Pueblo Gods And Myths:

Pueblo Gods and Myths Hamilton A. Tyler, 1964 Here is a thorough and long needed presentation of the nature of the Pueblo gods and myths The Pueblo Indians which include the Hopi Zuni and Keres groups and their ancestors are closely bound to the Plateau region of the United States comprising much of the area in Utah Colorado and especially in recent years New Mexico and Arizona The principal god of the Hopi tribe was and is Masau u the god of death Masau u is also a god of life in many of its essentials There is an unmistakable analogy between Masau u and the Christian Devil and between Masau u and the Greek god Hermes who guided dead souls on their journey to the nether world Mr Tyler has drawn many useful comparisons between the religions of the Pueblos and the Greeks Because there is a widespread knowledge of the Greek gods and their ways the author writes many people will thus be at ease with the Pueblo gods and myths Of utmost importance is the final chapter of the book which relates Pueblo cosmology to contemporary Western thought The Pueblos are men and women who have faced and are facing problems common to all mankind The response of the Pueblos to their challenges has been tempered by the role of religion in their lives This account of their epic struggle to accommodate themselves and their society to the cosmic order is must reading for historians ethnologists students of comparative religion and for all who take an interest in the role of religious devotion in their own lives *Pueblo Gods and Myths*, 1964

Other Destinies

Louis Owens,1994 This first book length critical analysis of the full range of novels written between 1854 and today by American Indian authors takes as its theme the search for self discovery and cultural recovery In his introduction Louis Owens places the novels in context by considering their relationships to traditional American Indian oral literature as well as their differences from mainstream Euroamerican literature In the following chapters he looks at the novels of John Rollin Ridge Mourning Dove John Joseph Mathews D Arcy McNickle N Scott Momaday James Welch Leslie Marmon Silko Louise Erdrich Michael Dorris and Gerald Vizenor These authors are mixedbloods who in their writing try to come to terms with the marginalization both of mixed bloods and fullbloods and of their cultures in American society Their novels are complex and sophisticated narratives of cultural survival and survival guides for fullbloods and mixedbloods in modern America Rejecting the stereotypes and cliches long attached to the word Indian they appropriate and adapt the colonizers language English to describe the Indian experience These novels embody the American Indian point of view the non Indian is required to assume the role of other In his analysis Owens draws on a broad range of literary theory myth and folklore structuralism modernism poststructuralism and particularly postmodernism At the same time he argues that although recent American Indian fiction incorporates a number of significant elements often

identified with postmodern writing it contradicts the primary impulse of postmodernism That is instead of celebrating fragmentation ephemerality and chaos these authors insist upon a cultural center that is intact and recoverable upon immutable values and ecological truths Other Destinies provides a new critical approach to novels by American Indians It also offers a comprehensive introduction to the novels helping teachers bring this important fiction to the classroom
