The Longest Interurban Charter Larry Plachno,1988 *Electric Indiana* Carlos Arnaldo Schwantes,2023-08-15 In the early twentieth century an epic battle was waged across America between the interurban railway and the automobile two technologies that arose at roughly the same time in the late 1890s Nowhere was this conflict more evident than in the Midwest and specifically Indiana where cities of industry such as Indianapolis Gary and Terre Haute were growing faster every day By 1904 Indianapolis had opened the Traction Terminal which was widely acclaimed to be the largest and most impressive interurban station in the world Yet today there is only 90 mile remnant of this one great system still operating within Indiana Featuring over 90 illustrations and featuring contemporary accounts and newspaper articles from the period *Electric Indiana* is a biographical study of the rise and fall of a onetime important transportation technology that achieved its most impressive development within the Hoosier state Metropolitan Management, Transportation and Planning ,1915
