Iwan, 1984 This manual describes a computer program that has been developed to calculate natural frequencies and mode shapes of taut cables with attached masses and spring mass combinations The equations of motion are solved by an iterative technique allowing accurate calculation even for extremely high mode numbers The approach has the advantages that it is fast accurate and can easily accommodate a variety of system configurations including bodies attached to the cable This document covers the theory used in the development of the code Line by line descriptions of both the input and output data are given and several examples illustrating the use of the program are included Some of the difficulties that may be encountered when running large complex problems are discussed and possible solutions proposed The structure of the program is described in moderate detail The program is written in a style which makes additions or modifications easy to implement Author *Wellesley College Record, 1875-1912* Wellesley

Catalogue ,1994-06 *Statement of Disbursements of the House* United States. Congress. House, 2009 Covers receipts and expenditures of appropriations and other funds *The Post-Heroic Presidency* Michael A. Genovese, Todd L. Belt, 2016-06-13 This book examines how presidents from Nixon to Obama have faced the challenges of global leadership in a dramatically changing world one with more limited resources and an increasing number of threatening challengers The immediate post World War II era was undeniably a period of American power and influence Even during the Cold War the United States was the leader of the West exerting wide ranging power internationally But beginning with the Vietnam War America began experiencing a series of setbacks and challenges to its power The Post Heroic Presidency Leveraged Leadership in an Age of

Limits examines how U S presidents have attempted to reverse or contend with this new era of limited power in which presidential leadership is hamstrung due to an increasingly globalized and interdependent world one where power is more diffuse and the system of checks and balances bind a president in an age of hyper partisanship The book examines presidents of the 20th and 21st centuries explaining how the first U S president to confront this new age was Richard Nixon who along with Henry Kissinger developed a sophisticated approach to deal with the recalibration of American power It documents how other recent presidents have either tried to make peace with limited power Jimmy Carter reverse the decline Ronald Reagan ignore the implications of limits George W Bush or find ways to lead that were less ambitious more prudent and less unilateral George H W Bush Bill Clinton and Barack Obama In the cases of Clinton and Obama this shift to using soft power persuasion and multilateralism earned them criticism that they are weak thereby undermining their efforts to lead both at home and abroad

What is the real story behind the fight over affirmative action at colleges Veteran journalist Peter Schmidt exposes truths that will outrage readers and forever transform the debate He reveals how colleges use affirmative action to mask how much they cater to the country club crowd and to solicit support from the big corporations they steer minority students toward conservatives have used opposition to affirmative action to advance a broader agenda that includes gutting government programs that help level the playing field selective colleges reward families for shielding their children from contact with other races and classes and help perpetuate societal discrimination by favoring applicants from expensive private schools or public schools in exclusive communities racial tensions like those witnessed at Duke University the University of Michigan and scores of other campuses in recent decades are a direct result of college admissions policies affirmative action preferences for women and minorities may have survived recent court challenges but in much of the nation they are unlikely to survive the forces of democracy and regardless of what happens with affirmative action African Americans are going to be denied equal access to colleges for many decades to come unless American society undergoes revolutionary change This is a startling brave and thoroughly researched book that will ignite a national debate on class and education for years to come
