Myths in Education Arthur Wright Combs,1979 *Myths in Education* Arthur Wright Combs,1979 *Trends in Education* ,1979 **The Future of Ubiquitous Learning** Begoña Gros,Kinshuk,Marcelo Maina,2015-07-28 This book explores emerging pedagogical perspectives based on the design of new learning spaces supported by digital technologies and brings together some of the best research in this field The book is divided into three themes foundations of emerging pedagogies learning designs for emerging pedagogies and adaptive and personalized learning The chapters provide up to date information about new pedagogical proposals and examples for acquiring the requisite skills to both design and support learning opportunities that improve the potential of available technologies *Empowerment through Multicultural Education* Christine E. Sleeter,1991-01-01 This book reframes questions about student diversity by probing the extent to which society serves the interests of all and by examining the empowerment of members of oppressed groups to direct social change It examines the empowerment of children who are members of oppressed racial groups lower class and female based on the ideas of multicultural education A series of ethnographic studies illustrates how such young people view their world their power to affect it in their own interests and their response to what is usually a growing sense of powerlessness as they mature The authors also conceptualize contributions of multicultural education to empowering young people and report investigations of multicultural education projects educators have used for student empowerment Issues in teacher education are also discussed *The Teacher as Expert* Robert Welker,1992-01-01 At a time of increasing pressure for teachers to become more professional and more technically competent this book examines in a critical fashion whether teachers should be considered experts Written in straightforward and accessible prose Welker examines the concept of expertise through the ideas of notable educational thinkers in the twentieth century beginning with E P Cubberley and George S Counts and concluding with a chapter on critical theory and the ideas of Maxine Greene and Henry Giroux Other chapters examine such thinkers as Willard Waller Daniel Lortie Alan Tom Philip Jackson and Ivan Illich Each chapter establishes an historical and ideological context and evaluates how the social character of the expert matches the responsibilities While the idea of the teacher assuming the role of educational expert is gaining increased credibility in the current reform movement this book shows that the concept fails to describe the senses of moral and social competence required of the teacher Also the notion of the expert teacher might stand in the way of teachers forming the type of public partnerships necessary for them to complete their tasks adequately **Teachers in Control** Martin Powell,Jonathan Solity,2018-06-04 In an increasingly centralized education system how can teachers recover the freedom to make their own decisions Originally published in 1990 the teaching profession had seldom been under greater pressure Teachers in Control aimed to help teachers to understand the forces that shaped their personal and professional development and their relationships with children at the time It identifies the pressures that teachers faced from both the school and the educational system as a whole and then examines the internal

psychological influences that lead people into teaching and direct their future careers The authors argue that an understanding of these influences can give teachers more control of decisions that affect their practice in the classroom and will still be very relevant today

Declaring War Against Schooling Don Glines, 2012 *Declaring War Against Schooling* documents 100 years of educational wars between Visionary learning leaders and Traditional school people Ironically to win the existing war both opposing groups must unify to overthrow the control of education by politicians The script cites the eras when education was in the hands of flexible educators with support not opposition from many politicians President Lyndon Johnson called for Tomorrow's Schools a vision not yet achieved The Reagan Clinton Bush and Obama administrations transformed education into politics Traditionalists submitted to one size fits all mandates Visionaries failed to unify to prevent unjust political requirements Research is presented which validates the flaws in current school and college rituals Outlined are venues to overcome political control offer educational alternatives and create voluntary personalized choices for all learners *Declaring War Against Schooling* calls for ACTION NOW by visionary critics educators parents and students The goal is optional learning paths not mandated schooling systems

Child Rearing in the Home and School R.P. Boger, R.J. Griffore, 2013-06-29 This volume is intended to address contemporary aspects of child rearing in the home and the school as well as major dimensions of interface between the home and the school The authors of these chapters have used varying styles and approaches and

the range of perspectives is very broad and inclusive An essential notion integrating all chapters is that child rearing is a human ecological concern of dominant importance for the home the school and the community during the 1980 s and that this will continue to be true in the future This volume is intended to be useful as a reference book as a text for researchers and for policy makers It is hoped that the volume also will be of use to parents teachers school administrators child care workers and others who are interested in child nurturance The editors wish to extend appreciation to many individuals who made this effort possible Our colleagues Hiram Fitzgerald and Marjorie Kostelnik have been most helpful and encouraging We thank them for their patience support and invaluable editorial assistance during the production of the camera ready copy of the volume We also thank Barbara Taylor for her assistance in typing the chapters and Carrie DeMyers for typing the camera ready copy Carrie s good nature and posi tive outlook helped to smooth over the many frustrations inherent in the assembly and production of anthologies such as this one
