Homestead, 2021-03-02 A groundbreaking new look at American novelist Willa Cather's creative process What would Willa Cather's widely read and cherished novels have looked like if she had never met magazine editor and copywriter Edith Lewis In this groundbreaking book on Cather's relationship with her life partner author Melissa J Homestead counters the established portrayal of Cather as a solitary genius and reassesses the role that Lewis who has so far been rendered largely invisible by scholars played in shaping Cather's work Inviting Lewis to share the spotlight alongside this pivotal American writer Homestead argues that Lewis was not just Cather's companion but also her close literary collaborator and editor Drawing on an array of previously unpublished sources Homestead skillfully reconstructs Cather and Lewis's life together from their time in New York City to their travels in the American Southwest

that formed the basis of the novels *The Professor's House* and *Death Comes for the Archbishop*. After Cather's death and in the midst of the Cold War panic over homosexuality the story of her life with Edith Lewis could not be told but by telling it now Homestead offers a refreshing take on lesbian life in early twentieth century America. *The History of Modern Korean Fiction (1890-1945)* Young Min Kim, 2020-11-09 This book explores the history of modern Korean literature from a sociocultural perspective. Rather than focusing solely on specific authors and their works Young Min Kim argues that the development of modern media shifting conceptualizations of the author and a growing mass readership fundamentally shaped the types of narratives that appeared at the turn of the twentieth century. In particular Kim follows the trajectory of the *sin sosol* new fiction as it meshed with the new print and media culture to give rise to innovative and hybrid genres and literary styles. In doing so he compellingly illuminates the relationship between literary systems and forms and underscores the necessity of re-locating literary texts in their sociohistorical contexts. *Write with Fire* Charles Allen Gramlich, 2009-07-01 This guide to writing fiction is divided into three sections. Part One deals with the mechanics of writing. How do you get ideas and shepherd them through the writing and editing process into finished and publishable form? Where do you look for markets? Part Two consists of more general articles about writing and writers. Part Three includes pieces that are more personal to the author's own history as a writer. A bibliography of suggested reading completes the guide. Page 4 of cover. **Author and Journalist**, 1925 [PLOTTO Genie: The Endless Story](#) Dr. Robert C. Worstell, 2017-10-19 How to Build Plots That Grab Your Readers and Won't Let Go By Building and Integrating Characters, Story Arcs and Engaging Themes Ever wonder what makes a great book or movie different from a pitiful excuse for entertainment? Mostly it starts with a plot. But what makes a plot work? From months of my own studying the vast numbers of approaches to plotting it's clear that there is still a wide gulf between the mechanics of a plot and having a working framework usable for any writer. This led to the study of two authors who had already done their own studies of which plots made successful entertainment and actually built their own still popular plot generators based on this knowledge. Many well known and obscure writers have used these methods instead of being dogged by writer's block. The answers to what makes a great plot are simple and few. The bonus in this book is giving you your own plot generator to help you when you're stuck. So writes Bei Dao in his preface to *Loud Sparrows*, a spirited collection of ninety-one short shorts, an exciting new form of extreme short storytelling that has swept the creative consciousness of mainland China, Hong Kong and Taiwan.
