Panourgias, 2006-04-07 Banking Regulation and World Trade Law concerns the legal aspects of the interaction between banking regulation and international trade in financial services. The author studies the internal banking market of the European Union the liberalisation of financial services trade in the World Trade Organization the accords of the Basel Committee on Banking Supervision and the European Central Bank The book focuses on the balancing between banking regulation and international trade law It discusses discrimination and proportionality in national banking regulation the allocation of prudential regulation and supervision between home and host country and international financial law making The author questions decentralised nation based banking regulation and supervision as a foundation for a sustainable liberalisation of international trade in financial services The book considers various reforms of the international financial architecture such as the incorporation of the Basel processes and accords into the WTO system and the setting up of new international institutions by building on the Basel Committees or the IMF structures The role of central banking in designing the international financial architecture is also explored the book reviews the ECB's competence over foreign exchange policy and its function as lender of last resort and treats price stability banking soundness and representation as critical concepts The analysis also reveals that the concept of prudential despite its extensive use in banking regulation has not been defined with adequate precision In seeking to delineate the interface between international economic law and banking regulation Dr Panourgias builds on the rich European scholarship on institutional financial issues and the US interdisciplinary approach to world trade law He also entertains the notion of international financial law as a distinct field The book will be of particular interest to those concerned with financial law and international banking Mexico Business Law Handbook Volume 1 Strategic Information and Basic Laws IBP, Inc, 2012-02-22 Mexico Business Law Handbook Strategic Information and International Investment Law and the Right to Regulate Lone Wandahl Mouyal, 2016-03-10 The book **Basic Laws** considers the ways in which the international investment law regime intersects with the human rights regime and the potential for clashes between the two legal orders Within the human rights regime states may be obligated to regulate including a duty to adopt regulation aiming at improving social standards and conditions of living for their population Yet states are increasingly confronted with the consequences of such regulation in investment disputes where investors seek to challenge regulatory interferences for example in expropriation claims Regulatory measures may for instance interfere with the investment by imposing conditions on investors or negatively affecting the value of the investment As a consequence investors increasingly seek to challenge regulatory measures in international investment arbitration on the basis of a bilateral investment treaty This book sets out the nature and the scope of the right to regulate in current international

investment law The book examines bilateral investment treaties and ICSID arbitrations looking at the indicative parameters that are granted weight in practice in expropriation claims delimiting compensable from non compensable regulation The book places the potential clash between the right to regulate and international investment law within a theoretical framework which describes the stability flexibility dilemma currently inherent within international law Lone Wandahl Mouyal goes on to set out methods which could be employed by both BIT negotiators and adjudicators of investment disputes allowing states to exercise their right to regulate while at the same time providing investors with legal certainty The book serves as a valuable tool an added perspective for academics as well as for practitioners dealing with aspects of international investment law
