Handbook of Decision Making Goktug

Morcol, 2006-11-01 Handbook of Decision Making includes the wisdom of the long theological and philosophical traditions of human society as well as a systematic exploration of the implications of contemporary evolutionary theories. Common patterns in decision making styles are identified as well as the common variations that different contexts may generate. The text covers the multiplicity of mainstream decision making styles such as cost benefit analysis and linear programming. It also explains alternative and emerging methods such as geographic information systems, Q methodology and narrative policy analysis. Practical applications are discussed using decision making practices in budgeting, public administration and governance, drug trafficking and information systems.

The Operator's Manual for the New Administration Mark A.

Abramson, 2008-06-27 The Operator's Manual for the New Administration explains how government works and how to make it work to advance policy goals and objectives. Bringing decades of experience in government administration, the authors have identified eight key tools: leadership, performance, people, money, contracting, technology, innovation, and collaboration that executives must utilize in order to be successful.
