Race And Racism In Britain Second Edition

J. Holmwood, J. Scott

Race And Racism In Britain Second Edition:

The Creolisation of London Kinship Elaine Bauer, 2010 In the last 50 years the United Kingdom has witnessed a growing proportion of mixed African Caribbean and white British families With rich new primary evidence of mixed race in the capital city The Creolisation of London Kinship thoughtfully explores this population Making an indelible contribution to both kinship research and wider social debates the book emphasises a long term evolution of family relationships across generations Individuals are followed through changing social and historical contexts seeking to understand in how far many of these transformations may be interpreted as creolisation Examined too are strategies and innovations in relationship construction the social constraints put upon them the special significance of women and children in kinship work and the importance of non biological as well as biological notions of family relatedness P 4 of cover

The Racialisation of Disorder in Twentieth Century Britain Michael Rowe, 2017-07-05 This book develops the concept of racialisation It argues that a full understanding of racialized discourse must pay attention to both the particular local circumstances in which they appear and well established themes which have unfolded over time An important aspect of the study is the examination of other discourses with which racialized ideas have co joined reflecting the way in which notions of race are socially constructed The final part of the thesis returns to debates of the 1980 s and argues that the racialisation of unrest in that decade was closely intertwined with conservative perspectives which sought to deny socio economic causes in favour of explanations based upon the supposed cultural or personal proclivities of those involved

Survival of the Knitted Vilna Bashi, 2007 Using immigrants own words Bashi shows how immigrants organize social networks that offer mutual financial and emotional support and help an entire ethnic group navigate systems of socioeconomic stratification

Religion, Media, and Social Change Kennet Granholm, Marcus Moberg, Sofia Sjö, 2014-09-19 In an era of heightened globalization macro level transformations in the general socioeconomic and cultural makeup of modern societies have been studied in great depth Yet little attention has been paid to the growing influence of media and mass mediated popular culture on contemporary religious sensibilities life and practice *Religion Media and Social Change* explores the correlation between the study of religion media and popular culture and broader sociological theorizing on religious change Contributions devote serious attention to broadly defined media including technologies institutions and social and cultural environments as well as mass mediated popular culture such as film music television and computer games This interdisciplinary collection addresses important theoretical and methodological questions by connecting the study of media and popular culture to current perspectives approaches and discussions in the broader sociological study of religion

The Ironies of Citizenship Thomas Janoski, 2010-08-23 Explanations of naturalization and *jus soli* citizenship have relied on cultural convergence racialization or capture theories and they tend to be strongly affected by the literature on immigration This study of naturalization breaks with the usual immigration theories and proposes an approach over centuries and decades toward explaining naturalization rates First it provides consistent evidence to support the long term existence of colonizer settler non colonizer and Nordic nationality regime types that frame naturalization over centuries Second it shows how left and green parties along with an index of nationality laws explain the lion's share of variation in naturalization rates The text makes these theoretical claims believable by using the most extensive data set to date on naturalization rates that include *jus soli* births It analyzes this data with a combination of carefully designed case studies comparing two to four countries within and between regime types
