reworking in the modern age of meaningful themes and mythological figures Therefore revising and rewriting the myth means thinking again about one's cultural memory attempting to re-propose in a new dimension the ever-present questions that have not found an answer and which the figures of the myth symbolise across the time The attention focuses on figures like the elementary spirits of Romantic imagery in particular on that of the Wasserfrau up to the analysis of a twentieth-century reinterpretation of the myth of Undine Moreover the Medea myth is reconsidered starting from the contradiction implicit in this figure and in that of every Mother Goddess in order to then explore the most problematic and conflicting aspect of this image of womanhood the infanticide which over time becomes the symbol of the denial of the maternal principle
