**N. F. Fedorov (1828-1903)** Stephen Lukashevich, 1977 N F Fedorov was one of the most formidable Russian thinkers of the nineteenth century His influence on philosophical religious and social thought was enormous In this volume Professor Lukashevich uses his structural method to elucidate the psychological problems that accounted for Fedorov's extraordinary ideology A History of Russian Thought William Leatherbarrow, Derek Offord, 2010-04-01 The history of ideas has played a central role in Russia's political and social history Understanding its intellectual tradition and the way the intelligentsia have shaped the nation is crucial to understanding the Russia of today This history examines important intellectual and cultural currents the Enlightenment nationalism nihilism and religious revival and key themes conceptions of the West and East the common people and attitudes to capitalism and natural science in Russian intellectual history Concentrating on the Golden Age of Russian thought in the mid nineteenth century the contributors also look back to its eighteenth century origins in the flowering of culture following the reign of Peter the Great and forward to the continuing vitality of Russia's classical intellectual tradition in the Soviet and post Soviet eras With brief biographical details of over fifty key thinkers and an extensive bibliography this book provides a fresh comprehensive overview of Russian intellectual history *Global Ramifications of the French Revolution* Joseph Klaits, Michael Haltzel, Lee H. Hamilton, 2002-06-06 Essays on the French Revolution's historical and ongoing impact in different parts of the world *Eschatology and the Technological Future* Michael S. Burdett, 2014-12-05 The rapid advancement of technology has led to an explosion of speculative theories about what the future of humankind may look like These technological futurisms have arisen from significant advances in the fields of nanotechnology biotechnology and information technology and are drawing growing scrutiny from the philosophical and theological communities This text seeks to contextualize the growing literature on the cultural philosophical and religious implications of technological growth by considering technological futurisms such as transhumanism in the context of the long historical tradition of technological dreaming Michael Burdett traces the latent religious sources of our contemporary technological imagination by looking at visionary approaches to technology and the future in seminal technological utopias and science fiction and draws on past theological responses to the technological future with Pierre Teilhard de Chardin and Jacques Ellul Burdett's argument arrives at a contemporary Christian response to transhumanism based around the themes of possibility and promise by turning to the works of Richard Kearney Eberhard Jüngel and Jürgen Moltmann Throughout the author highlights points of correspondence and divergence between technological futurisms and the Judeo Christian understanding of the future The Russian Intelligentsia Christopher Read, 2024-02-22 The Russian Intelligentsia is the first single volume history of a small but tremendously influential group of Russian intellectuals who achieved world renown in a variety of spheres While previous accounts have addressed the history of individuals within this collective Christopher Read offers the first explanation of the intelligentsia as a group Read traces the vast debates that broke out between and within a

multitude of intellectual factions and contextualizes the ideas of the group within the framework of cultural social political and economic development from the late 18th century to the present day This comprehensive yet accessible account demonstrates how the Russian intelligentsia morphed from one incarnation to the next and effectively situates this change and continuity within a pan European context It considers the role of the intelligentsia throughout its origins its transformation during the Russian Revolution and since the collapse of communism and highlights the beliefs of key figures such as Fyodor Dostoyevsky Ivan Pavlov Vladimir Lenin Leon Trotsky and Mikhail Gorbachev In doing so Read provides an essential guide to a fascinating aspect of Russia s social and cultural history     *The Russian Cosmists* George M.

Young,2012-08-16 The ideas of the Cosmists have in recent decades been rediscovered and embraced by many Russian intellectuals Here Young offers a dynamic and wide ranging examination of the lives and ideas of the Russian Cosmists

*The Cross and the Sickle* Catherine Evtuhov,2018-10-18 Catherine Evtuhov resurrects the brilliant and contradictory currents of turn of the century Kiev Moscow and St Petersburg through an intellectual biography of Sergei Bulgakov 1871 1944 one of the central figures of the Silver Age The son of a provincial priest Bulgakov served first as one of Russia s most original and influential interpreters of Marx and then went on to become the century s most important theologian of the Orthodox faith As Evtuhov recounts the story of Bulgakov s spiritual evolution she traces the impact of seemingly opposed philosophical and religious world views on one another and on the course of political events In the first comprehensive analysis of Bulgakov s most important religious philosophical work *Philosophy of Economy* Evtuhov identifies a perceptual revolution in Russian thinking about economy a significant contribution to European modernist thought which both shaped and grew out of contemporary debates over land reforms She reconstructs Bulgakov s vision of an Orthodox constitutional Russia shows how he tried to put it into practice in the wake of the February Revolution and demonstrates its importance for a large and influential portion of Russian society     **Utopias and Utopians** Richard C.S. Trahair,2013-10-31 Utopian

ventures are worth close attention to help us understand why some succeed and others fail for they offer hope for an improved life on earth *Utopias and Utopians* is a comprehensive guide to utopian communities and their founders Some works look at literary utopias or political utopias etc and others examine the utopias of only one country this work examines utopias from antiquity to the present and surveys utopian efforts around the world Of more than 600 alphabetically arranged entries roughly half are descriptions of utopian ventures the other half are biographies of those who were involved Entries are followed by a list of sources and a general bibliography concludes the volume     **Russian Messianism** Peter J. S.

