## **Myths And Legends Of The First World War:**

*Myths and Legends of the First World War* James Hayward, 2011-11-08 During the First World War a rich crop of legends sprouted from the battlefields and grew with such ferocity that many still excite controversy today This book is the first to examine the roots of those stories and reveal the truth Some myths remain well known Did an entire battalion of the Norfolk Regiment vanish without trace at Gallipoli in 1915 Did thousands of Russian troops actually pass through England with snow on their boots In 1914 an acute spy mania gripped the British public who imagined that the country was brimming with German spies Xenophobia denunciations and attacks on dachshunds were rampant Amazingly there was even talk of enemy aircraft dropping poisoned sweets to kill British children Myths such as the Angel of Mons and the Comrade in White were more innocent creations With no radio or television rumours of disaster were rife and the apparition of mystical guardian spirits gave hope to the civilian population at home Other stories such as the so called Crucified Canadian and the existence of a gruesome German corpse rendering factory were more sinister Yet in an age of new and startling technologies such as poison gas submarine warfare and the tank such tales appeared believable Using a wide range of contemporary sources James Hayward traces the story of each myth and examines the likely explanation Supported by a selection of rare photographs and illustrations the result is a refreshingly different perspective on the common mud and trenches view of the First World War shedding fascinating new light on many curious and unexplained wartime tales

*The Nail in the Skull and Other Victorian Urban Legends* Simon Young, 2022-06-27 Winner of the 2023 Brian McConnell Book Award from the International Society for Contemporary Legend Research In the last fifty years folklorists have amassed an extraordinary corpus of contemporary legends including the Choking Doberman the Eaten Ticket and the Vanishing Hitchhiker But what about the urban legends of the past These legends and tales have rarely been collected and when they occasionally appear they do so as ancestors or precursors of the urban legends of today rather than as stories in their own right In *The Nail in the Skull and Other Victorian Urban Legends* Simon Young fills this gap for British folklore and for the wider English speaking world of the 1800s Young introduces seventy Victorian urban legends ranging from Beetle Eyes to the Shoplifter's Dilemma and from Hands in the Muff to the Suicide Club While a handful of these stories are already known the vast majority have never been identified and they have certainly never received scholarly treatment Young begins the volume with a lengthy introduction assessing nineteenth century media emphasizing the importance of the written word to the perpetuation and preservation of these myths He draws on numerous nineteenth century books periodicals and ephemera including digitized newspaper archives particularly the British Newspaper Archive an exciting new hunting ground for folklorists *The Nail in the Skull and Other Victorian Urban Legends* will appeal to an academic audience as well as to anyone who is interested in urban legends

*Burn the Sea* James Hayward, 2016-02-03 In the whole course of the war conceded Britain's chief press censor there was no story which gave me so much trouble as that of the attempted German invasion flaming oil on the water and 30 000 burned Germans Sparked by the Directorate of Military Intelligence and MI6 rumours that Britain had set fire to the English Channel to defeat a German invasion in 1940 quickly spread around the world Highly popular in America the incendiary Big Lie became Britain's first significant propaganda victory of the Second World War Yet the unlikely deception was founded in fact Dead German soldiers were washed ashore on British beaches a secret Petroleum Warfare Department tested lethal flame barrages on land and sea and fire ships were hastily dispatched to enemy ports as part of Operation Lucid British intelligence agencies even managed to plant the burning sea story on their opposite numbers in Nazi Germany *Burn the Sea* is the definitive account of the origin circulation and astonishing longevity of the myth of the invasion that failed in 1940 as well as its remarkable revival in 1992

Rehearsals  
Jeff Lipkes, 2007 People screamed cried and groaned Above the tumult I could distinguish the voices of small children All this time the soldiers were singing Sometime after the first salvo there was another round of fire and once again I was not hit

