Quiet Days In Burgundy:

The Oxford Handbook of Political Leadership R. A. W. Rhodes, Paul 't Hart, 2014-05-29 Political leadership has made a comeback. It was studied intensively not only by political scientists but also by political sociologists and psychologists, Sovietologists, political anthropologists and by scholars in comparative and development studies from the 1940s to the 1970s. Thereafter, the field lost its way with the rise of structuralism, neo-institutionalism and rational choice approaches to the study of politics, government and governance. Recently, however, students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes. The list of topics is now endless: elections, conflict, management, public policy, government, popularity, development, governance, networks and regional integration. In the media age, leaders are presented and stage-managed, spun. DDLs are the solution to almost every social problem. Through the mass media and the Internet, citizens and professional observers follow the rise, impact and fall of senior political officeholders at closer quarters than ever before. This Handbook encapsulates the resurgence by asking where we are today. It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines. It meets the urgent need to take stock. It brings together scholars from around the world, encouraging a comparative perspective to provide a comprehensive coverage of all the major disciplines, methods and regions. It showcases both the normative and empirical traditions in political leadership studies and juxtaposes behavioural, institutional and interpretive approaches. It covers formal, office-based as well as informal, emergent political leadership and in both democratic and undemocratic polities. *The House of Commons* Emma Crewe, 2020-05-31 The House of Commons is one of Britain's mysterious institutions, constantly in the news yet always opaque. In this ground-breaking anthropological study of the world's most famous parliament, Emma Crewe reveals the hidden mechanisms of parliamentary democracy. Examining the work of Members of Parliament, including neglected areas such as constituencies and committees, this book provides unique insights into the actual lives and working relationships of parliamentarians. Why do the public loathe politicians but often love their own MP? The author asks. The antagonistic façade of politics irritates the public who tend to be unaware that backstage democracy relies on MPs consulting, compromising and cooperating across political parties far more than is publicly admitted. As the book shows, this is only one of myriad contradictions in the labyrinths of power. Based on unprecedented access and two years of interviews and research in the Palace of Westminster and MPs' constituencies, *The House of Commons: An Anthropology of MPs at Work* challenges the existing scholarship on political institutions and party politics. Moving beyond the narrow confines of rational choice theory and new institutionalism, Emma Crewe presents a radical alternative to the study of British politics by demonstrating that all of its processes hinge on culture, ritual and social relations. A must-read for anyone interested in political anthropology, politics or the Westminster model. *The Little Czech and the Great Czech Nation* Ladislav Holy, 1996-08-28 When Ladislav Holy precipitately left Czechoslovakia for the UK in 1968, he was already one of the leading anthropologists in Central Europe.

In the following decades he made important field studies in Africa Since 1986 he has been engaged in research in the Czech Republic and he brings to this timely study of national identity the skills of a seasoned researcher a cosmopolitan perspective and the insights of an insider Drawing on historical and literary sources as well as ethnography he analyses Czech discourses on national identity He argues that there were specifically Czech aspects to the communist regime and to the velvet revolution and paying particular attention to symbolic representations of what it means to be Czech he explores how notions of Czech identity were involved in the debates surrounding the fall of communism and the emergence of a new social system

Bourgeois Politics in France, 1945-1951 Richard Vinen, 2002-07-11 This 1995 book is a general study of politics and society in the Fourth Republic and is founded on extensive primary research It approaches the period in terms of successful conservatism rather than thwarted reform maintaining that conservatism in France was a more subtle dynamic force than has previously been appreciated Not the preserve of any one single party conservative ideas were often defended by institutions outside the realm of explicit politics altogether such as business associations civil service departments and the law courts It is proposed that conservatives did not simply return to French politics in 1945 untouched by the events of the previous five years The experiences of Vichy the occupation and the purges produced new kinds of political synthesis making conservatives more dynamic and receptive to change than their progressive opponents

Living with the Enemy Sandra Ott, 2017-06-26 In post liberation France the French courts judged the cases of more than one hundred thousand people accused of aiding and abetting the enemy during the Second World War In this fascinating book Sandra Ott uncovers the hidden history of collaboration in the Pyrenean borderlands of the Basques and the B arnais in southwestern France through nine stories of human folly uncertainty ambiguity ambivalence desire vengeance duplicity greed self interest opportunism and betrayal Covering both the occupation and liberation periods she reveals how the book s characters became involved with the occupiers for a variety of reasons ranging from a desire to settle scores and to gain access to power money and material rewards to love friendship fear and desperation These wartime lives and subsequent postwar reckonings provide us with a new lens through which to understand human behavior under the difficult conditions of occupation and the subsequent search for retribution and justice

The Body Impolitic Michael Herzfeld, 2004 The Body Impolitic is a critical study of tradition not merely as an ornament of local and national heritage but also as a millstone around the necks of those who are condemned to produce it Michael Herzfeld takes us inside a rich variety of small town Cretan artisans workshops to show how apprentices are systematically thwarted into learning by stealth and guile This harsh training reinforces a stereotype of artisans as rude and uncultured Moreover the same stereotypes that marginalize artisans locally also operate to marginalize Cretans within the Greek nation and Greece itself within the international community What Herzfeld identifies as the global hierarchy of value thus frames the nation's ancient monuments and traditional handicrafts as evidence of incurable backwardness Herzfeld's sensitive observations offer an intimately grounded way of understanding the effects of globalization and of one of its most visible offshoots the heritage industry on the lives of ordinary people in many parts of the world today
