The Deshima Diaries, 2021-10-25 English translation of the marginalia or marginal notes that were added to the text of the Deshima Diaries from the 1670s onwards in order to provide the Dutch chief of Deshima with a quick reference to the notes of his predecessors This volume covers the marginalia from the 1740-1800 diaries Providing the general public and especially those who have neither a command of Dutch nor of Japanese access to a fascinating period of Japanese history in which the Dutch played such a singular role At the same time the serious scholar will obtain an easy key to the extremely rich holdings of the archive of the Deshima trading factory which covers a shelf length of more than forty meters in the National Archives in the Netherlands but which has been only rarely utilized by historians Japanologists or other scholars In the 1740s the Dutch East India Company VOC was in many ways at the height of its power The second half of the 18th century saw the decline of the Company from being the high and mighty and only trading company which covered from its base in Batavia Jakarta all of Asia with a network that stretched

from Basra in Persia to Nagasaki in Japan to becoming a mere shadow of its former self with only a tenuous hold on a few possessions in the Indonesian archipelago. By the end of the century it had lost its establishments in South Africa, India and Ceylon to the British and its fleet was gone. However, as a trading company it was dead but as a proto colonial producer it was actually doing quite well. The basis of the present text are the Deshima Dagregisters, their original tables of contents, Vol VII 1740-1760, Vol VIII 1760-1780, Vol IX 1780-1790, Vol X 1790-1800, published in the Intercontinenta Series Nos 18, 1993, 19, 1995, 20, 1996 and 21, 1997, by the Institute for the History of European Expansion at Leiden University Scientific Publications of the Japan Netherlands Institute. Unearthing St. Mary's City Henry M. Miller, Travis G. Parno, 2021-05-04. This volume summarizes the remarkably diverse archaeological discoveries made during the past half century of investigations at the site of St. Mary's City, the first capital of Maryland and one of the earliest European settlements in America. Founded in 1634, the city had disappeared by 1750, yet the archaeology documented in *Unearthing St. Mary's City* reveals its untold history. Contributors to this volume review new research approaches and methods developed recently at Historic St. Mary's City. They study the archaeology, architecture and people of the lively seventeenth century colonial hub. They also explore the landscapes of agriculture, enslavement and remembrance.

that developed at the site in the centuries after the capital's relocation to Annapolis. In their chapters contributors delve into subjects such as soil analysis, ceramics, diet, forts, burials, plantations, state houses, tenants, tobacco pipes, gaming, and the education of women. The lands along the Chesapeake Bay have witnessed a vast range of human experiences, and this book highlights the lives of peoples of European, Native American, and African origins who lived on this site over a span of four centuries. Their stories illuminate the multilayered nature of this important place and the broader Chesapeake region and serve as a testament to the potential and power of historical archaeology.

Legalized Identities Lucas Lixinski, 2021-04-08. Cultural heritage is a feature of transitioning societies, from museums commemorating the end of a dictatorship to adding places like the Auschwitz-Birkenau concentration camp to the World Heritage List. These processes are governed by specific laws, and yet transitional justice discourses tend to ignore law's role, assuming that memory in transition emerges organically. This book debunks this assumption, showing how cultural heritage law is integral to what memory and cultural identity is possible in transition. Lixinski attempts to reengage with the original promise of transitional justice to pragmatically advance societies towards a future where atrocities will no longer happen. The promise in the UNESCO Constitution of lasting peace through cultural understanding is possible through focusing on the intersection of cultural heritage law and transitional justice, as Lixinski shows in this ground-breaking book.

Down by the Station Roberta S. Greenwood, 1996-06-01. In 1933 the demolition of the thriving Los Angeles Chinatown for the construction of Union Station sealed the remains of this intact community 14 feet below the railroad tracks. The planning and construction of the Metro Rail subway system five decades later included efforts to preserve and protect cultural resources in the area detailed in this volume. The assemblage of excavated material objects reflects the import, preparation, and service of food, recreation, health practices, the presence of women and children, rubbish disposal practices, and degree of participation in local social networks. The unprecedented numbers and densities of artifacts illuminate aspects of lifeways not previously recorded, revealing a rich picture of people and life in nineteenth and early twentieth century Los Angeles. Intensive historical research, oral history, and laboratory analyses have been synthesized into a comprehensive reconstruction of a community that was isolated socially, economically, and geographically.
