Women, Culture, and the January 2011 Egyptian Revolution Dalia Mostafa,2018-02-02 This book comes at a time when the Egyptian nation is facing deep divisions about the notion and definition of revolution The articles here aim to look at the 2011 Egyptian Revolution and the central role of women within it from a critical perspective Our objective is not to glorify the revolution or inflate the role of Egyptian women within its parameters but to analyse and critique both the achievements and setbacks of this revolution and the contributions of various strata of women to the revolutionary process which is still unfolding Women s participation is part of a broader picture and needs to be considered as an essential element of the ongoing struggle for freedom and social justice not in isolation of it The reader will soon realise that the authors in this book perhaps agree on one profound aspect of the 2011 Revolution the struggle is ongoing and the revolutionary process is still being shaped and recreated The story of the Egyptian Revolution still resists any kind of closure despite the ascendance of the military regime once again to power The years to come will no doubt witness an expansion of the political and cultural archive of the Egyptian and Arab uprisings accompanied by much academic work on their impact and significance Women s roles and contributions need to occupy a central position in these academic analyses This book was originally published as a special issue of the Journal for Cultural Research

Discourses of Postcolonialism in Contemporary British Children's Literature Blanka Grzegorzczak,2014-10-03 This book considers how contemporary British children s books engage with some of the major cultural debates of recent years and how they resonate with the current preoccupations and tastes of the white mainstream British reading public A central assumption of this volume is that Britain s imperial past continues to play a key role in its representations of race identity and history The insistent inclusion of questions relating to colonialism and power structures

in recent children's novels exposes the complexities and contradictions surrounding the fictional treatment of race relations and ethnicity Postcolonial children's literature in Britain has been inherently ambivalent since its cautious beginnings it is both transgressive and authorizing both undercutting and excluding Grzegorzczuk considers the ways in which children's fictions have worked with and against particular ideologies of race The texts analyzed in this collection portray ethnic minorities as complex hybrid products of colonialism global migrations and the ideology of multiculturalism By examining the ideological content of these novels Grzegorzczuk demonstrates the centrality of the colonial past to contemporary British writing for the young

Current trends in anglophone studies: cultural, linguistic and literary research: Javier GARCÍA RUANO, 2011 La publicación de este volumen representa un caso relativamente insólito Un pequeño grupo de jóvenes investigadores de menos de treinta años convence a un grupo mucho más numeroso de la misma edad para celebrar en Salamanca la First Conference of Young Researchers on Anglophone Studies El resultado es deslumbrante No solo demuestran una gran capacidad organizativa sino que los resultados individuales de las aportaciones científicas son sobresalientes Este volumen Current Trends in Anglophone Studies recoge una selección revisada de las propuestas presentadas en el Encuentro y gira en torno a una estructuración tripartita clásica estudios culturales lingüísticos y literarios En ella caben todos aquellos que se mueven en el campo de los estudios anglofonos Cada uno de estos campos podría haber sido suficiente para celebrar un congreso pero parece razonable que en este tipo de encuentros tengan cabida todos De ese modo este volumen se convierte en un ejemplo de aproximación interdisciplinaria a los estudios anglofonos Desde un punto de vista cuantitativo los estudios culturales ocupan sin duda un espacio menor Sin embargo sobresale la variedad de temas tratados así como la internacionalización de los autores dentro de este apartado Estudiantes españoles e italianos acometen estudios relacionados con la música la pintura el cine la traducción la marginalidad social o el impacto de las nuevas tecnologías en la producción artística Si no pareciera demasiado atrevido podría decirse que estos jóvenes estudiosos irían más allá de lo que un día ya lejano pudieron imaginar Richard Hoggard o Raymond Williams Los estudios aquí presentados reflejan sin duda la evolución que la propia sociedad ha experimentado en estos últimos cincuenta años y exploran la relación entre las prácticas culturales la vida diaria y los contextos económicos políticos e históricos No es de extrañar que una gran parte de las contribuciones presentadas en este volumen se centren en el estudio de la lengua ya que la demanda del inglés se ha incrementado de forma considerable en los últimos años Sobresalen los análisis puramente filológicos y sobre todo los relacionados con el aprendizaje del inglés como segunda lengua Por eso destacan estudios que contemplan rasgos morfológicos léxicos o sintácticos Sin embargo el mayor número de participaciones hace referencia al ya citado aprendizaje del inglés como L2 tanto desde el análisis de materiales como desde la práctica oral o escrita Las contribuciones literarias ofrecen una evaluación teórica formal e interpretativa de distintas tendencias desde perspectivas tanto interdisciplinares como interculturales Cronológicamente los estudios abarcan textos desde el siglo XVIII hasta nuestros días con un acento especial

en los autores más contemporáneos y en el género narrativo. En general, estos estudios se fijan en textos concretos y los analizan desde perspectivas culturales, sociológicas o psicológicas. Pero abundan menos las aproximaciones desde la teoría literaria, desde la técnica narrativa o como tal vez cabría esperar al tratarse de estudiantes tan jóvenes. Desde la aplicación de las nuevas tecnologías. Por el contrario, se repiten temas como los traumas heredados de la Guerra de Vietnam, las cicatrices del 11 de septiembre o los problemas de género.

Imaginary Homelands of Writers in Exile Cristina Emanuela Dascalu, 2007. The effects of the displacement of peoples, their forced migration, their deportation, their voluntary emigration, their movement to new lands where they made themselves masters over others or became subjects of the masters of their new homes reverberate down the years and are still felt today. The historical violence of the era of empire and colonies echoes in the literature of the descendants of those forcibly moved and the exiles that those processes have made. The voices of its victims are insistent in the literature that has come to be called postcolonial. Although the term postcolonial is insufficient to capture fully the depth and breadth of those writers that have been labeled by it, for it is itself something of a colonial instrument ghettoizing writers in English who are still considered to be foreign, there is a common bond among the works of those novelists who understand the process of exile and see themselves as exiles both from their homes and from themselves. In this eloquently argued book with meticulous theoretical groundwork, Dr. Cristina Dascalu presents a most lucid and concise examination of exile. In addition to her negotiation of the term exile, what is most original and significant about *Imaginary Homelands of Writers in Exile* is the selection of authors. Reaching across nationalities in terms of country of exile and ethnic in terms of region, religion of birth, boundaries, Dr. Dascalu elegantly shows the persistent relevance of the experience and implications of exile to the writing of fiction in the world today. Rushdie, Mukherjee, and Naipaul are very distinct authors whose works are not often discussed together in this context. Using Benedict Anderson's notion of unimagined communities among other critical lenses, she makes significant connections between the way exile functions as a theme and as a condition for their writing. pub desc

Postmigration Anna Meera Gaonkar, Astrid Sophie Ost Hansen, Hans Christian Post, Moritz Schramm, 2021-09-03. The concept of postmigration has recently gained importance in the context of European societies' obsession with migration and integration along with emerging new forms of exclusion and nationalisms. This book introduces ongoing debates on the developing concept of postmigration and how it can be applied to arts and culture. While the concept has mainly gained traction in the cultural scene in Berlin, Germany, the contributions expand the field of study by attending to cultural expressions in literature, theatre, film, and art across various European societies such as the United Kingdom, France, Finland, Denmark, and Germany. By doing so, the contributions highlight this concept's potential and show how it can offer new perspectives on transformations caused by migration.
