[The Retreat of Scientific Racism](#) Elazar Barkan, 1992 This fascinating study in the sociology of knowledge documents the refutation of scientific foundations for racism in Britain and the United States between the two World Wars when racial differences were no longer attributed to cultural factors Professor Barkan considers the social significance of this transformation particularly its effect on race relations in the modern world Discussing the work of the leading biologists and anthropologists who wrote between the wars he argues that the impetus for the shift in ideologies came from the inclusion of outsiders women Jews and leftists who infused greater egalitarianism into scientific discourse But even though the emerging view of race was constrained by a scientific language he shows that modern theorists were as much influenced by social and political events as were their predecessors

Racial Nationalisms Sivamohan Valluvan, Virinder S. Kalra, 2020-12-17 This book addresses the centrality of race and racism in consolidating the nationalisms currently prominent in Brexit Britain Particular attention is given to the issues of refugees borders and bordering and the wider forms of nativist and anti Muslim sentiments that anchor today s increasingly populist forms of nationalist politics It is argued that the forms of scapegoating and alarmism integral to the revival of nationalism in British politics are fundamentally tied to racialised processes Equally however it is

argued that such a political climate is not simply discursive but also yields acute forms of governance wherein an increasingly violent attention is given by the state to the border. The chapters in the book do however also attempt to think through the possibilities of a constructive response to this moment. Emphasis is given here to the everyday cultural textures that might help shape a popular opposition to racial nationalism. Similarly, the book attempts to unpack the appeal of today's distinctive populism in ways that might be more responsive to anti-racist and anti-nationalist sentiments. Racial Nationalisms will be of interest to academics and researchers studying postcolonialism, nationalism, ethnic and racial studies, and to advanced students of sociology, political science, and public policy. This book was originally published as a special issue of the journal *Ethnic and Racial Studies*.
