Race Ethnicity And Adoption:

'Race', Ethnicity and Adoption Derek Kirton, 2000 This important study provides a unique and comprehensive analysis of research into the development of adoption policy and practice regarding black and minority ethnic children in the care of local authorities I found this book intellectually stimulating and often provocative it does not make comfortable reading but in the final analysis the case for retaining a commitment to placing children in families which reflect their ethnicity is strongly made Felicity Collier the Director of British Agencies for Adoption and Fostering What are the needs of adopted minority ethnic children To what extent can white families meet these needs Should the emphasis on ethnic matching of children and families in adoption be relaxed This book reviews the long running and often fierce controversy surrounding the adoption of black and minority ethnic children either transracially into white families or into matched same race placements Through analysis of research and the writings of protagonists the core concepts namely the nature and salience of racial ethnic identity cultural heritage and dealing with racism are explored and located within broader debates on race and the family The history of the controversy is set out in terms of the competing paradigms offered by liberalism and black radicalism and more recent post structuralist influences The author argues the need to see adoption and especially that of black children as inherently political and contested While broadly supporting the case for same race adoption it is suggested that this must rest on acknowledgement of and engagement with social and psychological complexities rather than their suppression beneath doctrinaire formulae **Race Ethnicity and Adoption** sets the issues in the wider context of a multiracial society and its politics and will be of particular interest to social workers and child care professionals but will also appeal more widely to students of sociology and social and public policy Choosing Ethnicity, Negotiating Race Mia Tuan, Jiannbin Lee

Shiao, 2011-01-13 Transnational adoption was once a rarity in the United States but Americans have been choosing to adopt children from abroad with increasing frequency since the mid twentieth century Korean adoptees make up the largest share of international adoptions 25 percent of all children adopted from outside the United States but they remain understudied among Asian American groups What kind of identities do adoptees develop as members of American families and in a cultural climate that often views them as foreigners Choosing Ethnicity Negotiating Race is the only study of this unique population to collect in depth interviews with a multigenerational random sample of adult Korean adoptees The book examines how Korean adoptees form their social identities and compares them to native born Asian Americans who are not adopted How do American stereotypes influence the ways Korean adoptees identify themselves Does the need to explore a Korean cultural identity or the absence of this need shift according to life stage or circumstance In Choosing Ethnicity Negotiating Race sixty one adult Korean adoptees representing different genders social classes and communities reflect on early childhood young adulthood their current lives and how they experience others perceptions of them The authors find that most adoptees do not identify themselves strongly in ethnic terms although they will at times identify as Korean or Asian American in order to

deflect questions from outsiders about their cultural backgrounds Indeed Korean adoptees are far less likely than their non adopted Asian American peers to explore their ethnic backgrounds by joining ethnic organizations or social networks Adoptees who do not explore their ethnic identity early in life are less likely ever to do so citing such causes as general aversion lack of opportunity or the personal insignificance of race ethnicity and adoption in their lives Nonetheless the choice of many adoptees not to identify as Korean or Asian American does not diminish the salience of racial stereotypes in their lives Korean adoptees must continually navigate society's assumptions about Asian Americans regardless of whether they chose to identify ethnically

Choosing Ethnicity Negotiating Race is a crucial examination of this little studied American population and will make informative reading for adoptive families adoption agencies and policymakers The authors demonstrate that while race is a social construct its influence on daily life is real This book provides an insightful analysis of how potent this influence can be for transnational adoptees and all Americans

practice which can affect adoption triad members Race, Ethnicity, and the Participation Gap Juliet Pietsch, 2018-11-23
Race Ethnicity and the Participation Gap begins with the argument that political institutions in settler and culturally diverse societies such as Australia the United States and Canada should mirror their culturally diverse populations Compared to the United States and Canada however Australia has very low rates of immigrant and ethnic minority political representation in the Commonwealth Parliament particularly in the House of Representatives The overall existence of racial hierarchies within formal political institutions represents an inconsistency with the democratic ideals of representation and accountability in pluralist societies Drawing on findings from the United States Canada and Australia Juliet Pietsch reveals that the lack of political representation in Australia is significant when compared to the United States and Canada revealing a serious democratic deficit Her book is devoted to exploring this central puzzle why is it that despite having a similar history to other settler countries Australia shows such comparatively low rates of political participation among its immigrant and ethnic minority populations from non British and European backgrounds In addressing this crucial question Race Ethnicity and the Participation Gap examines the impact of Australia's alternative path on the political representation of immigrants and ethnic minorities

Transracial and Intercountry Adoptions Rowena Fong, Ruth G. McRoy, 2016-01-26 With essays by well known adoption practitioners and researchers who source empirical research and practical knowledge this volume addresses key developmental cultural health and behavioral issues in the transracial and international adoption process and provides recommendations for avoiding fraud and techniques for navigating domestic and foreign adoption laws The text details the history policy and service requirements relating to white African American Asian American Latino and Mexican American and Native American children and adoptive families It addresses specific problems faced by adoptive families with children and youth from China Russia Ethiopia India Korea and Guatemala and offers targeted guidance on ethnic identity formation trauma mental health treatment and the challenges of gay or lesbian adoptions **Adoption in a Color-blind Society**

Pamela Anne Quiroz, 2007 Adoption in a Color blind Society illustrates how the political economy of private domestic adoption intersects with the political economy of racism to generate quite different demands for infants and children of different races and how the private adoption arena responds to these demands This book argues that rather than moving towards a color blind democracy we instead live in a context where race continues to matter substantially particularly in arenas closest to home The Legacy of Racism for Children Margaret C. Stevenson, Bette L. Bottoms, Kelly C.

Burke, 2020-06-12 When children become entangled with the law their lives can be disrupted irrevocably When those children are underrepresented minorities the potential for disruption is even greater The Legacy of Racism for Children

Psychology Law and Public Policy examines issues that arise when minority children's lives are directly or indirectly influenced by law and public policy. Uniquely comprehensive in scope, this trailblazing volume offers cutting edge chapters on the intersections of race/ethnicity within the context of child maltreatment, child dependency, court custody and adoption, familial incarceration, school discipline, and the school to prison pipeline, juvenile justice, police/youth interactions, and jurors' perceptions of child and adolescent victims and defendants. The book also includes chapters focused on troubling situations that are less commonly researched but growing in importance, including the role of race and racism in child sex trafficking and US immigration law and policy. Thus, individual chapters explore myriad ways in which law and policy shape the lives of marginalized children and adolescents, racial and ethnic minorities who historically and presently are at heightened risk for experiencing disadvantageous consequences of law and policy. In so doing, *The Legacy of Racism for Children* can help social scientists to understand and work to prevent the perpetuation of racial discrimination in American laws and public policies.
