YEAR 3 AND 4 – READING AND WRITING POETRY

## Narrative Poetry

*I really did do my work, Miss  
I started it last night, promise!  
The thing is that when I was done  
My naughty pup thought it was fun  
To grab my book and race around  
Then lie down with it on the ground  
Licking, sucking, chomping, biting  
Suddenly there was no writing!  
It's not my fault if maths tastes good  
I really didn't think it would  
For next week's homework why don't you  
Try giving me some art to do?*

## **Narrative Poems:**

**Longer Narrative Poems** Edward Everett Hale (Jr.), 1902      **The Contemporary Narrative Poem** Steven P. Schneider, 2012-12-15

Over the past thirty years narrative poems have made a comeback against the lyric approach to poetry that has dominated the past century. Drawing on a decade of conferences and critical seminars on the topic, *The Contemporary Narrative Poem* examines this resurgence of narrative and the cultural and literary forces motivating it. Gathering ten essays from poet critics who write from a wide range of perspectives and address a wide range of works, the collection transcends narrow conceptions of narrative, antinarrative, and metanarrative. The authors ask several questions: What formal strategies do recent narrative poems take? What social, cultural, and epistemological issues are raised in such poems? How do contemporary narrative poems differ from modernist narrative poems? In what ways has history been incorporated into the recent narrative poetry? How have poets used the lyric within narrative poems? How do experimental poets redefine narrative itself through their work? And what role does consciousness play in the contemporary narrative poem? The answers they supply will engage every poet and student of poetry.

*English Narrative Poems* Various Authors, 2020-09-28

Narrative poetry is distinguished from other types of verse in that it aims to relate a connected series of events and therefore deals primarily with actions rather than with thoughts or emotions. This definition, however simple as it appears to be in theory, is often difficult to apply as a test because other matter is blended with the pure narrative. In any story where the situation is made prominent, description may be required to make clear the scene and explain movements to the reader; thus *Enoch Arden* begins with a word picture of a sea coast town. Again it is often necessary to analyze the motives which actuate certain characters, and so it becomes necessary to introduce exposition of some sort into the plot. The poems in this collection serve to enforce the lesson that the four standard rhetorical forms—narration, description, exposition, and argumentation—are constantly being combined and welded in a complicated way. In cases where these various literary elements are apparently in a tangle, a classification, if it be made at all, must be based on the design of the poem as a whole and the emphasis and proportion given to the respective elements by the author. If the stress is laid on the recounting of the events which make up a unified action, and if the other factors are made subordinate and subsidiary to this end, then the poem in question belongs to the narrative group. The antiquity of the narrative as a form of literature is undisputed. Indeed, it has been established with a reasonable degree of certainty that poetry in its very beginnings was narrative, and in its primitive state must have been a sort of rude, rhythmical chant, originated and participated in by the tribe as a whole, and telling of the exploits of gods or legendary heroes. In the course of time there arose the minstrel, who, acting first as chorus leader, became eventually the representative of the tribe and its own special singer. When we reach a somewhat more advanced stage of civilization, we find regularly appointed bards reciting their lays in the hall of the chieftain or urging on the warriors to battle with rehearsals of past victories. Originally these bards simply repeated the old oral traditions handed down as common

property but the opportunity for the display of individual genius soon induced them to try variations on the current themes and to compose versions of their own. With this advance of individualism poetry became gradually more complex. Various elements lyrical, descriptive and dramatic assumed some prominence and tended to develop separate forms. This differentiation however did not impair the vigor of the story telling spirit and a constant succession of narrative poems down to the present day evidences how productive and characteristic a feature of our literature this form has been.

Shakespeare's Sonnets and Narrative Poems A. D. Cousins, 2014-07-21. Alongside Spenser, Sidney and the early Donne, Shakespeare is the major poet of the 16th century largely because of the status of his remarkable sequence of sonnets. Professor Cousins' new book is the first comprehensive study of the Sonnets and narrative poems for over a decade. He focuses in particular on their exploration of self knowledge, sexuality and death as well as on their ambiguous figuring of gender. Throughout he provides a comparative context looking at the work of Shakespeare's contemporaries. The relation between Shakespeare's non-dramatic verse and his plays is also explored.
