Totems and Taboos

,2008-01-01 Totems and Taboos Risk and Relevance in Research on Teachers and Teaching is a compilation of selected papers from the 2007 Biennial conference of the International Study Association on Teachers and Teaching ISATT held at Brock University This volume contains keynote addresses and papers based on thematic presentations delivered at the conference namely critically investigative items which have been sacred to systems institutions and educational practitioners in order to inform the theory and practice of teaching and research While consideration of the native or aboriginal historical tradition of Canada was instrumental in developing a theme dealing with the nature of totems it was recognized that such a heritage informs research and practice regardless of national borders The papers included in this book reflect global perspectives on the conference theme and include thinkers from Australia Brazil Canada Denmark Finland Germany Great Britain Israel Slovenia Turkey and the United States In addition the writings of seasoned academics and well published authors the totems of the field so to speak are situated alongside papers from academic newcomers who have broken the taboo of not speaking in the presence of more experienced company The central metaphor of this book is the high wire or tightrope journey across Niagara Falls upon which we oscillate between the falsely dichotomous notions of research and teaching The tension in leaning towards one side or the other is presented as a negotiated process of balancing research and teaching which maintains our progress forward in the field Overlooking this edgy relationship will cause one to lean too much in one direction and fall into the chasm underneath Thus the sections of this book are designed to examine educational progress across this high wire while maintaining awareness of the risks taken on this journey Each paper is relevant to particular phases in this high wire walk and portrays the journeys of the authors within in order to inform the path of others

Explaining Auschwitz and Hiroshima Richard J. B. Bosworth,2002-01-31 Explaining Auschwitz and Hiroshima explores the way in which the main combatant societies of the Second World War have historicised that experience Since 1945 debates in Germany about the past that would not fade away have been reasonably well known But in this book Richard Bosworth maintains that Germany is not unique He argues that in Britain France Italy the USSR and Japan as well as in Germany the traumatic history of the long Second World War has remained crucial to the culture and the politics of post war

societies Each has felt a compelling need to interpret this past event and thus to explain Auschwitz and Hiroshima Bosworth explores the bitter controversies that have developed around a particular interpretation of the war such as disputes over A J P Taylor s Origins of the Second World War Marcel Ophul s film The Sorrow and the Pity Renzo De Felice s biography of Mussolini in the 1970s or in post Glasnost debates about the historiographies of the Commonwealth of Independent States Richard Bosworth s book is a wide ranging and thoughtful excursion into comparative history

Mixed-Race Youth and Schooling Sandra Winn Tutwiler,2016-01-29 This timely in depth examination of the educational experiences and needs of mixed race children the fifth minority focuses on the four contexts that primarily influence learning and development the family school community and society at large The book provides foundational historical social political and psychological information about mixed race children and looks closely at their experiences in schools their identity formation and how schools can be made more supportive of their development and learning needs Moving away from an essentialist discussion of mixed race children a wide variety of research is included Life and schooling experiences of mixed raced individuals are profiled throughout the text Rather than pigeonholing children into a neat box of descriptions or providing readymade prescriptions for educators Mixed Race Youth and Schooling offers information and encourages teachers to critically reflect on how it is relevant to and helpful in their teaching learning contexts
