* = $p < 0.05$, ** = $p < 0.01$, *** = $p < 0.001$; Overall Probability = the probability or risk of any driver being stopped regardless of race. Probability by Race indicates the probability or risk of being stopped among nonblack and black drivers, respectively. Risk Differences represent the difference in the probability or risk of black drivers versus nonblack drivers being stopped and is calculated by subtracting the probability for nonblacks from the probability for blacks. The risk ratio (or relative risk) is calculated by dividing the probability or risk of black drivers being stopped by the probability or risk of nonblack drivers being stopped. N represents the number of drivers observed at each location. All statistical tests are two-sided using 95% confidence intervals.

Race Place And Risk:

Race, Place, and Risk Harold M. Rose, Paula D. McClain, 1990-08-14 Based on data from some of the larger black communities in the U S this book shows the impact of both individual and environmental influences on black homicide While it primarily addresses black on black homicide its purpose is to illustrate the effect of the environment on increasing the likelihood of victimization *Race Place and Risk* demonstrates how changes in the urban economy during the past twenty five years have played a major role in elevating the risk of victimization in large urban communities and in altering the structure of victimization as well

African American Males Dionne J. Jones, *African American Males* Young People, Alcohol, and Risk Amy Pennay, Gabriel Caluzzi, Laura Fenton, John Holmes, Michael Livingston, Jonas Raninen, Jukka Törrönen, 2025-04-29 *Young People Alcohol and Risk* theorises the social cultural and economic shifts that have underpinned significant declines in young people s drinking in high income countries Since the early 2000s alcohol use among young people has declined significantly in most high income countries Situated within a theoretical framework of social generations and risk this book explores the key interrelated factors that have cumulatively shifted the social and cultural position of alcohol for young people in these countries Drawing on interviews and survey data from the authors research in Australia Sweden and the UK as well as the broader international literature the book explores the importance of changes in attitudes to alcohol shifting family and parenting practices digital technology use and changes in leisure practices neoliberalism and individualism health and wellbeing and gendered practices These factors have made salient the notion of risk for young people resulting in a culture of caution This book will be of interest to students and scholars across the social sciences in particular those studying substance use youth sociology cultural studies and public health It will be of use to policy makers and practitioners working with young people

Handbook of Urban Studies Ronan Paddison, 2001 The *Handbook of Urban Studies* provides the first comprehensive up to date account of the urban condition relevant to a wide readership from academics to researchers and policymakers It provides a theoretically and empirically informed account embracing all the different disciplines contributing to urban studies Leading authors identify key issues and questions and future trends for further research and present their findings so that where appropriate they are relevant to the needs of policymakers Using the city as a unifying structure the *Handbook* provides an holistic appreciation of urban structure and change and of the theories by which we understand the structure development and changing character

Homicide Leonard Beeghley, 2004-09-08 The American homicide rate remains dramatically higher than that in other Western nations News of a murder has become a routine event How do we explain such high levels of lethal violence in the world s leading democracy Echoing Durkheim s *Suicide* this book focuses on one important phenomenon to explain larger currents in American society Leonard Beeghley examines the historical and cross national dimensions of homicides and evaluates previous attempts to explain it He finds the sources of America s murder rate in the greater availability of guns the expansion of illegal drug

markets greater racial discrimination more exposure to violence and sharper economic inequalities He deftly blends the evidence related to each of these factors into a well reasoned sociological analysis of the nature of American society Features Highlights how sociology can be used to explain problems and seek solutions Distinguishes between structural and social psychological levels of analysis Provides a contrasting perspective to Messner Rosenfeld s widely assigned Crime and the American Dream Uses metaphors and analogies in order to make sociological ideas meaningful to students Employs an engaging writing style to place the analysis in the scholarly literature Offers clear explanations of Durkheim Weber Merton and others that show their usefulness for understanding modern life **Homicide** M. Dwayne Smith, Margaret A. Zahn, 1999