Duncan,2002-11-01 This is the first book in English for half a century to examine the complexities of Russian messianism both as a whole and in its interaction with Communism Peter Duncan considers its Orthodox roots and focuses on Russia s geopolitical experience and situation to explain the endurance of this phenomenon     *Apology of Culture* Artur

Mrowczynski-Van Allen,Teresa Obolevitch,Pawel Rojek,2015-03-02 Contemporary philosophy and theology are ever more

conscious of the fact that the model of relations between religion and culture developed in modernity is fundamentally flawed. The processes of the secularization of society, culture, and even religion are rooted in the dualistic vision of religion and culture introduced in the late Middle Ages. In seeking a way out, we need to explore domains of culture unaffected by Western European secular thinking. Russian thought is remarkably well prepared to formulate an alternative to secular modernity. Indeed, in Russian culture, there was neither a Renaissance nor an Enlightenment. Eastern Christianity retained an integral patristic vision of human nature that had not been divided into separate natural and supernatural elements. These pre and non-modern visions are now gaining exceptional value in the postmodern reality in which we find ourselves. The heritage of Russian Christian thought may serve as a source of inspiration for alternative approaches to religion and culture. In this respect, Russian thought may be compared with *nouvelle théologie*, Radical Orthodoxy, and other recent movements in Christian postsecular thought. For this reason, it remains astonishingly contemporary.

**The French Revolution in Russian Intellectual Life**, 2009. Russian intellectual discourse on the French Revolution as a representation of the West rather than a symbol of revolution.

**Transhumanism and Transcendence** Ronald Cole-Turner, 2011-09-29. The timeless human desire to be more beautiful, intelligent, healthy, athletic, or young has given rise in our time to technologies of human enhancement. Athletes use drugs to increase their strength or stamina; cosmetic surgery is widely used to improve physical appearance; millions of men take drugs like Viagra to enhance sexual performance. And today researchers are exploring technologies such as cell regeneration and implantable devices that interact directly with the brain. Some condemn these developments as a new kind of cheating, not just in sports but in life itself, promising rewards without effort and depriving us most of all of what it means to be authentic human beings. Transhumanists, on the other hand, reject what they see as a rationalizing of human limits, as if being human means being content forever with underachieving bodies and brains. To be human, they insist, is to be restless with possibilities, always eager to transcend biological limits. As the debate grows in urgency, how should theology respond? Christian theologians recognize truth on both sides of the argument, pointing out how the yearnings of the transhumanists, if not their technological methods, find deep affinities in Christian belief. In this volume, Ronald Cole Turner has joined seasoned scholars and younger emerging voices together to bring fresh insight into the technologies that are already reshaping the future of Christian life and hope.

**Tolstoy** graf Leo Tolstoy, 1998. Although Tolstoy's fame rests on his novels, he was also a prolific dramatist. Because his plays are satirical, didactic, and colored by complex peasant dialect, earlier translations have been seriously flawed. These imperfect translations, coupled with Tolstoy's famous polemics against Shakespeare and Chekhov, have reinforced the general misapprehension that Tolstoy was not a dramatist. Now noted Slavic philologist Marvin Kantor and Tatiana Tulchinsky have prepared the first complete English translation of the great writer's plays. This volume contains plays written during the years 1894 to 1910, including *Peter the Breadman*, *And the Light Shined in Darkness*, *The Living Corpse*, *The Wisdom of Children*, *The Traveler*, and *the Peasant*. The

