Nag Hammadi Codex Vii Nag Hammadi And Manichaeism Studies:

The Paraphrase of Shem (NH VII,1) Michel Roberge, 2010-06-14 This book presents the first comprehensive interpretation of the Paraphrase of Shem Codex VII 1 in the Coptic Nag Hammadi Library The lengthy introduction discusses the literary genre of the treatise its plan and system its situation among the Gnostic systems its provenance and date The translation sets out the text in paragraphs with headings and subheadings A short commentary follows the translation The analysis of the system shows that the author is working from a model of the universe whose principles have been drawn from Stoicism and Middle Platonism While dipping into the springs of the major Sethian and Valentinian systems the author follows his own way and offers an original system anticipating in many respects Manichaeism *Studies in Gnosticism and Alexandrian Christianity* Roelof van den Broek, 2020-10-26 The discovery of the Nag Hammadi Library 1945 has given an enormous impetus not only to the study of ancient Gnosticism but also to that of early Christianity in general Most of the studies contained in this volume deal with mythological conceptions and theological ideas found in various Nag Hammadi writings The gnostic views on the nature of God and on creation and salvation receive particular attention ranging from Philo to the medieval Cathars The Nag Hammadi Library also shed new light on the development of early Alexandrian Christianity and its theology The book contains six studies which explicitly deal with these topics This volume is of interest to students of Gnosticism early Christianity and Graeco Roman religious and philosophical ideas in general **The A to Z of the Coptic Church** Gawdat Gabra, 2009-10-26 During the first century Saint Mark brought Christianity to Egypt and in so doing formed the basis for the Coptic Orthodox Church Today Copts members of the Coptic Church comprise the largest Christian Community in the Middle East The Coptic Church is more than 19 centuries old and has produced thousands of texts and biblical and theological studies During the last half of the 20th century however economic and political discrimination has forced between 400 000 and one million Copts to emigrate from Egypt with the majority settling in North America and Australia The A to Z of the Coptic Church details the history of one of the oldest Christian churches This is done through a chronology an introductory essay a bibliography and more than 400 cross referenced dictionary entries on important people organizations and structures the theology and practices of the church its literature and liturgy and monasteries and churches

The Figure of Solomon in Jewish, Christian and Islamic Tradition Joseph Verheyden, 2012-11-21 Solomon is one of the more complex and fascinating characters in the history of Israel As a king he is second only to David As the king who gave Israel its temple he is unsurpassed As the prototype of the sage his name lives on in numerous biblical and non biblical writings As the magician of later tradition he has established himself as a model for many other aspirants in this field This volume contains the proceedings of an international conference on Solomon that was held at the Faculty of Theology and Religious Studies of the University of Leuven September 30 October 2 2009 and discussed various aspects of this multifaced character as he appears in Jewish early Christian and Islamic tradition [The Gospel According to Philip](#) Martha

Turner,2020-10-26 Study of the Gospel according to Philip an important gnostic Christian text has been hampered by unresolved questions about the unity genre and sectarian contexts of the work This book argues that terms of self designation use of controversial vocabulary style hermeneutic strategies and theological commitments together present persuasive evidence of derivation from multiple sectarian milieux The document s organizing principles are found to be in accord with the excerpting and collection practices of Late Antiquity The coherence of the text lies in its compiler s distinctive interests and choices not in the uniformity of its materials The persuasive case made by this book will help to advance research on this significant document of early Christianity **A Companion to Second-Century Christian**

'Heretics' Antti Marjanen,Petri Luomanen,2008 The book deals with thinkers and movements that were embraced by many second century religious seekers but which are now largely forgotten or known only as heretics Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites *Gnosticism, Platonism and the Late Ancient World* Kevin Corrigan,Tuomas

Rasimus,2013-07-25 This Festschrift honors the life and work of John D Turner Charles J Mach University Professor of Classics and History at the University of Nebraska at Lincoln on the occasion of his 75th birthday Professor Turner s work has been of profound importance for the study of the interaction between Greek philosophy and Gnosticism in late antiquity This volume contains essays by international scholars on a broad range of topics that deal with Sethian Valentinian and other early Christian thought as well as with Platonism and Neoplatonism and offer a variety of perspectives spanning intellectual history Greek and Coptic philology and the study of religions Sethian Gnosticism and the Platonic Tradition John Douglas

Turner,2001 The Care of the Self in Early Christian Texts Deborah Niederer Saxon,2017-10-05 This book presents the first three Christian centuries through the lens of what Foucault called the care of the self This lens reveals a rich variation among early Christ movements by illuminating their practices instead of focusing on what we anachronistically assume to have been their beliefs A deep analysis of the discourse of martyrdom demonstrates how writers like Clement Ignatius and Polycarp represented self care Deborah Niederer Saxon brings to light an entire spectrum of alternative views represented in newly discovered texts from Nag Hammadi and elsewhere This insightful analysis has implications for feminist scholarship and exposes the false binary of thinking in terms of orthodoxy versus heresy Gnosticism **The Cambridge History of**

