Introduction *Surrealism, Cinema, and the Search for a New Myth* Kristoffer Noheden, 2017-06-28 This book examines post war surrealist cinema in relation to surrealism's change in direction towards myth and magic following World War II. Intermedial and interdisciplinary, the book unites cinema studies with art history and the study of Western esotericism, closely engaging with a wide range of primary sources including surrealist journals, art exhibitions and writings. Kristoffer Noheden looks to the Danish surrealist artist Wilhelm Freddie's forays into the experimental short film, the French poet Benjamin Péret's contribution to the documentary film *L'Invention du monde*, the Argentinean born filmmaker Nelly Kaplan's feature films and the Czech animator Jan Svankmajer's work in short and feature films. The book traces a continuous engagement with myth and magic throughout these films, uncovering a previously unknown strain of occult imagery in surrealist cinema. It broadens the scope of the study of not only surrealist cinema but of surrealism across the art forms. *Surrealism, Cinema, and the Search for a New Myth* will appeal to film scholars, art historians and those interested in the impact of occultism on modern culture, film and the arts.

Four British Fantasists Charles Butler, 2006-04-25 *Four British Fantasists* explores the work of four of the most successful and influential fantasy writers of the generation who rose to prominence in the second Golden Age of children's literature in Britain: Susan Cooper, Alan Garner, Diana Wynne Jones and Penelope Lively. Drawing on history, archaeology, social geography, anthropology and postcolonial theory as well as literary criticism, Butler provides a series of new perspectives through which to view these writers' achievements. He begins by highlighting some points of biographic coincidence: e.g. all four authors were children during WWII, all were born within a year or two of each other and all attended Oxford University in the early 1950s when C. S. Lewis and J. R. R. Tolkien were publishing their seminal fantasies and questions if these factors play any significant role in the development of these fantasy writers. The author then uses this question as the springboard for a case study in the assessment of biographical and literary influence. The book also considers the role played by Britain itself in determining the shape and preoccupations of these writers' fiction. Britain is a land with a long history in which contemporary life is constantly juxtaposed with evidence of the past in the form of ancient buildings, historic sites and archaeological remains. By placing the work of Cooper, Garner, Jones and Lively in the context of British culture and of their own time, Butler provides a key to their fascination with history, mythology and magic and to the ways in which that fascination has found expression in their fiction. Students of children's literature and of fantasy literature as well as readers who are interested in the lives of these four subject authors will find this an insightful read.

Magoulick, 2022-02-04 Honorable Mention for the 2022 Elli K ng's Maranda Prize awarded by the Women's Section of the American Folklore Society Goddess characters are revered as feminist heroes in the popular media of many cultures However these goddess characters often prove to be less promising and more regressive than most people initially perceive Goddesses in film television and fiction project worldviews and messages that reflect mostly patriarchal culture included essentialized gender assumptions in contrast to the feminist empowering levels many fans and critics observe Building on critiques of other skeptical scholars this feminist folkloristic approach deepens how our remythologizing of the ancient past reflects a contemporary worldview and rhetoric Structures of contemporary goddess myths often fit typical extremes as either vilified destructive dark and chaotic typical in film or television or romanticized positive even utopian typical in women's speculative fiction This goddess spectrum persistently essentializes gender stereotyping women as emotional intuitive sexual motherly beings good or bad precluded from complex potential and fuller natures Within apparent good over evil pop culture narrative frames these goddesses all suffer significantly However a few recent intersectional writers like N K Jemisin break through these dark reflections of contemporary power dynamics to offer complex characters who evince hopepunk They resist typical simplified reductionist absolutes to offer messages that resonate with potential for

Silver, 2012-12-06 It is difficult to overstate the importance of personal consumption both to individual consumers and to the economy While consumers are recognized as valuing market goods and services for the activities they can construct from them in the frameworks of several disciplines consequences of the characteristics of goods and services they use in these activities have not been well studied In the discourse to follow I will contrast knowledge yielding and conventional goods and services as factors in the construction of activities that consumers engage in when they are not in the workplace Consumers will be seen as deciding on non work activities and the inputs to these activities according to their objectives and the values and cumulated skills they hold I will suggest that knowledge content in these activities can be efficient for consumer objectives and also have important externalities through its effect on productivity at work and economic growth The exposition will seek to elaborate these points and contribute to multi disciplinary dialogue on consumption It takes as its starting point the contention that consumption is simultaneously an economic and social psychological process and that integration of content can contribute to explanation *The Myth of Piers Plowman* Lawrence Warner, 2014-03-06 A revisionary account of the powerful myths that grew up around the production and reception of the great medieval poem Also available as Open Access *Information Resources in the Humanities and the Arts* Anna H. Kilner-Johnson,2022-06-16 Probing the relationship between modernist literary experimentation and several key strands of occult practice which emerged in Europe from roughly 1894 to 1944 this book sets the work of leading modernist writers alongside lesser known female writers and writers in languages other than English to more fully portray the aesthetic and philosophical connections between modernism and the occult Although the early decades of the twentieth century the era of cocktails motorcars bobbed hair and war are often described as a period of newness and innovation many writers of the time found inspiration and visionary brilliance by turning to the mysterious occult past This book s principle intervention is to reimagine the contours and boundaries of literary modernism by welcoming into the conversation a number of significant female writers and writers in languages other than English who are often still relegated to the fringes of modernist studies Well remembered poets and novelists such as Ezra Pound W B Yeats and Aleister Crowley were tied to occult beliefs and this book sets these leading figures alongside less well remembered but equally splendid modernists including Paul Brunton Mary Butts Alexandra David Neel Florence Farr Dion Fortune Hermann Hesse and Rudolf Steiner From the little magazines where occultism and Fabianism were comfortable companions to consulting rooms of psychoanalysts where archetypes were revealed to be both mystical and mundane to the forbidden mountain trails that led to formidable spiritual teachers the conditions of modernism were invariably those conditions which inspired a return to the occult traditions that many thinkers believed had long evaporated Indeed in many ways these traditions were the making of the modern world By uncovering hidden hopes and anxieties that faced a newly modern Western Europe this book demonstrates how literary modernists understood occultism as a universal form of cultural expression which has inspired creative exuberance since the dawn of civilisation **Gaming Utopia** Claudia Costa Pederson,2021-04-06 In Gaming Utopia Ludic Worlds in Art Design and Media

Claudia Costa Pederson analyzes modernist avant garde and contemporary video games to challenge the idea that gaming is an exclusively white heterosexual male corporatized leisure activity and reenvisions it as a catalyst for social change By looking at over fifty projects that together span a century and the world Pederson explores the capacity for sociopolitical commentary in virtual and digital realms and highlights contributions to the history of gaming by women queer and transnational artists The result is a critical tool for understanding video games as imaginative forms of living that offer alternatives to our current reality With an interdisciplinary approach Gaming Utopia emphasizes how game design creation

and play can become political forms of social protest and examines the ways that games as art open doors to a more just and peaceful world *Bulletin of the Rosenberg Library* Rosenberg Library, 1910 Includes the library's annual reports for 1909
