date of publication and page count as well as descriptive information concerning illustrations plates ports maps diagrams and plans The armed forces section carries additional information on rosters awards citations and killed and wounded in action lists *The United States in World*

War I A Bibliographic Guide is an ideal research tool for students and scholars of World War I and American history [A Short History of the U.S. Department of State, 1781-1981](#) David F. Trask, 1981 **The Battles of the British Expeditionary Forces, 1914-1915** Fred R. van Hartesveldt, 2005-04-30 In this valuable resource over 1 000 annotated sources from Great Britain France and Germany offer a historiographical reference for study of the British army at the beginning and in the first battles of World War I Unique to this bibliography is the comprehensive coverage of sources resulting in a more complete picture of the circumstances of activities of the British Expeditionary Force BEF Sources include coverage of the BEF s military role as well as background information about domestic military considerations and Allied and enemy efforts This volume will support researchers and students in their efforts to find out what the Expeditionary Force s contributions were in World War I and for expanding their knowledge of the Great War and British military history In this valuable resource over 1 000 annotated sources from Great Britain France and Germany offer a historiographical reference for study of the British army at the beginning and in the first battles of World War I Unique to this bibliography is the comprehensive coverage of sources and it results in a more complete picture of the circumstances of activities of the British Expeditionary Force BEF Sources include coverage of the BEF s military role as well as background information about domestic military considerations and Allied and enemy efforts This volume will support researchers and students in their efforts to find out what the Expeditionary Force s contributions were in World War I and for expanding their knowledge of the Great War and British military history The volume includes four chapters of historiographical essays discussings the interpretations and controversies that surround the performance and leadership of the BEF in 1914 1915 The essays direct readers to the major sources that support various ideas and indicate gaps in the historiography of the subject Following the historiographical essays is an annotated bibliography of more than 1 000 sources that are relevant to the study of the BEF

World War I Michael J. Lyons, 1994 Explores the origins course and effects of the First World War Offers a synthesis of various interpretations of the many controversies of the war as well as analysis of the peace settlement and the political and economic disruption that developed in the conflict s wake Includes maps and biograp [A Short History of the Great World War](#) Frederick Maynard Bridge, 1920 [A Short History of the Great War](#) A. F. Pollard, 2023-09-18 Reproduction of the original The publishing house Megali specialises in reproducing historical works in large print to make reading easier for people with impaired vision [A Short History of American Industrial Policies](#) William R. Nester, 2016-07-27 For nearly four centuries Americans have debated the government s proper role in developing the economy Some argue that the economy develops the best when government intervenes the least Others counter that the economy best develops when government and business work together to that end [A Short History of American Industrial Policies](#) analyzes the ideological political and industrial policy struggle from the colonial era to the 1990s To give a complete understanding both the chronology and process of America s industrial policymaking and policies are explored in depth throughout [A Short History of the](#)

Twentieth Century John Lukacs, 2013-10-07 The great themes woven through John Lukacs's spirited concise history of the twentieth century are inseparable from the author's own intellectual preoccupations: the fading of liberalism, the rise of populism and nationalism, the achievements and dangers of technology, the continuing democratization of the globe and the limitations of knowledge.

A Short History of the Ottoman Empire Renée Worringer, 2021 The question of who were the Ottomans has occupied many scholars over the last hundred years. The Ottoman Empire was a formidable force involved in European politics and commerce almost since its inception, yet despite its prominence the Ottomans are often not emphasized in narratives of medieval and early modern Europe. Beginning with an introduction to pre-Ottoman history, this book traces the emergence of the Ottoman Empire from the Turkic migrations out of Central Asia to their encounters with the Islamic world. It also explores the expansion of Ottoman rule not just into the Middle East but into the Balkans and North Africa. Uncovering the strategies behind the longevity of the Ottoman Empire, the author highlights the Empire's pragmatism and flexibility in governing over vast territories and diverse peoples. Beautifully illustrated in full color throughout, *A Short History of the Ottoman Empire* utilizes clear headings, themes, text boxes, primary source translations, and maps to assist students in understanding the Empire's complex and lengthy history.

A Very Short History of the American Empire Vol. I John Yorks, This is a very very short book or a long essay depending on your point of view. It begins with the early attempts to connect Canada to the United States, often against the wishes of the Canadians and often through force. It ends just about the time of WWI with Eugen Debs sitting in a prison cell for speaking out against the war and Jeannette Rankin being one of the few members of Congress to vote against WWI, not to mention the only one to vote against WWII much later. Mark Twain, Smedley Butler, and others played a role in shaping the American anti-imperialist faction.

A Short History of Physics in the American Century David C. Cassidy, 2013-09-02 As the twentieth century ended, computers, the Internet, and nanotechnology were central to modern American life. Yet the physical advances underlying these applications are poorly understood and underappreciated by U.S. citizens. In this overview, Cassidy views physics through America's engagement with the political events of a tumultuous century.

A Short History of the Great War A. F. Pollard, 2023-07-18 First published in 1920, this concise history of World War I provides an overview of the causes, major battles, and consequences of the war. The author, a noted historian and biographer, offers a balanced and insightful analysis of the conflict with particular emphasis on its impact on European politics and society. The book includes maps and illustrations. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America and possibly other nations. Within the United States, you may freely copy and distribute this work as no entity, individual, or corporate has a copyright on the body of the work. Scholars believe and we concur that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge.

alive and relevant *A Short History of World War I. Compiled by James E. Edmonds* James E. Edmonds, 1951 **A Short History of the First World War** Gordon Kerr, 2014-06-26 The First World War lasting just four years from 1914 to 1918 was without parallel the first true global conflict in which all of the earth's great powers participated A Short History of the First World War tells the story of this cataclysmic event describing the background to war the international rivalries and conflicts of the previous decades that led to the nations of Europe forming virtual armed camps the relentless build up of military and naval hardware that characterized the early years of the 20th century and the great figures that tried to prevent conflict or enthusiastically pushed for it A Short History of the First World War provides a superb introduction to the events of this epochal conflict *Short History of the First World War* Gary Sheffield, 2014-09-04 The First World War was a watershed in world history Tragic but far from futile its origins events and legacy have roused impassioned debate creating multiple interpretations and confusion for those encountering the period for the first time Synthesising the latest scholarship acclaimed historian Gary Sheffield cuts to the heart of the conflict He explores such key issues as the causes of war the great battles on land sea and in the air the search for the peace and peace settlements the political social and economic consequences the impact of total war on the belligerents and the individual and the place of the Great War in the history of warfare Accessible and authoritative this is the ultimate introduction for anyone wanting a clear understanding of what happened and why
