the Olives Bret Lott, 2024-06-18 *Gather the Olives* is a dangerous book. That's because it is about peace in a time when peace in the Holy Land is a faraway even radical notion. It is about hope and food and community and the way there can be solidarity in sharing a meal. Hence the danger: this book might remind its brave readers of how peace is nourished and how hope can't be extinguished. Over the years, Bret Lott, the bestselling author of more than a dozen books including the novel *Jewel*, an Oprah's Book Club selection, has lived and taught in Jerusalem, affording him the opportunity to travel throughout Israel and the surrounding area. Now in *Gather the Olives*, this gifted storyteller has brought together a collection of intimate portraits of the people, the food, and the hope for peace to be found in a region ravaged by war and conflict. Through meditations on such varied matters as an olive oil cooperative run by Israeli and Palestinian women, a non-kosher butcher shop in the middle of upscale and very kosher German Colony, the nighttime harvesting of olives by Bedouins in downtown Jerusalem, a traditional Shabbat dinner at an ancient home within the walls of the Old City, a simple yet beautiful plate of fruit in an office in Ramallah, Bret Lott considers how food and the people with whom we share it can bring together hearts and souls in a lasting meaningful and peaceful way.

Madam Prime Minister Gro Harlem Brundtland, 2005-06-15 One of the world's leading woman politicians tells her inspiring story. At forty-one, Gro Harlem Brundtland, physician and mother of four, was appointed prime minister of Norway, the youngest person and the first woman ever to hold that office. In this refreshingly forthright memoir, Brundtland traces her unusual and meteoric career. She grew up with strong role models; her parents were active in the Norwegian resistance and involved in postwar politics. She became known as a pro-choice crusader in the seventies and entered politics as the minister of the environment. She appointed eight women to her second eighteen-member cabinet, to this day a world record, and was the leading figure in the process that led to the Earth Summit in Rio in 1992. As director general of the World Health Organization since 1997, Brundtland is the first woman elected to run a major UN institution. Along the way, she met a host of international politicians, including Margaret Thatcher, who did not share Brundtland's view on feminism, Mikhail Gorbachev, Nelson Mandela, Ronald Reagan, and Hillary Clinton. Brundtland writes candidly and with humor about raising children in the political limelight and about dealing with political opposition and stereotypes about women. Hers is a fascinating story of one person's ability to make a difference globally.

'And' Barry Schein, 2017-07-21 A bold argument that *and* always means descriptive event anaphora, which replaces simple event variables with silent descriptive pronouns, adverbialization, which interposes adverbials derived from the descriptive content of every DP and AdPs, which replace all NPs with Address Phrases that locate what nominals denote within scenes or frames of reference. With *And*, Schein rehabilitates an old rule of transformational generative grammar, answering the challenges to it exhaustively and meticulously.