Philosophy in Late Antiquity Lloyd P. Gerson,2015-12-10 The Cambridge History of Philosophy in Late Antiquity comprises over forty specially commissioned essays by experts on the philosophy of the period 200 800 CE Designed as a successor to The Cambridge History of Later Greek and Early Medieval Philosophy edited by A H Armstrong it takes into account some forty years of scholarship since the publication of that volume The contributors examine philosophy as it entered literature science and religion and offer new and extensive assessments of philosophers who until recently have been mostly ignored The volume also includes a complete digest of all philosophical works known to have been written during this period It will be

an invaluable resource for all those interested in this rich and still emerging field Paradise Reconsidered in Gnostic Mythmaking Tuomas Rasimus, 2009-10-31 This book offers a new understanding of Sethianism and the origins of Gnosticism by examining the mythology in and social reality behind a group of texts to which certain leaders of the early church occasionally attached the label Ophite In the unique Ophite mythology which rewrites the Genesis paradise story and is attested for example in Irenaeus Adversus haereses 1 30 The Apocryphon of John and On the Origin of the World the snake's advice to eat of the tree of knowledge is considered positive the creator and his angels are turned into demonic beasts and the true Godhead is presented as an androgynous heavenly projection of Adam and Eve It is argued that Hans Martin Schenke's influential model of the Sethian system only reveals part of a larger whole to which the Ophite material belongs as an important and organic component New Light on Manichaeism Jason BeDuhn, 2009-03-16 New Light on Manichaeism provides the latest discoveries and insights into the Manichaean religion throughout its more than one thousand year history ranging from glimpses into the life and thought of Mani himself to developments in doctrine and practice in the religion's North African Iranian Central Asian and Chinese settings The volume includes contributions from the leading scholars in the field offering new reconstructions of Manichaean literary and artistic productions and innovative analyses of the religious social and political dynamics that shaped the rise and fall of this world religion **The Church as Paradise and the Way Therein: Early Christian Appropriation of Genesis 3:22-24** Christopher A. Graham, 2017-04-24 In The Church as Paradise and the Way Therein Early Christian Appropriation of Genesis 3 22 24 Christopher A Graham demonstrates that early Christian authors employed the words paradise and way as allusions to the expulsion narrative Genesis 3 22 24 to signify that the benefits available in protological Paradise were once again accessible in and through Jesus and the Church The centrality of the expulsion narrative in their literary milieus gave these authors confidence that readers would discern these allusions After considering the reception of the expulsion in texts circulating within the early Christian milieu Graham turns to the texts of Luke and Irenaeus of Lyons Both authors drew from an interpretive tradition in which a return to Paradise was desirable Both celebrated Jesus's reversal of Adam's expulsion and the constitution of Jesus's followers as the location and means by which humanity could continue to access divine truth and life For both authors the Church is Paradise and the way therein **The Books of Jeu and the Pistis Sophia as Handbooks to Eternity** Erin Evans, 2015-08-11 Despite the surge of interest in Gnostic texts following the discovery of the Nag Hammadi library the Coptic Books of Jeu and Pistis Sophia remain understudied Often dismissed as convoluted confused and repetitious Erin Evans convincingly shows that these texts represent the writings of a distinct religious group with a consistent system of theology cosmology and ritual practice This book offers an in depth examination of these texts their relationship to other contemporary Gnostic ideas and their use in the context of a practicing religious group Three thematic sections demonstrate how the collection of texts functions as a whole covering baptisms and mystical ascent procedures guides to moral living and introductory texts and

myths **Gnostic Revisions of Genesis Stories and Early Jesus Traditions** Gerard P. Luttikhuisen, 2005-12-01 This book argues that the intellectuals behind early Gnostic revisions of Genesis stories were second century Christians with an ideological background in Greek Hellenistic philosophy who adopted and reinterpreted biblical narrative materials with a view to exposing the inferiority of the creator God of Genesis and the ignorance of those Christians who continued to worship this God It also discusses controversies between Gnostic and early orthodox Christians about the person and the mission of Jesus Christ The first part examines the possible polemical function the philosophical thought structure and the narrative scheme of the Genesis rewritings and continues with studies of individual episodes of the Gnostic myth from the creation of Adam up to the story of Noah and the Flood The second part focuses on Gnostic reinterpretations of the teaching and the passion of Jesus The book includes essays about Gnostic theology ancient and modern readings of Gnostic texts and an appendix dealing with the ancient baptist community in which Mani was reared *God's Word and Our Words* W. Hulitt

