Handbook of Research on Connecting Research Methods for Information Science Research Ngulube, Patrick, 2019-12-13. In today's globalized world, viable and reliable research is fundamental for the development of information. Innovative methods of research have begun to shed light on notable issues and concerns that affect the advancement of knowledge within information science. Building on previous literature and exploring these new research techniques are necessary to understand the future of information and knowledge. The *Handbook of Research on Connecting Research Methods for Information Science Research* is a collection of innovative research on the methods and application of study methods within library and information science. While highlighting topics including data management, philosophical foundations, and quantitative methodology, this book is ideally designed for librarians, information science professionals, policymakers, advanced level students, researchers, and academicians seeking current research on transformative methods of research within information science.

International and Comparative Librarianship Peter Johan Lor, 2019-06-17. Based on his extensive experience in international librarianship, Peter Johan Lor, South Africa's first National Librarian and a former Secretary General of the IFLA, has written the first comprehensive and systematic overview of international and comparative librarianship. His book provides a conceptual framework and methodological guidelines for the field and covers the full range of international relations among libraries and information services, with particular attention to the international political economy of information, the international diffusion of innovations, and policy in library and information services, LIS development, and international aid. It concludes with a discussion of the practical relevance and future of international and comparative studies in LIS. See a short interview with Peter Lor on his work: <https://www.ifla.org/node/92590>.

A History of Modern Librarianship Pamela Spence Richards, Wayne A. Wiegand, Marija Dalbello, 2015-05-26. A broad comparative history of librarianship, this intriguing work goes beyond the standard focus on institutions and collections to help you explore the part modern librarianship played and continues to play in forming Western cultures. Previous histories of libraries in the Western world, the last of which was published nearly 20 years ago, concentrate on libraries and librarians. This book takes a different approach. It focuses on the practice of librarianship, showing you how that practice has contributed to constructing the heritage of cultures. To do so, this groundbreaking collection of essays presents the history of modern librarianship in the context of recent developments of the library institution, professionalization of librarianship, and innovation through information technology. Organized by region, the book addresses the widely recognized international impact of Anglo

American librarianship and its continuing influence over the past century combining critical analysis with chronological histories of modern librarianship in Europe North America Australia New Zealand and Africa An introductory chapter explains the origins of the project and a concluding chapter examines the effects of digitization on modern librarianship in the 21st century **Public Libraries in Africa** Aissa Issak,2000 **Library Science and Administration: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources,2017-11-30 Effective administration of libraries is a crucial part of delivering library services to the public To develop and implement best practices librarians must be aware and informed of the recent advances in library administration Library Science and Administration Concepts Methodologies Tools and Applications is a comprehensive reference source for the latest scholarly material on trends techniques and management of libraries and examines the benefits and challenges of library administration Highlighting a range of pertinent topics such as digital libraries information sciences and academic libraries this multi volume book is ideally designed for academicians researchers practitioners and librarians seeking current research on library science and administration Historical Aspects of Cataloging and Classification Martin D. Joachim,2003

Library and Information Science Trends and Research Amanda Spink,Diljit Singh,2012-01-16 This book draws out and examines the trends in education and research in the field of library and information science LIS in the vast Asia Oceania region Information is an important part of the human condition and critical to the development of the Asia Oceania region The book is timely therefore as the region continues to grow and develop Beyond Article 19 Julie Biando Edwards,Stephan P. Edwards,2010 Beyond Article 19 Libraries and Social and Cultural Rights addresses the subject of libraries and cultural rights a topic that has received relatively little attention in the past but which librarians and others concerned with human rights are beginning to recognize and talk about Librarians have long been concerned with individual rights and have worked tirelessly indeed making it a basic tenet of the profession to protect and preserve those rights Little has been written about the role that libraries can play in protecting and promoting group rights specifically cultural rights This book examines this shortfall by exploring the relationship between libraries cultural rights and community life and identity Information History - An Introduction Toni Weller,2014-01-23 This is a pioneering introduction to the emergent field of information history It explores how the contemporary values and concerns of our own information society have helped lead to a reconsideration of our history and of what constitutes our historical understanding of information in the twenty first century In *Information History* Toni Weller examines the historiography of information and asks how the key schools of thought have explored the concept in terms of its social technological economic and cultural understandings Based on personal experiences the author also proposes some practical applications of information history in research and university teaching offering some suggestions as to how the field may develop based on its growth during the last decade A ground breaking introduction to the field of Information History Takes an interdisciplinary approach embracing both historical and

information science research and ideology Explores the relevance of Information History to contemporary society **LIS Education in Developing Countries** Ismail Abdullahi, C. R. Karisddappa, A. Y. Asundi, 2014-08-27 The book contains relevant subjects and topics that address the future of LIS education in the developing world of Africa Asia and Latin America Since last two decades the profile of LIS education and their content are on the constant and persistent changes LIS education is facing a fabulous task of managing and preparing future generation of library and information professionals
