**Empty Mills** Timothy J. Minchin, 2012-12-16 With the economy struggling there has been much discussion about the effects of deindustrialization on American manufacturing While the steel and auto industries have taken up most of the spotlight the textile and apparel industries have been profoundly affected In Empty Mills Timothy Minchin provides the first book length study of how both industries have suffered since WWII and the unwavering efforts of industry supporters to prevent that decline In 1985 the textile industry accounted for one in eight manufacturing jobs and unlike the steel and auto industries more than fifty percent of the workforce was women or minorities In the last four decades over two million jobs have been lost in the textile and apparel industries alone as more and more of the manufacturing moves overseas Impeccably well researched providing information on both the history and current trends Empty Mills will be of importance to anyone interested in economics labor the social historical as well as the economic significance of the decline of one of America s biggest industries

**Mill Power** Paul Marion, 2014-09-08 Mill Power documents the making of a national park that changed the concept of what a national historical park could be For a time in the 1800s Lowell was Massachusetts s cosmopolitan must see second city The city s industrial model was as high tech then as Silicon Valley is today It drew the attention of luminaries like Charles Dickens Congressmen Davy Crockett and Abraham Lincoln feminist sociologist Harriet Martineau and abolitionist Frederick Douglass This insider s account of the creative bold community driven process to establish the park explains why today Lowell National Historical Park is renowned as the partnership park The park s establishment was an integral piece of an urban revival strategy that has made Lowell the subject of scores of newspaper articles magazine profiles TV and radio reports scholarly papers and book chapters Historic Preservation magazine has hailed the park as the premier rehabilitation model for gritty cities worldwide The Lowell story has much to teach the mid sized cities of the nation and the world Mill Power frames the Lowell comeback in its historical context and brings together the people who dreamed wrote designed pushed and cheered a new national park into existence along with those who came after with the charges of shaping the ideas into material form The volume features 100 photos many of them showing the before and after story of this revitalization

**Waterpower in Lowell** Patrick M. Malone, 2009-09-22 Patrick M Malone demonstrates how innovative engineering helped make Lowell Massachusetts a potent symbol of American industrial prowess in the 19th century Waterpower spurred the industrialization of the early United States and was the principal power for textile manufacturing until well after the Civil War Industrial cities therefore grew alongside many of America s major waterways Ideally located at Pawtucket Falls on the Merrimack River Lowell was one such city a rural village rapidly transformed into a booming center for textile production and machine building Malone explains how engineers created a complex canal and lock system in Lowell which harnessed the river and powered mills throughout the city James B Francis arguably the finest engineer in 19th century America played a key role in the history of Lowell s urban industrial development An English immigrant who came to

work for Lowell's Proprietors of Locks and Canals as a young man Francis rose to become both the company's chief engineer and its managing executive Linking Francis's life and career with the larger story of waterpower in Lowell Malone offers the only complete history of the design construction and operation of the Lowell canal system Waterpower in Lowell informs broader understanding of urban industrial development American scientific engineering and the environmental impacts of technology Its clear and instructional discussions of hydraulic technology and engineering principles make it a useful resource for a range of courses including the history of technology urban history and American business history *Lowell Then and Now* Charles Parrott, Gretchen Sanders Joy, 1995 IA, 1997

**Our Paper**, 1896 **Why Antislavery Poetry Matters Now** Brian Yothers, 2023 This book is a history of the nineteenth century poetry of slavery and freedom framed as an argument about the nature of poetry itself why we write it why we read it how it interacts with history The poetry of the transatlantic abolitionist movement represented a powerful alliance across racial and religious boundaries today it challenges the demarcation in literary studies between cultural and aesthetic approaches Now is a particularly apt moment for its study This book is a history of the nineteenth century poetry of slavery and freedom framed as an argument about the nature of poetry itself why we write it why we read it how it interacts with history Poetry that speaks to a broad cross section of society with moral authority intellectual ambition and artistic complexity mattered in the fraught years of the mid nineteenth century Brian Yothers argues that it can and must matter today Yothers examines antislavery poetry in light of recent work by historians scholars in literary cultural and rhetorical studies African Americanists scholars of race and gender studies and theorists of poetics That interdisciplinary sweep is mirrored by the range of writers he considers from the canonical Whitman Barrett Browning Beecher Stowe DuBois Melville to those whose influence has faded Longfellow Lydia Huntley Sigourney John Pierpont John Greenleaf Whittier James Russell Lowell to African American writers whose work has been recovered in recent decades James M Whitfield William Wells Brown George Moses Horton Frances E W Harper *The Poetry Circuit* Peter B. Howarth, 2024-09-17 Live performance has changed poetry more than anything else in the last hundred years it has given poets new audiences and a new economy and it has generated new styles from Imagism to confessional to contemporary Spoken Word But the creative impact that public reading had right through the twentieth century has not been well understood Mixing close listening to archive performances with intimate histories of modernist venues and promoters *The Poetry Circuit* tells the story of how poets met their audience again and how the feedback loops between their voices the venues and the occasions turned poems into running dramas

between poet and listener A nervous T S Eliot reveals himself to be anything but impersonal while Marianne Moore's accident-prone readings become subtle ways of keeping her poems in constant re-draft Robert Frost used his poems to spar with his fans and rivals while Langston Hughes wrote Ask Your Mama to expose the prejudice circulating in the room as he spoke it The Poetry Circuit also shows how the post-war reading boom made new kinds of poetry involving their audience and setting in the performance such as John Ashbery's anti-charismatic Poets Theatre Amiri Baraka's documentary soundtracks of the streets or the confessional readings of Allen Ginsberg which shame the listeners more than the poet Covering the first seventy years of the poetry reading The Poetry Circuit demonstrates that there never were page and stage poets the reading simply changed what every modern poet could do

**Renegade for Justice** Stephen Lee Saltonstall, 2022-10-31 This is a book of courtroom war stories drawn from my forty years of experience as an obscure lawyer for the underdog and the downtrodden So begins Renegade for Justice a memoir of a public interest lawyer driven by the cause of justice While the stories Stephen Saltonstall tells are entertaining they are also instructive providing as he says an insider look at the American justice system which is rigged against the poor and people of color and tolerates police perjury Renegade for Justice begins by telling the story of how and why a privileged kid from Cambridge Massachusetts broke from family tradition and devoted his professional life to defending the defenseless in a justice system that is crippled by systemic injustice Activist lawyer Stephen Saltonstall brings readers into the world of criminal defense by recounting narratives of his cases including a successful attack on a Massachusetts death penalty statute appeals of two notorious homicide cases a serial murderer and a cop killer an effort to save the life of a little boy whose parents refused to give him the medical treatment he needed for acute lymphocytic leukemia free speech cases for students and an environmentalist carpenter litigation to save critical black bear and neotropical migratory songbird habitat from US Forest Service clear-cutting and more In a system biased against the public interest and the underprivileged Saltonstall gives people a model for practicing values-based law Channeling the spirit of radicals like William Kunstler Saltonstall writes not only for activists who want to better understand our society but also for those thinking about becoming a lawyer As he writes in the preface I hope my stories will challenge those of you who know who you are you who dream of soft landings in the glittering halls of boring soul-free law firms doing the bidding of the uber-rich and powerful to visualize the alternative a career that's built on cases and causes that further the public interest human rights and care of the natural world
