Krishnamurti and Sant Kabir* Rohit Mehta, Shridevi Mehta, 1990 From Kabir to Krishnamurti is a far cry For they are separated one from the other by over five centuries But quantitative measurement of this distance has a qualitative aspect which cannot be measured in any time scale Two great seers lived in two completely different worlds with no comparison between the two And yet they expressed their thoughts and experience not only in a similar language but almost in identical terms In these two streams of thought represented by Kabir and Krishnaji the authors note a fascinating parallelism These streams run parallel to each other and yet they meet from time to time at the intersections between the two approaches to life J Krishnamurti and Sant Kabir focuses on these meeting points between the two approaches to life The book also presents the intersections between the writings and sayings of Kabir and Krishnaji     *Kant on Intuition* Stephen R. Palmquist, 2018-11-08 Kant on Intuition Western and Asian Perspectives on Transcendental Idealism consists of 20 chapters many of which feature engagements between Kant and various Asian philosophers Key themes include the nature of human intuition not only as theoretical pure sensible and possibly intellectual but also as relevant to Kant's practical philosophy aesthetics the sublime and even mysticism the status of Kant's idealism realism and Kant's notion of an object Roughly half of the chapters take a stance on the recent conceptualism non-conceptualism debate The chapters are organized into four parts each with five chapters Part I explores themes relating primarily to the early sections of Kant's first Critique three chapters focus mainly on Kant's theory of the

forms of intuition and or formal intuition especially as illustrated by geometry while two examine the broader role of intuition in transcendental idealism Part II continues to examine themes from the Aesthetic but shifts the main focus to the Transcendental Analytic where the key question challenging interpreters is to determine whether intuition via sensibility is ever capable of operating independently from conception via understanding each contributor offers a defense of either the conceptualist or the non conceptualist readings of Kant's text Part III includes three chapters that explore the relevance of intuition to Kant's theory of the sublime followed by two that examine challenges that Asian philosophers have raised against Kant's theory of intuition particularly as it relates to our experience of the supersensible Finally Part IV concludes the book with five chapters that explore a range of resonances between Kant and various Asian philosophers and philosophical ideas
