A Tale of Two Remedies Dennis Kurzon,1998 This volume presents a model which sets out in linguistic terms the process by which court decisions on equitable remedies injunctions and specific performance are reached The process is explained in terms of the distinction between the perfective and imperfective aspects which in European languages involves mainly the verb phrase Justification for such an approach is based on the Whorfian hypothesis which states that to a certain extent language determines thought The hypothesis is applied to the origins of the remedies and the development of the aspectual system in Middle English With case studies of American and English cases from both the 15th century and modern period the book should be of interest to both legal historians and students of the linguistics of law Law Books Published,1991 **Linguistics and Language Behavior Abstracts** ,1998 **Making Sense in Law** Bernard S. Human Rights in Deuteronomy Daisy Yulin Tsai,2014-10-14 The humanitarian concerns of the biblical slave laws and their rhetorical techniques rarely receive scholarly attention especially the two slave laws in Deuteronomy Previous studies that compared the biblical and the ANE laws focused primarily on their similarities and developed theories of direct borrowing This ignored the fact that legal transplants were common in ancient societies This study in contrast aims to identify similarities and dissimilarities in order to pursue an understanding of the underlying values promoted within these slave laws and the interests they protected To do so certain innovative methodologies were applied The biblical laws examined present two diverse legal concepts that contrast to the ANE concepts 1 all agents are regarded as persons and should be treated accordingly and 2 all legal subjects are seen as free dignified and self determining human beings In addition the biblical laws often distinguish an offender s criminal intent by which a criminal s rights are also considered Based on these features the biblical laws are able to articulate YHWH s humanitarian concerns and the basic concepts of human rights presented in Deuteronomy **The Cumulative Book Index** ,1992 A world list of books in the English language *Law Without Truth* Anna Pintore,2000 This work analyzes the range of philosophical theories of truth as applied to legal norms paying particular attention to the distinction between ontological and criteriological definitions The author reviews correspondence coherence consensus and procedural theories and explores their role in major contemporary accounts of legal argument particularly those of Habermas Alexy Aarnio Peczenik and Dworkin **Flags, Color, and the Legal Narrative** Anne Wagner,Sarah Marusek,2021-05-24 On behalf of Professor Hugh Brady Director and Senior Fellow The Flag Research Center at the University of Texas School of Law Flags Color and the Legal Narrative Public Memory Identity and Critique Springer 2021 has been selected as the recipient of our Gherardi Davis Prize is presented for a significant contribution to vexillological research for the year 2021 This work was selected because of its breadth and depth in examining flags as meaningful transmitters of significant symbolic information concerning the origins culture self image and values of a society We believe it represents a signal achievement in the study of flags that sets a new standard for

Signs In Law - A Source Book Jan M. Broekman, Larry Catá Backer, 2014-11-06 This volume provides a critical roadmap through the major historical sources of legal semiotics as we know them today The history of legal semiotics now at least a century old has never been written a non event itself pregnant with semiotic possibility As a consequence its sources are seldom clearly exposed and as word object and meaning change are sometimes lost They reach from an English translation of the 1916 inaugural lecture of the first Chair in Legal Significs at the Amsterdam University via mid 20th century studies on property or contract to equally fascinating essays on contemporary semiotic problems produced by former students of the Roberta Kevelson Semiotics Roundtable Seminar at Penn State University 2012 and 2013 Together the materials in this book weave the fabric of semiotics and significs two names for the unfolding of semiotics in law and legal discourse at least until the second half of the 20th century and both of which covered a lawyer s focus on sign and meaning in law The latter is embedded within the cultural imperatives of the

civilization that gave these terms meaning and made them an effective tool for the dissection of law its reconstitution as an instrument to be used by the lawyer to advance the interests of her clients and for judges as a means to restructure language as a narrative of law whose power could bend behavior to its strictures Legal semiotics has become an indispensable part of the elite lawyer s toolkit and a fundamental approach to analysis of legal texts Two previous volumes published in 2011 and 2012 explored the conceptual methodological and epistemological progress in the field of legal semiotics the modern forms of semiotics study and the mechanics of meaning making processes by lawyers Yet the great lessons of semiotics requires a focus on the origins of the concepts and frameworks that would become contemporary legal semiotics its origins as an object of the consciousness of meaning making one whose roots as lessons for the oracular conversations of law are expanded in this volume
