**Loyal Till Death** Blair Stonechild, W. A. Waiser, 1997 Nominee Governor General's Literary Award for Non Fiction This startling retelling of the North West Rebellion explodes the myth of a grand Indian Métis alliance and delves into the reasons why Indians have been branded as traitors and rebels in both the public imagination and official records After the rebellion twenty eight reserves were officially identified as disloyal and more than fifty Indians including Poundmaker and Big Bear were convicted of rebellion related crimes The most damning event was the mass execution of eight Indian warriors at Fort Battleford in November 1885 But Indian elders have long told stories about how First Nations remained faithful to their treaty promises during the conflict Having their own peaceful strategies for dealing with an insensitive federal government they were not interested in Riel's activities and any Indian involvement was isolated sporadic and minimal But Ottawa deliberately portrayed the Indians as outlaws to justify increasingly restrictive and repressive measures an injustice that has left a lasting legacy with First Nations people *Loyal till Death* is the first comprehensive look at the Indian version of the North West Rebellion It brings to life many personalities particularly those of the Indian leaders whose voices have seldom been heard in conventional histories of the Canadian West Combining oral history and exhaustive research and illustrated with more than one hundred archival photographs the book sheds new light on a greatly misunderstood aspect of our past

**The New Buffalo** Blair Stonechild,2006 Post secondary education often referred to as the new buffalo is a contentious but critically important issue for First Nations and the future of Canadian society While First Nations maintain that access to and funding for higher education is an Aboriginal and Treaty right the Canadian government insists that post secondary education is a social program for which they have limited responsibility In The New Buffalo Blair Stonechild traces the history of Aboriginal post secondary education policy from its earliest beginnings as a government tool for assimilation and cultural suppression to its development as means of Aboriginal self determination and self government With first hand knowledge and personal experience of the Aboriginal education system Stonechild goes beyond merely analyzing statistics and policy doctrine to reveal the shocking disparity between Aboriginal and Canadian access to education the continued dominance of non Aboriginals over program development and the ongoing struggle for recognition of First Nations run institutions

*From Treaties to Reserves* D.J. Hall,2015-11-01 Though some believe that the Indian treaties of the 1870s achieved a unity of purpose between the Canadian government and First Nations in From Treaties to Reserves D J Hall asserts that as a result of profound cultural differences each side interpreted the negotiations

differently leading to conflict and an acute sense of betrayal when neither group accomplished what the other had asked Hall explores the original intentions behind the government's policies illustrates their attempts at cooperation and clarifies their actions While the government believed that the Aboriginal peoples of what is now southern and central Alberta desired rapid change the First Nations in contrast believed that the government was committed to supporting the preservation of their culture while they adapted to change Government policies intended to motivate backfired leading instead to poverty starvation and cultural restriction Many policies were also culturally insensitive revealing misconceptions of Aboriginal people as lazy and over dependent on government rations Yet the first two decades of reserve life still witnessed most First Nations people participating in reserve economies many of the first generation of reserve born children graduated from schools with some improved ability to cope with reserve life and there was also more positive cooperation between government and First Nations people than is commonly acknowledged The Indian treaties of the 1870s meant very different things to government officials and First Nations Rethinking the interaction between the two groups From Treaties to Reserves elucidates the complexities of this relationship **Macdonald at 200** Patrice Dutil,Roger Hall,2014-10-10 Here are fifteen fresh interpretations of Canada's founding Prime Minister published for the occasion of the bicentennial of his birth in 1815 Well researched and crisply written by recognized scholars and specialists the collection throws new light on Macdonald's formative role in our nation **Lodge's Peerage and Baronetage (knightage & Companionage) of the British Empire** ,1861 The Peerage and Baronetage of the British Empire ...
