Race, Class & the State Ambalavaner Sivanandan, 1976

The Making of the Black Working Class in Britain Ron Ramdin, 2017-08-22 A classic history of the role of Black working class struggles throughout the twentieth century In this pioneering history Ron Ramdin traces the roots of Britain's disadvantaged black working class From the development of a small black presence in the sixteenth century through the colonial labour institutions of slavery indentureship and trade unionism Ramdin expertly guides us through the stages of creation for a UK minority whose origins are often overlooked He examines the emergence of a black radical ideology underpinning twentieth century struggles against unemployment racial attacks and workplace inequality and delves into the murky realms of employer and trade union racism First published in 1987 this revised edition includes a new introduction reflecting on events over the past four decades

A Land of Dreams Simon Taylor, 2022-11-16 *A Land of Dreams* first published in 1993 explores two events in recent English history the settlement of East European Jews in the East End of London and the growth of an African Caribbean community in Birmingham It is an ethnographic study of two first generation migrant communities built upon the experiences of the migrants themselves It focuses on the stories of their migration and their early days in England and in particular upon the stories of their working lives and their everyday struggles in their new land Placing two studies side by side exposes the quite different social and economic conditions which confronted the two groups of migrants upon arrival in England

Decolonising the University Gurinder K. Bhambra, Dalia Gebrial, Kerem Nişancıoğlu, 2018-08-20 In 2015 students at the University of Cape Town demanded the removal of a statue of Cecil Rhodes the imperialist racist business magnate from their campus The battle cry RhodesMustFall sparked an international movement calling for the decolonisation of the world's universities Today as this movement grows how will it radically transform the terms upon which universities exist In this book students activists and scholars discuss the possibilities and the pitfalls of doing decolonial work in the home of the coloniser in the heart of the establishment Subverting curricula enforcing diversity and destroying old boundaries this is a radical call for a new era of

education Offering resources for students and academics to challenge and resist coloniality inside and outside the classroom Decolonising the University provides the tools for radical pedagogical disciplinary and institutional change **Racial Justice and the Limits of Law** Bharat Malkani,2024-04-23 Racial justice is never far from the headlines The Windrush scandal the toppling of the statue of Edward Colston and racism within the police have all recently captured the public s attention and generated legal action But although the ideals of the legal system such as fairness and equality seem allied to the struggle for racial justice all too often campaigners have been let down by the system This book examines law s troubled relationship with racial justice It explains that law s historical role in creating and perpetuating racial injustices continues to stifle its ability to advance the cause of racial justice today Both a lawyer s guide to antiracism and an antiracist s guide to legal action it unites these perspectives to help both groups understand how to use the law to tackle racial injustices

Cartographies of Diaspora Avtar Brah,2005-08-18 By addressing questions of culture identity and politics Cartographies of Diaspora throws new light on discussions about difference and diversity informed by feminism and post structuralism It examines these themes by exploring the intersections of race gender class sexuality ethnicity generation and nationalism in different discourses practices and political contexts The first three chapters map the emergence of Asian as a racialized category in post war British popular and political discourse and state practices It documents Asian cultural and political responses paying particular attention to the role of gender and generation The remaining six chapters analyse the debate on difference diversity and diaspora across different sites but mainly within feminism anti racism and post structuralism

Humour in Society George E Paton,Chris Powell,1988-04-18 **Minorities in the Open Society** Geoff Dench,2022-11-16 Minorities in the Open Society 1986 challenges optimistic assumptions regarding race relations in western nations namely that social justice will prevail without much effort It examines the interests behind public affirmations of commitment to integration and presents a range of contemporary and historical material which illustrate the double binds created for minorities by the dominant communities who offer equality with one hand while obstructing it with the other Individual members of minorities may be given the opportunity to achieve social prominence but only to carry out special jobs on behalf of the majority *Minorities in the Open Society (Ppr)* , Most accounts of ethnic and race relations in Western states are optimistic at heart They assume that equal participation by minorities will be achieved because it is a public good from which citizens will benefit Social justice will prevail In this topical and disturbing book Geoff Dench challenges these idealistic commentaries showing that in many instances they do not produce convincing analyses of the position of minorities He suggests that analysts neglect to explore the web of real interests behind public affirmations of commitment to integration In his new introduction the author suggests how the postwar meritocracy in Britain may have used a progressive alliance with minorities in order to help establish itself as a new ruling class Part 1 of this volume looks briefly at the dual character of modern states Part 2 explores one of the key services that minority clients perform on behalf of their national

