The Tragic and the Ecstatic Chafe, 2008-08-12 During the years preceding the composition of Tristan and Isolde Wagner s aesthetics underwent a momentous turnaround principally as a result of his discovery of Schopenhauer Many of Schopenhauer s ideas especially those regarding music s metaphysical significance resonated with patterns of thought that had long been central to Wagner s aesthetics and Wagner described the entry of Schopenhauer into his life as a gift from heaven Chafe argues that Wagner s Tristan and Isolde is a musical and dramatic exposition of metaphysical ideas inspired by Schopenhauer The first part of the book covers the philosophical and literary underpinnings of the story exploring Schopenhauer s metaphysics and Gottfried van Strassburg s Tristan poem Chafe then turns to the events in the opera providing tonal and harmonic analyses that reinforce his interpretation of the drama Chafe acts as an expert guide interpreting and illustrating most important moments for his reader Ultimately Chafe creates a critical account of Tristan in which the drama is shown to develop through the music

company **A Pedagogy of Cinema** David R. Cole, Joff P.N. Bradley, 2016-07-23 A Pedagogy of Cinema is the first book to apply Deleuze's concept of cinema to the pedagogic context Cinema is opened up by this action from the straightforward educative analysis of film to the systematic unfolding of image A Pedagogy of Cinema explores what it means to engender cinema thinking from image This book does not overlay images from films with an educational approach to them but looks to the images themselves to produce philosophy This approach to utilising image in education is wholly new and has the potential to transform classroom practice with respect to teaching and learning about cinema The authors have carefully chosen specific examples of images to illustrate such transformational processes and have fitted them into in depth analysis that is derived from the images The result is a combination of image and text that advances the field of cinema study for and in education with a philosophical intent This outstanding new book asks a vital question for our time How can we educate effectively in a digitalized corporatized Orwellian surveillance controlled globalized world This question is equally a challenge asked of our ability to think outside of the limiting parameters of the control society and the forces which daily propel us ever quicker towards worldwide homogenization With great lucidity Cole and Bradley offer us profound hope in Gilles Deleuze's increasingly popular notion of cine thinking They explore and explain the potential that this sophisticated idea holds for learning in an easy going and accessible way and with a range of fantastic films from *Suspiria* and *Performance* through to *Under the Skin* and *Snowpiercer* This extremely engaging and compelling text is likely to enliven scholars and students everywhere David Martin Jones Film and Television Studies University of Glasgow UK Metamorphosis David Gallagher, 2009 The origins of selected instances of metamorphosis in Germanic literature are traced from their roots in Ovid's *Metamorphoses* grouped roughly on an ascending evolutionary scale invertebrates birds animals and mermaids Whilst a broad range of mythological legendary fairytale and folktale traditions have played an appreciable part Ovid's *Metamorphoses* is still an important comparative analysis and reference point for nineteenth and twentieth century German language narratives of transformations *Metamorphosis* is most often used as an index of crisis an existential crisis of the subject or a crisis in a society's moral social or cultural values Specifically selected texts for analysis include Jeremias Gotthelf's *Die schwarze Spinne* 1842 with the terrifying metamorphoses of Christine into a black spider the metamorphosis of Gregor Samsa in Kafka's *Die Verwandlung* 1915 ambiguous metamorphoses in E.T.A. Hoffmann's *Der goldne Topf* 1814 Hermann Hesse's *Piktors Verwandlungen* 1925 *Der Steppenwolf* 1927 and Christoph Ransmayr's *Die letzte Welt* 1988 Other mythical metamorphoses are examined in texts by Bachmann Fouqué Fontane Goethe Nietzsche Nelly Sachs Thomas Mann and Wagner and these and many others confirm that metamorphosis is used historically scientifically for religious purposes to highlight identity sexuality a dream state or for metaphoric metonymic or allegorical reasons The Poems of Tennyson Alfred Tennyson Baron Tennyson, 1907
