## **Lucrative Targets The Us Air Force In T:**

*Lucrative Targets: The U.S. Air Force in the Kuwaiti Theater of Operations*, 2001 During the late 1970s the United States began revitalizing its Air Force and other military services By the close of the 1980s America had built a force structure that stood ready for a test that very fortunately it never had to meet a major war in Europe The United States faced this dangerous possibility for more than 40 years until in 1989 the Soviet Union abruptly collapsed Americans were still sorting out the implications of this sudden change in world affairs in August 1990 when Iraq invaded Kuwait and precipitated a crisis that led to the military conflict in the Persian Gulf The U S Air Force found itself at war although not the one it had prepared for against the Warsaw Pact powers but one against Saddam Hussein s heavily armed regime This monograph is one in a series of five works dealing with various aspects of the Air Force s participation in Desert Shield and Desert Storm In two other volumes William T Y Blood details the Air Force s deployment to the Gulf in a third Diane T Putney analyzes the planning of the air campaign and in a fourth Richard G Davis discusses the air operations against targets in Iraq As this monograph goes to press during the spring of 2001 the Air Force is passing through a dynamic period of reorganization and change The era when a large U S Air Force defended the United States against a single preeminent threat Soviet aggression has ended During the years ahead a smaller Air Force will support the interests of the nation under diverse circumstances around the globe While the U S Air Force continues to ensure that the United States has a global reach and can project global power the service will greatly benefit from the lessons it learned during Desert Shield and Desert Storm **Air Force**

Warden III the brilliant but controversial air warfare theorist and architect of Operation Desert Storm's air campaign Warden's radical ideas about air power's purposes and applications promulgated at the expense of his own career sparked the ongoing revolution in military affairs Legendary in defense circles Warden is also the author of *The Air Campaign Planning for Combat* republished by Brassey's Inc in 1989 Presenting both the positives and negatives of Warden's personality and impact in this objective portrait Olsen offers a trenchant analysis of his revolutionary ideas and great accomplishments

**On Target** Richard G. Davis, 2002 *Advise and Dissent* is the personal odyssey of James Abourezk from his coming of age as the son of Lebanese immigrants in South Dakota through his hardscrabble days as a farmhand bartender bouncer and cook to his entrance into and voluntary exit from the U S Senate His is a quintessentially American story that entertains as it challenges the thinking of our nation Abourezk refused to compromise his beliefs He championed Native American self determination and demanded the creation of a Palestinian state He challenged the flow of special interest money through political action committees and tried to overthrow the structure that keeps small farmers in an economic stranglehold His memoir takes the reader on a remarkable and wise tour through the corridors of power At a time of waning public confidence in government he makes us realize the importance of participatory democracy *Testimony of Gen. John P. McConnell, USAF, Chief of Staff, U.S. Air Force, and Adm. T.H. Moorer, USN, Chief of Naval Operations, August 22 and 23, 1967* United States. Congress. Senate. Committee on Armed Services. Foreign Relations of the United States United States. Department of State, 1969 **Airpower Advantage** Diane Therese Putney, 2004 American air power is a dominant force in today's world Its ascendancy evolving in the half century since the end of World War II became evident during the first Gulf War Although a great deal has been written about military operations in Desert Shield and Desert Storm this deeply researched volume by Dr Diane Putney probes the little known story of how the Gulf War air campaign plan came to fruition Based on archival documentation and interviews with USAF planners this work takes the reader into the planning cells where the difficult work of building an air campaign plan was accomplished on an around the clock basis The tension among air planners is palpable as Dr Putney traces the incremental progress and friction along the way The author places the complexities of the planning process within the context of coalition objectives All the major players are here President George H W Bush General H Norman Schwarzkopf General Colin Powell General Chuck Horner and Secretary of Defense Richard Cheney The air planning process generated much debate and friction but resulted in great success a 43 day conflict with minimum casualties Dr Putney's rendering of this behind the scenes evolution of the planning process in its complexity and even suspense provides a fascinating window into how wars are planned and fought today and what might be the implications for the future C R Anderegg Director of Air Force History
