THE PROMISED LAND OF ISRAEL Solomon Pournia, 2023-06-12 What would you say if the Holy Quran turned out to contain components consistent with Zionism What if the Quran in its very philological content blesses and encourages the Jews to live in the land of Israel What if billions of Muslims were to be made aware of the clearly pro Zionist verses in the Quran and were to alter their worldview to welcome the Jews in their ancestral homeland One of them is Sura Al Ma'ida 5:21 which has a striking significance as a powerful command from Allah as interpreted by the renowned Muslim exegetes including Al Tabari On the other hand the examining of the status of al Aqsa Mosque being the third holiest site in the Muslim world as well as the status of the city of Jerusalem from Muslims and Jews viewpoint would reveal fully new perspectives Ever since 1937 there have been multiple attempts to resolve the Arab Jewish conflict to no avail The hidden religious aspect of the conflict has been generally neglected by the parties Accordingly the Muslim world is often subjected to provocation by zealous clerics and politicians who implement anti Jewish propaganda including the misinterpretation of the Quranic verses This book will tackle on the very sensitive topics alluded above and should serve as an eye opener for Muslim politicians traditional clerics Muslims in general and the interested Westerners The well documented accuracy and authenticity of the quoted facts render them beyond malicious interpretation *The Oxford Handbook of Qur'anic Studies* Mustafa Shah, M. A. Abdel Haleem, 2020 The Quran is the foundational sacred text of the Islamic faith Traditionally revered as the literal word of God its pronouncements and discussions form the bedrock of Islamic beliefs and teachings Notwithstanding its religious pre eminence and the fact that it is the sacred text for over one billion of the world's Muslims the Quran is also considered to be the matchless masterpiece of the Arabic language Its historical impact as a text can be discerned in all aspects of the heritage of the Arabic literary tradition Over recent decades academic engagement with the Quran has produced an impressive array of scholarship ranging from detailed studies of the text's unique language style and structure to meticulous surveys of its contents concepts and historical contexts The Oxford Handbook of Qur'anic Studies is an essential reference and starting point for those with an academic interest in the Quran It offers not only detailed reviews of influential subjects in the field but also a critical overview of developments in the research discourse It explores the tradition of Qur'anic exegesis and hermeneutics making it a comprehensive academic resource for the study of the Quran No single volume devoted to such a broad academic survey of the state of the field currently exists
