N Comme Nausee:

, *Precarious Lives and Marginal Bodies in North Africa* Hervé Anderson Tchumkam, 2021-03-12 *Marginal Bodies and Precarious Lives in North Africa* Homo Expendibilis presents an examination of North African literature situated at the crossroads of literary analysis political philosophy and sociology The author analyzes social categories in relation to civil and social protections and in particular the ways in which disruptions to these protections can lead to social degeneration The author's analysis starts from the premise that precarious lives in North Africa have become true bodies of exception In other words they are deemed dangerous expendable and unworthy of the rights and treatment accorded to full citizens Thus the author assesses portrayals of violence in contemporary literature as a crystallization of the existing disjunction between the socially disqualified and those who wield colonial political and religious power Moreover the author argues that in order to understand contemporary politics and the current climate of insecurity a deeper understanding of precarity in North Africa from colonial times to the present is crucial By affirming their right to exist the author argues that the marginal bodies of North Africa offer unique insights into the society that marginalized them and thus from the often inaudible and invisible periphery they nevertheless challenge the dominant ideas of the center

Votre Âme Ne Se Ride Pas Julia Tunariu, INTRODUCTION tre est désirable parce qu'elle est identique la Beauté et

la Beauté est aimée parce qu'elle est libre. Nous possédons nous-mêmes la Beauté lorsque nous sommes fidèles à notre être. La laideur consiste à passer un autre ordre. Plotin. Pendant des millénaires, le respect de la nature et la connaissance de ses secrets furent transmis de génération en génération, assurant ainsi durant tout ce temps le bien-être de notre espèce et la préservation de notre environnement. C'est précisément que notre civilisation moderne s'est forgée en donnant naissance et en perpétuant un style de vie qui génère des déséquilibres psychologiques et physiques, ce qui provoque un stress débilisant répandu dans le monde entier. L'exposition constante au stress, la tension et la fatigue alimentées par la fièvre et l'avidité de la civilisation moderne occasionnent une pollution mentale et environnementale qui détruit l'harmonie intérieure. Nécessaire, un style de vie sain pour l'individu, l'environnement et la planète au complet. Sur le plan physique, nous l'humanité avons fait beaucoup de chemin avec nos découvertes et nos innovations. Nous avons dépassé des frontières technologiques à une allure incroyable et sans précédent, mais en ce qui concerne le niveau de conscience, la compréhension que nous avons de nous-mêmes et de nos relations les uns avec les autres, en ce qui concerne la compréhension de la vie elle-même, nous nous retrouvons rugillement en situation précaire. Avec ses recherches en kinésologie, le professeur David R. Hawkins, psychiatre et chercheur de renom, enseignant spirituel et conférencier a découvert comment calibrer le niveau de conscience. L'apathie, la colère, la peur et la convoitise sont des situations motionnelles dans lesquelles la plupart des êtres humains sont pris. Or, ce sont des plans néergétiques bas. Selon le professeur Hawkins, l'amour est au niveau 500, alors qu'environ 78 % de la population mondiale vit sous la barre des 200, ce qui est potentiellement destructeur. Il souligne que cette majorité pourrait annihiler l'humanité si les autres 22 % n'étaient pas au-dessus de la barre des 200. C'est l'aide de cette découverte qu'il explique l'état du monde aujourd'hui. Il ajoute que lorsqu'une personne devient consciente d'elle-même, le niveau de conscience bondit pour toute sa vie. Nous n'arrivons nulle part plus rapidement et le danger nous guette de devenir étrangers nous-mêmes et aux lois spirituelles naturelles. Le résultat de cet éloignement est montré à la surface et nous pouvons tous le constater : les événements traumatiques sur le plan social, les cataclysmes naturels et les changements environnementaux se bousculent à une vitesse sans précédent.

Phaenomenologica IV, 3-4 / 2004 Paul Balogh, Cristian Ciocan, 2004-01-01 Sartre's Nausea, 2006-01-01. Twenty five years after his death, critics and academics, film makers and journalists continue to argue over Sartre's legacy. But certain interpretations have congealed around his iconic text *Nausea*, tending to confine it within the framework provided by the later philosophical work *Being and Nothingness*. This volume opens up the text to a range of new approaches within the fields of English and Comparative Literature as well as Philosophy and French Studies under the headings Text Context and Intertext: the textual strategies at work within the novel; the literary, cultural and philosophical context of its production and the intertextual web within which it is situated. This volume will interest a wide public of teachers, students and all those who want to reconsider Sartre's legacy in the twenty-first century. **A new dictionary of the French and English languages**
