Ethical Issues in Biotechnology Richard Sherlock, John D. Morrey, 2002-10-16 *Ethical Issues in Biotechnology* is the first textbook of its kind written collaboratively by a philosopher and a biologist to provide undergraduate students with a comprehensive accessible introduction to the ethical and scientific fundamentals of biotechnology Engaging the ethics and the science side by side the text addresses pressing questions in agricultural food and animal biotechnology human genetics gene therapy human cloning and stem cell research A general introduction to both the moral philosophy and fundamentals of genetics is enhanced throughout the text with section specific introductions addressing the particular philosophical and scientific challenges posed by the topic under consideration Diagrams and drawings study cases liberal use of practical examples and suggestions for further reading make the text an ideal resource for a broad range of students interested in issues and questions lying at the intersection of philosophy and

genetics **Dealing with Doctors, Denial, and Death** Aroop Mangalik, 2017-01-13 Often when death is the inevitable and impending outcome of a health diagnosis doctors are reluctant to discuss alternatives to treatment feeding into a culture of denial that can result in expensive ineffective and unnecessary over treatment that may or may not extend life but almost always damages the quality of life Here a seasoned doctor and researcher looks at the ways in which we are accustomed to treating illness at all costs even at the expense of the quality of a patient's life He considers our culture of denial the medical profession's role in over treating patients and end of life care and the patient's options and role in these decisions The goal is to help patients and families make informed decisions that may help the seriously ill live better with their illnesses This profoundly empowering book will help people make informed decisions about their lives and medical care especially those who have a life threatening or life changing illness themselves or have a family member living with one Incorporating specific questions for patients to ask their doctors and discuss with their families the book provides an analysis of various forces that influence our decision making The book also examines the professional psychological economic and social pressures that influence physicians treating seriously ill patients including those that lead doctors to recommend treatments that may be futile The book concludes with resources that seriously ill patients and their families can call upon to give them support and assist with the logistical emotional and spiritual challenges of end of life care *Playing God?* John H. Evans, 2002
