Analecta bollandiana , 1892 The Oxford Handbook of World Philosophy Jay L. Garfield, William Edelglass, 2011-06-09 This volume provides the advanced student or scholar a set of introductions to each of the world s major non European philosophical traditions Sections on Chinese philosophy Indian philosophy Buddhist philosophy East

Asian philosophy African philosophy and trends in global philosophy are all edited by an expert Basic Equality and Discrimination Dr Nicholas Mark Smith,2013-02-28 The focus of this book is the idea of equality as a moral political and jurisprudential concept The author is motivated primarily by a concern to better understand conundrums in the justification interpretation and application of discrimination law Nicholas Smith aims to provide a clearer understanding of the nature of the value that the law is trying to uphold equality He rejects the notion that the concept of equality is vacuous and defends the idea as the proper range of moral concern After discussing the general characteristics of the denial of equality and some types of discrimination Smith considers prominent views on the point of equality law He argues that human rights lawyers should step back from the business of trying to steer courts towards vague equality goals informed by conceptions of equality that are either empty or even more abstract than the notion of equality itself If they do Smith thinks that the meaning of equality will be apparent though abstract and our difficulties will be shown to be in the first instance moral ones These moral issues will require more rigorous attention before we can draft discrimination law which gives clear effect to a widely legitimate understanding of what it means to uphold and promote equality This book will be a valuable resource for students and researchers working in the areas of legal philosophy political theory public law and human rights law Arguments and Fists Mika LaVaque Manty,2002-03-22 Many theorists have addressed a central concern of current political theory by contending that the dithering intellectualism of left politics prevents genuine political action Arguments and Fists confronts this concern by refuting these arguments and reconciling philosophical debates with the realities of current activism By looking at theorists such as Montesquieu Kant Rousseau the book contradicts current academic debates and also goes against contemporary theory's image of the liberal political agent as a narrowly rational abstraction Mika LaVaque Manty also argues that progressive political philosophy and political action go hand in hand He then ventures past Kant and Rousseau to talk about specific environmental activism finding middle ground between the two while asserting that the liberal urge for political reform stems from sound philosophical considerations about the nature of politics and isn't the cowardly afterthoughts some theorists have called it Arguments and Fists then puts these theoretical insights to use examining environmental justice movements and varieties of environmental radicalism showing how liberal theory illuminates concrete contemporary political practices Language in Interaction Inbal Arnon,Marisa Casillas,Chigusa Kurumada,Bruno Estigarribia,2014-07-17 Understanding how communicative goals impact and drive the learning process has been a long standing issue in the field of language acquisition Recent years have seen renewed interest in the social and pragmatic aspects of language learning the way interaction shapes what and how children learn In this volume we bring together researchers working on interaction in different domains to present a cohesive overview of ongoing interactional research The studies address the diversity of the environments children learn in the role of para linguistic information the pragmatic forces driving language learning and the way communicative pressures impact language use and change Using