Cause of It All      **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989      **Christianity and the Eastern Slavs, Volume III** Boris Gasparov, Robert P. Hughes, Irina Paperno, Olga Raevsky-Hughes, 2024-07-26 This publication in three volumes originated in papers delivered at two conferences held in May 1988 at the University of California Berkeley and the Kennan Institute for Advanced Russian Studies in Washington DC Like many other conferences organized that year in the United States Europe and the Soviet Union they were convened to commemorate the millennium of the acceptance of Christianity in Rus This collection of essays throws light on the enormous truly unique role that the Christian tradition has played throughout the centuries in shaping the nations that spring from Kievan Rus the Russians Ukrainians and Belorussians Although these volumes devote greater attention to Russian culture the investigation of the issue in the history of Christianity in Ukrainian and Belorussian cultures occupies an important and integral part of the project Volume I Slavic Cultures in the Middle Ages Edited by Boris Gasparov and Olga Raevsky Hughes Volume II Russian Culture in Modern Times Edited by Robert P Hughes and Irina Paperno Volume III Russian Literature in Modern Times Edited by Boris Gasparov Robert P Hughes Irina Paperno and Olga Raevsky Hughes This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993      **Visions of Technological Transcendence** James A. Herrick, 2017-03-03 This book examines key narratives animating the techno progressive rhetoric of the human enhancement movement arguing that enhancement and transhumanist discourse performs a variety of distinctly mythic functions Principal among these is to cast a vision of a technological future involving enhanced posthumans immortality human merger with machines and space colonization      Revolutionary Dreams Richard Stites, 1991-11-14 The revolutionary ideals of equality communal living proletarian morality and technology worship rooted in Russian utopianism generated a range of social experiments which found expression in the first decade of the Russian revolution in festival symbol science fiction city planning and the arts In this study historian Richard Stites offers a vivid portrayal of revolutionary life and the cultural factors myth ritual cult and symbol that sustained it and describes the principal forms of utopian thinking and experimental impulse Analyzing the inevitable clash between the authoritarian elements in the Bolshevik s vision and the libertarian behavior and aspirations of large segments of the population Stites interprets the pathos of utopian fantasy as the key to the emotional force of the Bolshevik revolution which gave way in the early 1930s to bureaucratic state centralism and a theology of Stalinism      **Subversive Imaginations** Nadya Peterson, 2019-06-26 In response to the profound changes in Soviet society in recent years the author considers the demise of Soviet literature and the emergence of its Russian progeny through the prism of the writers engagement with fantasy Viewing the mutual interaction of Soviet Russian literary output with aspects of the dominant culture such as ideology and

politics Nadya Peterson traces the process of mainstream literary change in the context of broader social change She explores the subversive character of the fantastic orientation its Utopian and apocalyptic motifs and its dialogical relationship with socialist realism as it steadily gathered force in the latter Soviet decades The shattering of the mythic colossus did not put an end to these opposing forces but rather diverted them in various unexpected directions as the author explains in her concluding chapters on the new alternative literatures *The French Revolution in Russian Intellectual Life* James O'Connor, 2017-07-12 Sandwiched between the East and West Russian intellectuals have for centuries been divided geographically politically and culturally into two distinct groups the Slavophiles who rejected Western style democracy preferring a more holistic and abstract vision and the more rational and scientific minded Westernizers These two ideologies cut across the political spectrum of late nineteenth century Russia and competed for dominance in the country's intellectual life The tension created between these two opposing groups caused the feeling that violent upheaval was Russia's future In turn many began to think that Russia was possibly following the path of France and that a French style revolution might be possible on Russian soil In *The French Revolution in Russian Intellectual Life* Dmitry Shlapentokh describes the role that the French democratic revolution played in Russia's intellectual development by the end of the nineteenth century The revolutionary upheaval in Russia at the beginning of twentieth century and the continuous expansion of the West convinced most Russian intellectuals that the French Revolution in its democratic reading was indeed the pathway of history Yet the rise of totalitarian regimes and their expansion proved the validity of the sober vision of nineteenth century Russian intellectuals Some conservative Russian intellectuals believed that not only would Russia preserve its authoritarian regime but it would spread this regime all over the world In this context Shlapentokh argues the French Revolution with its democratic tradition was only a phenomenon of Western civilization and hence transitory The flirtation with Western ideology with its democratic polity and market economy that followed in the wake of the collapse of the communist regime culminated in an increasing push for corporate authoritarianism and nationalism This work helps explain why Russia turned away from democratic to autocratic styles 1 **Is Russia Fascist?** Marlene Laruelle, 2021-03-15 In *Is Russia Fascist* Marlene Laruelle argues that the charge of fascism has become a strategic narrative of the current world order Vladimir Putin's regime has increasingly been accused of embracing fascism supposedly evidenced by Russia's annexation of Crimea its historical revisionism attacks on liberal democratic values and its support for far right movements in Europe But at the same time Russia has branded itself as the world's preeminent antifascist power because of its sacrifices during the Second World War while it has also emphasized how opponents to the Soviet Union in Central and Eastern Europe collaborated with Nazi Germany Laruelle closely analyzes accusations of fascism toward Russia soberly assessing both their origins and their accuracy By labeling ideological opponents as fascist regardless of their actual values or actions geopolitical rivals are able to frame their own vision of the world and claim the moral high ground Through a detailed examination of the Russian

domestic scene and the Kremlin's foreign policy rationales Laruelle disentangles the foundation for meaning and validity of accusations of fascism in and around Russia *Is Russia Fascist* shows that the efforts to label opponents as fascist is ultimately an attempt to determine the role of Russia in Europe's future