A set of chapters prepared by leading figures currently engaged in the study of homicide Each chapter provides a review and summary of research literatures that deal with social theories of homicide methodological problems in the study of homicide research among specific groups and public policy reactions designed to prevent homicide Handbook of Flood Risk

well as the opportunities spaces and places for change Systems Practices for the Care of Socially At-Risk Populations
National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care
Services, Board on Population Health and Public Health Practice, Committee on Accounting for Socioeconomic Status in
Medicare Payment Programs, 2016-04-07 The Centers for Medicare Medicaid Services CMS have been moving from volume
based fee for service payment to value based payment VBP which aims to improve health care quality health outcomes and
patient care experiences while also controlling costs Since the passage of the Patient Protection and Affordable Care Act of
2010 CMS has implemented a variety of VBP strategies including incentive programs and risk based alternative payment
models Early evidence from these programs raised concerns about potential unintended consequences for health equity
Specifically emerging evidence suggests that providers disproportionately serving patients with social risk factors for poor
health outcomes e g individuals with low socioeconomic position racial and ethnic minorities gender and sexual minorities
socially isolated persons and individuals residing in disadvantaged neighborhoods may be more likely to fare poorly on
quality rankings and to receive financial penalties and less likely to receive financial rewards The drivers of these disparities
are poorly understood and differences in interpretation have led to divergent concerns about the potential effect of VBP on
health equity Some suggest that underlying differences in patient characteristics that are out of the control of providers lead
to differences in health outcomes At the same time others are concerned that differences in outcomes between providers
serving socially at risk populations and providers serving the general population reflect disparities in the provision of health
care Systems Practices for the Care of Socially At Risk Populations seeks to better distinguish the drivers of variations in
performance among providers disproportionately serving socially at risk populations and identifies methods to account for
social risk factors in Medicare payment programs This report identifies best practices of high performing hospitals health
plans and other providers that serve disproportionately higher shares of socioeconomically disadvantaged populations and
compares those best practices of low performing providers serving similar patient populations It is the second in a series of
five brief reports that aim to inform the Office of the Assistant Secretary of Planning and Evaluation ASPE analyses that
account for social risk factors in Medicare payment programs mandated through the Improving Medicare Post Acute Care
Transformation IMPACT Act **Predators** Gregory M. Cooper, Michael R King, 2022-02-15 Most of us only half listen to the
public service announcements about safety in the home We lock our doors at night but do little else to change habits that
may make us the next victims of the dangerous individuals who are always on the watch for their next opportunity This
updated paperback edition takes readers through the mindset of predatory criminals their motives various plans of attack
and way of thinking and then teaches simple lifestyle techniques that will help reduce the risk of becoming victimized
Featuring a new chapter on how the Internet and social media has radically changed how some predators operate criminal
behavior specialists Greg Cooper and Mike King provide expert analysis based on real life cases in addition to moving

insights from victims and criminals themselves The authors make the point that the people who commit these crimes aren't much different from the predators of the wild preying on the weak and unsuspecting What makes these individuals more dangerous than their instinctive wildlife counterparts however is that they consciously choose to inflict their will on the more vulnerable members of their own species To protect our loved ones and ourselves requires that we truly educate ourselves about the predators who live in our society and then take appropriate action This excellent in depth study will help readers lead safer lives

Science and Politics Brent S. Steel, 2014-04-21 Recent partisan squabbles over science in the news are indicative of a larger tendency for scientific research and practice to get entangled in major ideological divisions in the public arena This politicization of science is deepened by the key role government funding plays in scientific research and development the market leading position of U S based science and technology firms and controversial U S exports such as genetically modified foods or hormone injected livestock This groundbreaking one volume A to Z reference features 120 150 entries that explore the nexus of politics and science both in the United States and in U S interactions with other nations The essays each by experts in their fields examine Health environmental and social cultural issues relating to science and politics Concerns relating to government regulation and its impact on the practice of science Key historical and contemporary events that have shaped our contemporary view of how science and politics intersect *Science and Politics An A to Z Guide to Issues and Controversies* is a must have resource for researchers and students who seek to deepen their understanding of the connection between science and politics

Environmentally Devastated Neighborhoods Michael R. Greenberg, Dona Schneider, 1996 It seems that residents prefer to see money spent on fixing the immediate dangers on their blocks than on making toxic waste sites safe Beginning with a call for a definition of environment that fits the reality the authors propose policy initiatives that address all the neighbourhood's needs

Battle for the Flag Amelia Johns, 2015-07-01 Ten years after the Cronulla riots the violence racism and branding of young bodies with signs and symbols of Australian nationalism along with the reprisal attacks by Lebanese Australian youth continues to inflame discussions about race relations in Australia with many conversations shifting away from ideas of multiculturalism and cultural diversity and towards patriotism localism security and fear of the predominantly Muslim Other *Battle for the Flag* contextualises and challenges the narrative by drawing upon participant observation and interviews conducted with local residents of diverse backgrounds By paying attention to the voices of bystanders and those involved the riot is identified as an unstable and fluid formation where the Australian flag the beach and whiteness itself was co-opted into a much more contingent contested and subcultural formation than hitherto described *Islamic Studies Series Volume 18*
