R D Laing His Work And Its Relevance To Sociology:

R.D. Laing: His Work and its Relevance for Sociology (RLE Social Theory) Martin Howarth-Williams, 2014-08-07
This study by a sociologist provides the most rigorous and comprehensive review to appear so far of R D Laing's work and theoretical development. Martin Howarth Williams considers that Laing's insights into such controversial issues as the divided self and the politics of the family are of an importance that transcends their basis in clinical psychiatry and that they have a special significance for sociology. Using the Progressive Regressive Method of Jean Paul Sartre, the author illuminates the internal coherence of Laing's aims through the various stages of his work and shows how his ideas are shaped by consistent philosophic presuppositions and influences underlying his work. To give as complete an account as possible of Laing's interests and to relate them to the broad stream of his thought, the author explores Laing's involvement in other non-psychiatric realms, especially politics, religion, and eastern mysticism. Material has been secured from a wide variety of recent sources which include interviews, films, TV appearances, and the author's own personal recollections of informal talks given by Laing. In the final section of the book, Martin Howarth Williams isolates the concept of Intelligibility, which he demonstrates to be the unifying theme central to Laing's theory, and shows how this can be used as the basis for a critique of recent developments in sociological theory as well as a starting point towards a genuinely dialectical sociology.