Gloer, Shawn E. Boyd, 2019-09-18 Written by nationally and internationally known homiletics and preachers this book offers a fascinating survey of the significant developments in preaching beginning with the Old Testament moving through the history of preaching and concluding with a look into the future all while offering practical suggestions for meeting the challenges that lie ahead In a unique way it addresses both the academic issues raised during each period and the practical implications for preaching today and in the future **The Gospel of Judas in Context** Maddalena Scopello, 2008-01-01 The papers gathered in this book were presented at the First International Conference held in Paris University of Sorbonne October 27th 28th 2006 devoted to the newly discovered Gospel of Judas preserved in the 4th century Coptic Codex Tchacos These essays explore several crucial literary historical and doctrinal issues related to this gospel composed in the second half of the 2nd century This unexpected discovery sheds a new light on the role attributed to Judas by some Gnostic Christian movements A hotly debated question is precisely the significance of Judas in this gospel hero or villain Special attention is given to the sources Greek Jewish Christian and even Iranian used by the unknown author This book will be of special interest for historians of late Antiquity religions and scholars in New Testament studies Gnosticism and Coptic literature

What Happened to the Ancient Library of Alexandria? Mostafa El-Abbadi, Omnia Fathallah, Ismail Serageldin, 2008-02-28 In adopting the theme of What Happened to the Ancient Library of Alexandria this book aims at presenting afresh a highly specialized discussion of primary sources related to the diverse aspects and episodes of that long disputed question The book covers a wide range of topics beginning with an initial presentation of different Ancient Egyptian types of library institutions with a special focus on the later Coptic Nag Hamadi Library It then deals with the troubled times under later Ptolemies and Romans when the Royal Library the Daughter Library and the Mouseion came under a succession of threats Caesar's Alexandrian War in 48 B C and during the tragic developments in the third and fourth centuries which ultimately culminated in the destruction of the Serapeum that housed the Daughter Library A discussion of the intellectual

milieu during the fourth and fifth centuries follows as well as the conflicting attitudes within the Church with regard to classical learning An analysis of historical and new archaeological evidence confirms the fact that Alexandria continued to be a city of books and scholarship centuries after the destruction of the Library Finally the late medieval Arab story of the destruction of the Library by order of Caliph Omar is fully considered and refuted through textual analysis of the original sources Contributors include William J Cherf Dimitar Y Dimitrov Maria Dzielska Mostafa A El Abbadi Jean Yves Empereur Fayza M Haikal Georges Leroux Bernard Lewis Grzegorz Majcherek Mounir H Megally Birger A Pearson Lucien X Polastron Qassem Abdou Qassem and Ismail Serageldin

The Gnostic Bible Willis Barnstone, Marvin W. Meyer, 2006 The most comprehensive collection of gnostic literature ever published this volume is the result of a unique collaboration between a renowned poet translator and a leading scholar of early Christian texts

L'Allogène Wolf-Peter Funk, 2004 Le trait intitulé L'Allogène ne traite pas d'une autre race étrangère c'est une apocalypse qui raconte la mort et dans la suite d'un personnage nommé Allogène et les révélations qu'il y reçoit de la part de trois divinités Ce trait appartient à un courant qui a commencé à se développer après 220 de notre ère puisque il est inconnu d'Irénée et d'Hippolyte probablement en Occident Vers 300 Porphyre dans sa Vie de Plotin déclare que le philosophe s'en prit à certains gnostiques qui produisaient des apocalypses de Zoroastre de Zostrien de Nicothée d'Allogène de Messos et d'autres figures du même genre

16 La plupart des spécialistes pensent que les traités Allogène et Zostrien retrouvés à Nag Hammadi NH XI 3 et VIII 1 doivent être identifiés aux révélations mentionnées par Porphyre L'Allogène appartient à un ensemble de écrits désignés sous l'appellation de traités platonisants sythiens qui comprend outre les deux traités connus de Porphyre les Trois Stèles de Seth NH VII 5 et Marsanès NH X Ces quatre traités partagent une métaphysique et une ontologie caractéristiques de Plotin et des néoplatoniciens tardifs ainsi que de certaines sources néoplatoniciennes Les particularités linguistiques et les nombreuses difficultés que présente le texte copte de L'Allogène indiquent qu'il s'agit très certainement d'un ouvrage originellement composé en grec et dont le vocabulaire métaphysique d'une grande technicité a dû représenter un défi de taille pour ses traducteurs coptes L'original grec a vraisemblablement été composé quelque part en Méditerranée orientale peut-être Alexandrie vers 240 pour ensuite aboutir à Rome au milieu du II^e siècle où il fut lu et réfut dans l'école de Plotin C'est dire son importance pour l'histoire du gnosticisme et pour celle du platonisme Le présent volume offre une introduction au traité un texte copte nouvellement établi une traduction française et un index verborum