After this I heard fewer cries save from time to time a small child calling its mother Flix Bourdon survivor of a mass execution in Dinant Belgium In August 1914 without any legitimate pretext German soldiers killed nearly 6 000 Belgian noncombatants including women and children and burned some 25 000 homes and other buildings Rehearsals is the first book to provide a detailed narrative history of the German invasion of Belgium as it affected civilians Based on extensive eyewitness testimony the book chronicles events in and around the towns of Liège Aarschot Andenne Tamines Dinant and Leuven where the worst of the German depredations occurred Accounts of the killing looting and arson have long been dismissed as atrocity propaganda particularly in the United Kingdom and the United States Rehearsals examines the campaign by revisionists that led to voluminous and compelling testimony about German war crimes being discredited Recently the case has been made that the violence that came to a peak between August 19 and August 26 1914 was the result of a spontaneous outbreak of German paranoia about civilian sharpshooters In Rehearsals Jeff Lipkes offers compelling evidence that the executions were in fact part of a deliberate campaign of terrorism ordered by military authorities In his shocking account of events that have been largely overlooked by historians of World War I Lipkes commemorates the heroism as well as the suffering of the Belgian victims of German aggression **Trouble in Paradise** Slavoj

Zizek, 2015-08-18 One of our most famous most combative philosophers explains how we can find a way out of the crisis of capitalism There is obviously trouble in the global capitalist paradise But why do we find it so difficult to imagine a way out of the crisis we're in It is as if the trouble feeds on itself the march of capitalism has become inexorable the only game in town Setting out to diagnose the condition of global capitalism the ideological constraints we are faced with in our daily lives and the bleak future promised by this system Slavoj Žižek explores the possibilities and the traps of new emancipatory struggles Drawing insights from phenomena as diverse as Gangnam Style to Marx The Dark Knight to Thatcher Trouble in Paradise is an incisive dissection of the world we inhabit and the new order to come Few thinkers illustrate the contradictions of contemporary capitalism better than Slavoj Žižek One of the world's best known public intellectuals John Gray New York Review of Books *Regime Changes in 20th Century Europe* Noora Kotilainen, Tuomas Kuronen, Marja Vuorinen, 2016-12-14 In retrospect historical change often appears to be both logical and inevitable Yet as a process as a series of moments it is by nature open ended The protagonists are unaware of the potential consequences of their choices as well as the meaning of their actions in the greater scheme of things An individual in real time and in the middle of events has little scope for understanding the whole The dynamic of a regime change involves a journey away from a particular past towards a chosen future while the practices of the old regime are called into question The competing visions for a better future often include a reactionary option looking back towards an older period perceived as a golden age waiting to be restored In the aftermath of a regime change the new cadres seeking to consolidate their power form the new conservative bloc of the society When revolutionary forces again begin to gather the regime disintegrates and the cycle begins again So far regime changes have

been analysed as unique one off events This book traces what such processes regardless of their ideological colour have in common How does political power change hands What are the mental and material tools of change From the last stages of World War I to the present Crimean crisis the case studies in this book offer timeless insights for understanding ideological and military conflicts including the undercurrents of the present Russo Western relations *The Sacred & the Digital* F.G. (Frank) Bosman, 2019-04-18 Video game studies are a relative young but flourishing academic discipline But within game studies however the perspective of religion and spirituality is rather neglected both by game scholars and religion scholars While religion can take different shapes in digital games ranging from material and referential to reflexive and ritual it is not necessarily true that game developers depict their in game religions in a positive confirming way but ever so often games approach the topic critically and disavowingly The religion criticisms found in video games can be categorized as follows religion as 1 fraud aimed to manipulate the uneducated as 2 blind obedience towards an invisible but ultimately non existing deity ies as 3 violence against those who do not share the same set of religious rules as 4 madness a deranged alternative for logical reasoning and as 5 suppression in the hands of the powerful elite to dominate and subdue the masses into submission and obedience The critical depictions of religion in video games by their developers is the focus of this special issue

