from Questions Jews Ask 1956 In assessing what their Jewish identities mean to them Jews today sometimes describe themselves as links in a chain of tradition that stretches back to biblical times In this collection of biographies of Jewish thinkers from ancient times to the present the links in that chain come to life through the dramatic stories of 41 shapers of Jewish tradition From Hillel whose teaching more than twenty centuries ago set Judaism on its post biblical course to Yitzhak Rabin the Noble Peace Prize winning Prime Minister of Israel who helped to broker a peace settlement between the Israelis and the Palestinians these men and women all left an indelible mark on Jewish practice scholarship or nationalism In individual biographical essays Naomi Pasachoff explores the contributions of philosophers poets and philanthropists of mystics statesmen and scholars of religious organizers and Zionist leaders In so doing she uncovers surprising facts about well known figures For example Theodor Herzl is widely honored as the father of the modern state of Israel but did you know that he once dreamed of leading all the Jews of Vienna to St Stephan Cathedral to undergo mass baptism Readers who recognize Rashi as the most famous of all biblical commentators may be startled to learn that his concise style was a function of his tight budget The book includes suggestions for further reading an appendix a glossary and an index Illustrations and photographs accompany the text and a biographical fact box for each profile provides for easy reference All these features make Links in the Chain an ideal introduction to Jewish role models for younger readers and a vital reference for all interested in Jewish history Moreover the book is a reminder that Jewish tradition is still evolving and that each reader has the potential to contribute to it 41 extended essays profile the lives and contributions of Jewish heroes including Johanan ben Zakkai the spiritual and intellectual leader who reshaped Jewish life after the destruction of the Temple in 70 C E Dona Gracia Nasi the outstanding 16th century leader who led the equivalent of an underground railroad to lead fugitive Marranos to safety Rebecca Gratz said to have been the model for the character Rebecca in Walter Scott s Ivanhoe who spearheaded the development of Jewish Sunday schools in the United States Leopold Zunz whose transformation of Jewish scholarship in the 19th century ultimately led to the existence of Judaica departments and programs in major universities Lily Montagu whose unsatisfying Orthodox childhood as a child of privilege in Victorian England transformed her into a 20th century leader of British and world liberal Judaism Isaac Mayer Wise the early leader of Reform Judaism in the United States who conceived of and helped bring into existence many of the institutions of contemporary American Judaism Eliezer Ben Yehudah the father of modern Hebrew who nearly singlehandedly transformed Hebrew from an ancient religious language into a spoken modern one

*Victimhood Discourse in Contemporary Israel* Ilan Peleg, 2019-04-24 This book deals comprehensively with different aspects of collective victimhood in contemporary Israel but also with the wider implications of this important concept for many other societies including the Palestinian one The eight highly diverse scholarly chapters included in this volume offer analysis of the politics of victimhood viewing it as increasingly dominant within contemporary

Israel assess victimhood as a focal point of the Jewish historical legacy trace the evolution and changes of Zionist thought as it relates to a sense of national victimhood study the possibility of the political transformation of victimhood through changing perceptions and policies by top Israeli leaders focus on important events that have contributed to the evolution of the victimhood discourse in Israel and beyond e g the 1967 Six Day and 1973 Yom Kippur wars in the Middle East examine the politics and ideology of victimhood within the Palestinian national movement and offer new ways of progressing beyond national victimhood and toward a better future for people in the Middle East and beyond The insights of the eight authors and their conceptualization of Israeli victimhood are of immediate relevance for numerous other national groups as well as for a variety of disciplines in the humanities and the social sciences This volume has been inspired by the universality of victimhood among humans reflected in King Lear s words I am a man more sinned against than sinning as well as by the words of the late Israeli prime minister Yitzhak Rabin telling the Knesset in Jerusalem No longer is it true that the whole world is against us While the book sums up the state of the field in regard to collective victimhood it invites the readers to engage in contemplating the far reaching implications of this important concept for our lives **Arafat** Saïd K.

Aburish,1999-09-27 A biography of the Palestinian leader **Why Hawks Become Doves** Guy Ziv,2014-11-07 Investigates how leaders personalities shape important foreign policy shifts Why do hawkish leaders change course to pursue dovish policies In *Why Hawks Become Doves* Guy Ziv argues that conventional international relations theory is inadequate for explaining these momentous foreign policy shifts because it underestimates the importance of leaders and their personalities Applying insights from cognitive psychology Ziv argues that decision makers cognitive structure specifically their levels of cognitive openness and complexity is a critical causal variable in determining their propensity to revise their beliefs and pursue new policies To illustrate his point he examines Israeli statesman Shimon Peres Beginning his political career as a tough minded security hawk Peres emerged as one of the Middle East s foremost champions of Israeli Palestinian peacemaking Drawing on a vast range of sources including interviews with Peres and dozens of other political elites archival research biographies and memoirs Ziv finds that Peres s highly open and complex cognitive structure facilitated a quicker and more profound dovish shift on the Israeli Palestinian conflict than his less cognitively open and complex rivals Guy Ziv has written a masterful and intriguing study that breaks new ground in demonstrating the importance of the individual leader in framing foreign policy The comparisons of Peres Rabin Begin and Shamir are extraordinary and effectively demonstrate the advantages of a leader who has a talent for adapting to altered conditions and listening to differing perspectives It s both an absorbing page turner and a stimulating eye opener Steven L Spiegel coauthor of *The Peace Puzzle America s Quest for Arab Israeli Peace 1989 2011* Ziv has written a fascinating account of how some leaders Peres Rabin Sharon are able to shift their goals and strategies to a less conflictual mode and how others Shamir Begin Netanyahu are simply incapable of doing so Ziv makes a strong case for the proposition that the cognitive structure of leaders matters A

turn towards peace requires national leaders who are personally capable of making that turn Ziv's tome is a substantial contribution to the literatures of foreign policy analysis and political psychology and is an important read for all who seek a more peaceful world Valerie M Hudson author of Foreign Policy Analysis Classic and Contemporary Theory
