Regeneration of Plants in Arid Ecosystems Resulting from Patch Disturbance Yitzchak Gutterman, 2013-03-14 The main subject of this book is the interaction between diggings created by porcupines when consuming geophytes and their influences on annual and perennial vegetation in a desert biome The accumulation of run off water in diggings and depressions made by animals

increases the carrying capacity of these microhabitats in the desert biome The accumulation of run off water does not only benefit the natural vegetation a system of human made depressions can be evolved to increase the catchment of the run off water that is typical to many desert habitats and can lead to run off agriculture in such areas This book will be of interest to anyone working in the fields of development of deserts from the ecological point of view water resources soil protection and erosion plant ecophysiology and settlement and agronomy It will be helpful to students researchers teachers and anyone interested in any of these areas

Wild Flowers of South Africa J. P. Rourke, 1996 South Africa's floral heritage one of the richest in the world continues to capture the excited attention of botanists and laymen Like the land itself its flora provides an abundance of contrasts from the bashful daisy to the proudly beautiful strelitzia the majestic giant protea and the wealth of ericas which share its rocky kingdom the blazing carpets of daisies of Namaqualand to the burnished spears of an aloe covered hillside The first chapter introduces the reader to the wonders of our floral kingdom while brief captions identify each flower and indicate when and where it is likely to be seen Essentially all the more decorative families of flowering plants have been covered Plates are grouped according to families and a brief commentary introduces each family Scientific names are used throughout with common names being given where these are accepted as well as anecdotes relating to utilitarian medicinal or horticultural uses The guide concludes with a useful bibliography of illustrated publications on South African wild flowers providing guidelines for further reading and an index

The European Garden Flora Flowering Plants James Cullen, Sabina Knees, H. Suzanne Cubey, J. M. H. Shaw, 2011-08-11 The European Garden Flora is the definitive manual for the accurate identification of cultivated ornamental flowering plants Designed to meet the highest scientific standards the vocabulary has nevertheless been kept as uncomplicated as possible so that the work is fully accessible to the informed gardener as well as to the professional botanist This new edition has been thoroughly reorganised and revised bringing it into line with modern taxonomic knowledge Although European in name the Flora covers plants cultivated in most areas of the United States and Canada as well as in non tropical parts of Asia and Australasia Volume 1 contains accounts of all the Monocotyledons which includes those groups known informally as the petaloid monocotyledons the Liliaceae and Amaryllidaceae in the first edition divided here among 17 families the grasses and sedges Gramineae and Cyperaceae the aroids Araceae and the large and diverse Orchidaceae