*Touch and Intimacy in First World War Literature* Santanu Das, 2006-04-06 The First World War ravaged the male body on an unprecedented scale yet fostered moments of physical intimacy and tenderness among the soldiers in the trenches Touch the most elusive and private of the senses became central to war experience War writing is haunted by experiences of physical contact from the muddy realities of the front to the emotional intensity of trench life to the traumatic obsession with the wounded body in nurses memoirs Through extensive archival and historical research analysing previously unknown letters and diaries alongside literary writings by figures such as Owen and Brittain Santanu Das recovers the sensuous world of the First World War trenches and hospitals This original and evocative study alters our understanding of the period as well as of the body at war and illuminates the perilous intimacy between sense experience emotion and language as we try to make meaning in times of crisis **The Church of England and the Home Front, 1914-1918** Robert Beaken, 2015 Challenges the tired orthodoxy that the Church of England had a bad First World War In telling the story of the Church and its people in Colchester a garrison town Robert Beaken enlivens our understanding of the First World War not only as a clash of mighty forces but also at a personal and communal level The Very Rev Dr John Hall Dean of Westminster The Church of England is popularly believed to have had a bad First World War This book challenges that tired orthodoxy It examines the relationship between parish churches and the Army during the war using the important garrison town of Colchester as a case study Colchester in 1914 18 was a microcosm both of English society and of the Church of England in all their diversity The presence of the Army also meant that wartime experiences and trends which were noticeable elsewhere in England were sharply felt in Colchester For the generation of Britons who lived through the Great War Christianity was an important part

of their culture world view and in many instances personal lives To understand life on the home front during the war it is vital to understand the part played by Christianity and particularly by the parishes of the Church of England With the help of newly discovered archival material this book reassesses the relations between clergy soldiers and civilians to show that contrary to widely held belief the clergy and their parishioners responded to the crisis of 1914 18 with courage common sense and self sacrifice their ministry kept much of the population going during the Great War ROBERT BEAKEN is parish priest of St Mary the Virgin Great Bardfield and St Katharine Little Bardfield in Essex He holds a PhD from King s College London and is a Fellow of the Royal Historical Society He is the author of seven works including *Cosmo Lang Archbishop in War and Crisis* 2012 [Compton's Pictured Encyclopedia](#) Guy Stanton Ford,1922 *The heirs of legends - German myths in the mirror of present* Hermann Selchow,101-01-01 What significance do the ancient myths of our ancestors have today and what do they have to do with the challenges of the present Far more than many believe In times when social and political uncertainty increases or technological developments rapidly transform our world these ancient stories are once again gaining attention This book impressively demonstrates that myths are far more than romantic tales from past centuries They are coded instructions for action in times of crisis and those who read them correctly will discover strategies for courage responsibility and change The author combines sound cultural historical knowledge with modern analysis and makes it clear The ancient stories of Valhalla Siegfried and the gods of the Edda are not just cultural heritage but practical guidance in turbulent times They remind us that it is the individual who makes decisions when the community begins to hesitate They show how to create order out of chaos and why forgetting these stories is a danger to every society This book is aimed at readers interested in myths history and cultural memory and at all those seeking guidance in the present Anyone who wants to learn why our ancient stories should not only be passed on but also understood and utilized will find inspiration food for thought and concrete impulses for action here An indispensable work for all who see in ancient myths not only the past but also the guideposts for a self determined future Hermann Selchow **Heard Amid the Guns** Jacqueline Larson Carmichael,2020-11-03 Carmichael captures the anguish and the wonder of war in flashes of colour humour and gems of human detail mined from letters diaries interviews and her own family history Halifax Chronicle Herald A rich and varied tapestry of the First World War highlighting the personal stories of over 150 men and women from across North America who served overseas After receiving a bundle of worn letters written by her late grandfather George Black Jack Vowel during the First World War journalist Jacqueline Carmichael became fascinated with the daily realities and personal stories of those who had lived through that pivotal and harrowing period in history Reaching beyond the battlefield descriptions found in most history books Carmichael presents unforgettable accounts filled with drama hope and heartbreak culled from journals and letters of Allied soldiers and nurses From tales of men shot at dawn under charges of desertion or cowardice to women cross dressing to get into battle to a Canadian Member of Parliament whose PTSD induced death was barely acknowledged by

Ottawa for nearly a century *Heard Amid the Guns* reflects the human face of war Featuring profiles of people from every Canadian province and many American states including soldiers of Indigenous Asian Indo Canadian and African Canadian and American backgrounds this book is a touching tribute illustrated throughout by WWI era photos postcards documents and the author s contemporary photos from battlefield sites and monuments      **The Giant Book of Myths and Legends**
