Farming with Horses Steven Bowers Marlen Steward, In the early twentieth century the proliferation of farm tractors dramatically eased the burden on America's farmers. It seemed the day of the horse drawn plough was well over. And yet today with a new generation working smaller spreads for reasons of necessity, economics or personal conviction, draft horses are going back to work in a big way and proving their worth once more. This book by a widely respected trainer of working horses aims to show those new to farming with horses or those simply in need of a brush up everything they need to make the old ways work like new. With a wealth of color illustrations and clear to the point prose *Farming with Horses* reviews the different types of harness and collar, explains how to select a work horse and how to hitch a horse to an implement and fully describes lateral and longitudinal alignment, rein grips and every other aspect of farming with horses.

New Zealand Farmer Weekly, 1926

Horse Power and Magic George Ewart Evans, 2012-03-15 The pioneering oral historian George Ewart Evans began to record the farming ways of East Anglia in the 1950s by listening to old men and women whose memories went back more than fifty or sixty years. Many were agricultural labourers born before the turn of the century who had worked on farms before the arrival of mechanisation. It was assumed at that time that horses would soon disappear from the farms and that this was the last chance of recording the part they had played for centuries. It later became clear that this forecast was too pessimistic and in *Horse Power and Magic* Faber 1979 Ewart Evans describes in fascinating detail some important farms where horses continued to be beneficially used more than thirty years later. He discovered that the traditions of the older horsemen had not died out but had been passed on in only slightly attenuated form to a younger generation keen to farm with horses, proving that the day of the heavy horse was by no means over. He also describes vividly the ways of horse tamers whose skills had a touch of magic about them. Taking his works as a whole, there is no doubt that George Ewart Evans will survive as a fascinating pioneer of the extra-academic recording of human history; he has found a dimension all his own. This is indeed the very stuff of history.

The Mother of All Arts Gene Logsdon, 2007-07-20 When Gene Logsdon realized that he experienced the same creative joy from farming as he did from writing, he suspected that agriculture itself was a form of art. Thus began his search for the origins of the artistic impulse in the agrarian lifestyle. *The Mother of All Arts* is the culmination of Logsdon's journey, his account of friendships with farmers and artists driven by the urge to create. He chronicles his long relationship with Wendell Berry and discovers the playful humor of several new agrarian writers. He reveals insights gleaned from conversations with Andrew Wyeth and his family of artists. Through his association with musicians such as Willie Nelson and his involvement with Farm Aid, Logsdon learns how music, blues, jazz, country and even

rock n roll is also rooted in agriculture Logsdon sheds new light on the work of rural painters writers and musicians and suggests that their art could be created only by those who work intimately with the land Unlike the gritty realism or abstract expressionism often favored by contemporary critics agrarian art evokes familiar feelings of community and comfort Most important Logsdon convincingly demonstrates that diminishing the connection between art and nature lessens the social and aesthetic value of both The Mother of All Arts explores these cultural connections and traces the development of a new agrarian culture that Logsdon believes will eventually replace the model brought about by the industrial revolution

Humorous and introspective the book is neither conventional cultural criticism nor traditional art criticism It is a unique lively meditation on the nature and purpose of art and on the life well lived by one of the truly original voices of rural America **The British Veterinary Journal** ,1917 **Peter Leone's Show Jumping Clinic** Kimberly S.
