Narcotics And Reproduction A Bibliography:

Narcotics and Reproduction, 1983-12-20 A mother's narcotics abuse can have profound effects on her pregnancy and the health of her child both inside and outside the womb Spontaneous abortion premature birth labor difficulties increased perinatal and neonatal mortality respiratory distress low birth weight and passed on addiction are just some of the possibilities Ernest Abel's **Narcotics and Reproduction A Bibliography** is the first comprehensive listing of the scholarly research literature produced on this subject Arranged alphabetically by author the book lists materials dealing with the effects of the use of heroin morphine methadone and related drugs on sexual function reproduction and the fetus

National Library of Medicine Current Catalog National Library of Medicine (U.S.), **Current Catalog** National Library of Medicine (U.S.), 1985 First multi year cumulation covers six years 1965-70 Current Catalog, 1971 First multi year cumulation covers six years 1965-70 Handbook of Research on the Illicit Drug Traffic F. LaMond Tullis, LaMond Tullis, United Nations Research Institute for Social Development, 1991-09-30 Focusing on a highly controversial and fiercely debated subject this survey tracks the social and economic consequences of the production trafficking and consumption of cocaine heroin and cannabis From a growing body of literature LaMond Tullis has extracted the most salient economic social and political themes currently under discussion in both scholarly publications and in the responsible press The two part volume consisting of a lengthy review of relevant literature and an annotated bibliography helps its users understand the major issues Can and should consumption be curtailed supplies suppressed and traffickers eliminated Can the unintended economic social and political consequences of curtailing suppressing and eliminating somehow be mitigated Should these drugs be legalized Would legalization produce its own array of unintended and largely unacceptable consequences Although tentative answers to these questions abound this excellent resource is testimony to the fact that there is still little agreement on how to deal with these powerful substances and the problems they generate Tullis's compilation presents the best overview of this complex subject to date The first half of this two part reference consists of a survey of the published literature on the production and consumption of the three illicit drugs Chapters are devoted to the global patterns of production and consumption of cocaine heroin and cannabis to the consequences both positive and negative of drug consumption and production and to the policy measures that have been adopted or are under consideration in both consuming and producing countries These chapters will be of interest to those wishing to obtain an overall view of the subject and to specialists seeking a guide to the literature outside their particular area of knowledge The second half of the book contains an annotated bibliography of about 2 000 items covering works published in English plus a few in Spanish as books articles or press reports This section will be invaluable to researchers working on the frontiers of the subject and to general readers who wish to pursue particular topics in greater depth The volume should be at the fingertips of policy makers legislators law enforcement officials judges and social workers as well as students and teachers *Preschoolers and*

Substance Abuse Bruce Carruth, Pedro J Lecca, Thomas D Watts, 2014-03-05 Find remarkable prevention and treatment strategies for preschool age children of substance abusers in this informative volume It provides an overview of the various problems exposure to substance abuse can cause for preschool children Because of the strong influences parents have on their children early childhood is a critical time for intervention to counteract the damaging effects of alcohol and drug abusing parents Research shows that attitudes about alcohol and other drugs are already formed by junior high school level and senior high school is too late for significant attitude change Preschoolers and Substance Abuse promotes preschool age as the ideal time to apply strategies that will aid the family in building the self esteem trust autonomy and initiative necessary to protect the child from further problems caused by addictive parents Intervention strategies are presented in a succinct manner making them easy for practitioners health officials government officials and family members to put into immediate practice This book offers a unique approach to substance abuse treating it as a community and societal problem rather than an individual problem Intervention and treatment strategies are geared toward the substance abuse problem itself as well as how it impacts children and family systems The harmful impact of alcohol or drug abusive parents is evaluated for all stages of childhood development from pre natal influences through infancy and the preschool years Some of the harmful results of alcohol and drug abuse affecting preschool children addressed in this volume include violence sexual abuse Fetal Alcohol Syndrome and intra uterine exposure to drugs The authors outline a comprehensive list of imperatives for a future agenda to protect preschool children from suffering the consequences of their parents substance abuse Public health officials decision makers practitioners and legislators will find a series of policy recommendations including increased research substance abuse training for child care workers increased outreach and education for expectant mothers and community based outreach programs to insure ethnic or socioeconomic sensitivity and appropriateness [A Research Guide to the Health Sciences](#) Kathleen J.
