Prisoners of Conscience Gerard A. Hauser, 2012-08-16 Prisoners of Conscience continues the work begun by Gerard A Hauser in Vernacular Voices The Rhetoric of Publics and Public Spheres winner of the National Communication Association's Hochmuth Nichols Award In his new book Hauser examines the discourse of political prisoners specifically the discourse of prisoners of conscience as a form of rhetoric in which the vernacular is the main source of available appeals and the foundation for political agency Hauser explores how modes of resistance employed by these prisoners constitute what he deems a thick moral vernacular rhetoric of human rights Hauser's work considers in part how these prisoners convert universal commitments to human dignity agency and voice into the moral vernacular of the society and culture to which their rhetoric is addressed Hauser grounds his study through a series of case studies each centered on a different rhetorical mechanism brought to bear in the act of resistance Through a transnational rhetorical analysis of resistance within political prisons Hauser brings to bear his skills as a rhetorical theorist and critic to illuminate the rhetorical power of resistance as tied to core questions in contemporary humanistic scholarship and public concern **The Flaming Center** Carl E.

Brock, Mark E. Huglen, James F. Klumpp, Sharon Howell, 2005-10-01 Political positions in the United States today are ideologically chaotic and there are significant prices to pay for that chaos The nation has not reached a crisis yet in her modern political gridlock but predicting the time when the current generation will face the difficulties of earlier times of crisis such as the Civil War the Great Depression or World War II is a difficult task When that time comes leaders who can communicate effectively to foster understanding and political unity_ and who can respond to a crisis with skilled direction_ will be a vital concern Making Sense of Political Ideology explores the erosion of ties among ideology language and political action Analyzing political language strategies it shows how to dissect language so we can better understand a speaker s ideology The authors define four political positions_ radical liberal conservative reactionary_ and apply their techniques to contemporary issues such as the war on terrorism They emphasize the dangers of staying trapped in political gridlock with no consensus for governmental direction and propose that the ability to identify and bridge positions can help political communicators toward constructing coalitions and building support for political action **Christian Register and Boston Observer** ,1924 Film Composers in America Clifford McCarty, 2000 Film Composers in America is a landmark in the history of film Here renowned film scholar Clifford McCarty has attempted to identify every known composer who wrote background musical scores for films in the United States between 1911 and 1970 With information on roughly 20 000 films the book is an essential tool for serious students of film and a treasure trove for film fans It spans all types of American films from features shorts cartoons and documentaries to nontheatrical works avant garde films and even trailers Meticulously researched over 45 years the book documents the work of more than 1 500 composers from Robert Abramson to Josiah Zuro including the first to score an American film Walter C Simon It includes not only Hollywood professionals but also many composers of concert music as well as popular music and other genres whose cinematic work

has never before been fully catalogued The book also features an index that lets readers quickly find the composer for any American film through 1970 To recover this history much of which was lost or never recorded McCarty corresponded with or interviewed hundreds of composers arrangers orchestrators musical directors and music librarians He also conducted extensive research in the archives of the seven largest film studios Columbia MGM Paramount RKO 20th Century Fox Universal and Warner Bros and wherever possible he based his findings on the most reliable evidence that of the manuscript scores and cue sheets as opposed to less accurate screen credits The result is the definitive guide to the composers and musical scores for the first 60 years of American film

The Unitarian Register ,1924 **Congressional Record** United States. Congress,1999 *Genius Denied* Jan Davidson,Bob Davidson,Laura Vanderkam,2007-11-01 With all the talk of failing schools these days we forget that schools can fail their brightest students too We pledge to leave no child behind but in American schools today thousands of gifted and talented students fall short of their potential In *Genius Denied* Jan and Bob Davidson describe the quiet crisis in education gifted students spending their days in classrooms learning little beyond how to cope with boredom as they relearn material they ve already mastered years before This lack of challenge leads to frustration underachievement and even failure Some gifted students become severely depressed At a time when our country needs a deep intellectual talent pool the squandering of these bright young minds is a national tragedy There are hundreds of thousands of highly gifted children in the U S and millions more whose intelligence is above average yet few receive the education they deserve Many school districts have no gifted programs or offer only token enrichment classes Education of the gifted is in this sorry state say the Davidsons because of indifference lack of funding and the pernicious notion that education should have a leveling effect a one size fits all concept that deliberately ignores the needs of the gifted But all children are entitled to an appropriate education insist the authors those left behind as well as those who want to surge ahead The Davidsons show parents and educators how to reach and challenge gifted students They offer practical advice based on their experience as founders of a nonprofit organization that assists gifted children They show parents how to become their children s advocates how to win support for gifted students within the local schools and when and how to go outside the school system They discuss everything from acceleration skipping a grade to homeschooling and finding mentors for children They tell stories of real parents and students who overcame poor schooling environments to discover the joy of learning *Genius Denied* is an inspiring book that provides a beacon of hope for children at risk of losing their valuable gift of intellectual potential
