The Lesbian and Gay Movement and the State Dr David Paternotte,Professor Carol Johnson,Professor Manon Tremblay,2013-01-28 By analyzing the relationship between lesbian and gay movements and the state this ground breaking book addresses two interconnected issues to what extent is the lesbian and gay movement influenced by the state and to a lesser extent whether the lesbian and gay movement has somehow influenced the state for instance by altering forms of sexual regulation Given the diversity in national trajectories this book covers fifteen countries This enables the volume to shed light on different kinds of relationships between these groups and the state as well as on the way they have evolved in recent decades *The Lesbian and Gay Movement and the State Comparative Insights into a Transformed Relationship* fills an important gap in the literature on lesbian and gay activism However this book also provides important and innovative insights into broader issues in international political science public policy and comparative politics as well as issues in social movement studies These include the role of the state in constructing citizen identities the heteronormative way in which many traditional citizen entitlements and benefits were constructed state civil society relations judicial activism the impact of federalism and the increasing globalization of sexual identities **Encyclopedia of Race and Ethnic Studies** Ellis

Cashmore,2004-03 The book comprises essays each highlighting a particular word or term germane to the study of race and ethnic studies *Overcoming Apartheid* James L. Gibson,2004-04-15 Perhaps no country in history has so directly and thoroughly confronted its past in an effort to shape its future as has South Africa Working from the belief that understanding the past will help build a more peaceful and democratic future South Africa has made a concerted institutionalized effort to come to grips with its history of apartheid through its Truth and Reconciliation Commission In *Overcoming Apartheid* James L Gibson provides the first systematic assessment of whether South Africa s truth and reconciliation process has been successful Has the process allowed South Africa to let go of its painful past and move on Or has it exacerbated racial tensions by revisiting painful human rights violations and granting amnesty to their perpetrators *Overcoming Apartheid* reports on the

largest and most comprehensive study of post apartheid attitudes in South Africa to date involving a representative sample of all major racial ethnic and linguistic groups Grounding his analysis of truth in theories of collective memory Gibson discovers that the process has been most successful in creating a common understanding of the nature of apartheid His analysis then demonstrates how this common understanding is helping to foster reconciliation as defined by the acceptance of basic principles of human rights and political tolerance rejection of racial prejudice and acceptance of the institutions of a new political order Gibson identifies key elements in the process such as acknowledging shared responsibility for atrocities of the past that are essential if reconciliation is to move forward He concludes that without the truth and reconciliation process the prospects for a reconciled democratic South Africa would diminish considerably Gibson also speculates about whether the South African experience provides any lessons for other countries around the globe trying to overcome their repressive pasts A groundbreaking work of social science research Overcoming Apartheid is also a primer for utilizing innovative conceptual and methodological tools in analyzing truth processes throughout the world It is sure to be a valuable resource for political scientists social scientists group relations theorists and students of transitional justice and human rights *Twilight Policing* Tessa G. Diphorn, 2015-10-20 South Africa boasts the largest private security sector in the entire world reflecting deep anxieties about violence security and governance *Twilight Policing* is an ethnographic study of the daily policing practices of armed response officers a specific type of private security officer and their interactions with citizens and the state police in Durban South Africa This book shows how their policing practices simultaneously undermine and support the state resulting in actions that are neither public nor private but something in between something twilight Their performances of security are also punitive disciplinary and exclusionary and they work to reinforce post apartheid racial and economic inequalities Ultimately *Twilight Policing* helps to illuminate how citizens survive volatile conditions and to whom they assign the authority to guide them in the process *The Crisis from Within: Historians, Theory, and the Humanities* Nigel Raab, 2015-05-19 In *The Crisis from Within* Nigel Raab explores weaknesses that emerge when using interdisciplinary theories in historical analysis With chapters that focus on knowledge language memory imagining and inventing and civil society the analysis reveals how theoretical applications can be the source of interpretive confusion By drawing from a global range of historical works Nigel Raab demonstrates how this problem concerns all historical sub fields From science in the seventeenth century to communism in the twentieth century theories often overdetermine analysis in a way the historian never intended After the enthusiastic reception of theory for over a generation *The Crisis from Within* argues that the time has come to pause and think seriously about how we wish to proceed with theory **Identity, Reconciliation and Transitional Justice** Nevin T. Aiken, 2013-04-15 Building upon an interdisciplinary synthesis of recent literature from the fields of transitional justice and conflict transformation this book introduces a groundbreaking theoretical framework that highlights the critical importance of identity in the relationship between transitional justice and reconciliation in deeply divided societies Using this framework

Aiken argues that transitional justice interventions will be successful in promoting reconciliation and sustainable peace to the extent that they can help to catalyze those crucial processes of social learning needed to transform the antagonistic relationships and identifications that divide post conflict societies even after the signing of formal peace agreements Combining original field research and an extensive series of expert interviews Aiken applies this social learning model in a comprehensive examination of both the South African Truth and Reconciliation Commission and the uniquely decentralized approach to transitional justice that has emerged in Northern Ireland By offering new insight into the experiences of these countries Aiken provides compelling firsthand evidence to suggest that transitional justice interventions can best contribute to post conflict reconciliation if they not only provide truth and justice for past human rights abuses but also help to promote contact dialogue and the amelioration of structural and material inequalities between former antagonists Identity Reconciliation and Transitional Justice makes a timely contribution to debates about how to best understand and address past human rights violations in post conflict societies and it offers a valuable resource to students scholars practitioners and policymakers dealing with these difficult issues

Segregation, Inequality, and Urban Development Sara Dehkordi, 2020-07-07 In present day South Africa urban development agendas have inscribed doctrines of desirable and undesirable life in city spaces and the public that uses the space This book studies the ways in which segregated city spaces displacement of people from their homes and criminalization practices are structured and executed Sara Dehkordi shows that these doctrines are being legitimized and legalized as part of a discursive practice and that the criminalization of lower class members are part of that practice not as random policing techniques of individual security forces but as a technology of power that attends to the body zooms in on it screens it and interrogates it

The Politics of South African Cricket Jon Gemmell, 2004-03-31 The Politics of South African Cricket analyses the relationship between politics and sport in particular cricket in South Africa South African Cricket embraces an ethos that is symbolic of a wider held belief system and as such has distinctive political connotations in the region Sport in South Africa is certainly influenced by forces beyond the playing field but politics too can be influenced by the social and economic force of sport Focusing on the sports boycott as a political strategy Jon Gemmell analyses the relationship between sport and politics through a historical analysis of South African cricket He employs case studies to explore the relationship between politics and South African cricket and argues convincingly that cricket assisted the reform process by undermining the legitimacy of the apartheid regime

Patterson, 2018-02-01 This book assesses how theorists explained processes of change set in motion by the rise of capitalism It situates them in the milieu in which they wrote They were never neutral observers standing outside the conditions they were trying to explain Their arguments were responses to those circumstances and to the views of others commentators living and dead Some repeated earlier views others built on those perspectives a few changed the way we think While surveying earlier writers the author s primary concerns are theorists who sought to explain