masters namely the exercise of integrative leadership during periods of political crisis and change Part 3 develops the theme that although the ambiguities of minority status can create special types of opportunity for ambitious individuals in general they result in dilemmas which members of dominant communities can exploit in order to underline their supremacy Part 4 takes up some questions raised earlier about the nature of the forces in modern society that impinge on minorities and addresses the implications for a host state of containing oppressed groups In putting forward his controversial argument Dench presents a range of contemporary and historical material which illustrates the double binds created for minorities by dominant communities Such communities offer equality with one hand while obstructing it with the other Individual members of minorities may be given the opportunity to achieve social prominence but only to carry out special jobs on behalf of the majority Various cases are examined how Disraeli a Jew nationalized British Conservatism how Stalin a Georgian reconstructed the ailing Russian Empire and how Trudeau the Quebecois preserved Canadian unity and anglophone supremacy within it This fascinating exploration of the contradictions inherent in the status of new minorities will be interesting for the general reader as well as managers of public policy scholars and students in the field Geoff Dench is senior research fellow at the Institute of Community Studies and at University College London He is the editor of

Transforming Men and Rewriting the Sexual Contact both published by Transaction **Understanding Equal Opportunities and Diversity** Barbara Bagilhole, 2009-04 This book challenges the official discourse that shapes the debates on Equal Opportunities and Diversity EO D at national regional and European level and will be a key text for students and researchers of EO D in many fields *Child Welfare Systems and Migrant Children* Marit Skivenes, 2015 The book examines where why and to what extent immigrant children are represented in the child welfare system in 11 high income countries By comparing policies and practices in child welfare systems and welfare states especially in terms of how they conceptualize and deal with immigrant children and their families we address an immensely important and pressing issue in modern societies Feminism for Girls (RLE Feminist Theory) Angela McRobbie, Trisha McCabe, 2012-11-12 *Feminism for Girls* presents feminist perspectives on aspects of adolescence which have been chosen for their special relevance to the lives and experiences of girls and young women today Illustrated throughout chapters cover themes and topics which include romance and sexuality girls magazines careers and the reality of being a black girl in society today *Housewives* look back at their youth and a sixteen year old girl writes vividly about what it s like trying to break out of the mould that parents and others so often expect for girls This book is written for girls and young women themselves and for people who are like the contributors currently teaching or working with girls **Out of Order? (Routledge Revivals)** E. Cashmore, E. McLaughlin, 2013-10-08 First published in 1991 this book evaluates and compares the problematic relationships that have sometimes existed between police and Afro Caribbean people in Britain and in the United States of America Contributors from both sides of the Atlantic assess conflicting claims from police and black communities as to whether some police are racist or too brutal in their

operations Although this book was written in the early 90s many of the issues discussed remain interesting and relevant to our society today Language, Identity and Symbolic Culture David Evans,2018-05-31 Language is integral to the construction of personal socio cultural and socio political identities Language Identity and Symbolic Culture closely investigates the relationship between language and identities offering a comprehensive yet progressive view of how linguistics relates to development and education both in theoretical and real world applications Progressing from a theoretical core examining the connection between language and individual identity this book moves on to look at the wider socio political discourse involving the marginalization and resistance of communities in the world Beginning with the philosophical paradigms of language Evans questions whether language shapes personal identities in its daily use or whether language is simply a tool for describing rather than creating the world Extrapolating on this the contributors utilise case studies from across the globe to see how these linguistic perspectives are played out in the real world considering the role of language in issues surrounding power colonization marginalization and education Language Identity and Symbolic Culture offers a view of language identity conflicts around the world and an understanding of the opportunities of political and cultural emancipation created through language and open discourse *Lives in Translation* Kathleen D.
