Racial Contract:

The Racial Contract Charles W. Mills, 2014-01-27 A very important book The Racial Contract has the potential to radically challenge many of us to reevaluate how we think about social contract theory As well to take the arguments that Mills makes is to be prepared to rethink about the concept of race and the structure of our political systems. This is a very important book indeed and should be a welcome addition to the ongoing discussions surrounding social contract theory Teaching Philosophy The Racial Contract puts classic Western social contract theory deadpan to extraordinary radical use With a sweeping look at the European expansionism and racism of the last five hundred years Charles W Mills demonstrates how this peculiar and unacknowledged contract has shaped a system of global European domination how it brings into existence whites and non whites full persons and sub persons how it influences white moral theory and moral psychology and how this system is imposed on non whites through ideological conditioning and violence The Racial Contract argues that the society we live in is a continuing white supremacist state Holding up a mirror to mainstream philosophy this provocative book explains the evolving outline of the racial contract from the time of the New World conquest and subsequent colonialism to the written slavery contract to the separate but equal system of segregation in the twentieth century United States According to Mills the contract has provided the theoretical architecture justifying an entire history of European atrocity against non whites from David Hume's and Immanuel Kant's claims that blacks had inferior cognitive power to the Holocaust to the kind of imperialism in Asia that was demonstrated by the Vietnam War Mills suggests that the ghettoization of philosophical work on race is no accident This work challenges the assumption that mainstream theory is itself raceless Just as feminist theory has revealed orthodox political philosophy s invisible white male bias Mills s explication of the racial contract exposes its racial underpinnings The Racial Contract Charles W. Mills, 1999-06-25 The Racial Contract puts classic Western social contract theory deadpan to extraordinary radical use With a sweeping look at the European expansionism and racism of the last five hundred years Charles W Mills demonstrates how this peculiar and unacknowledged contract has shaped a system of global European domination how it brings into existence whites and non whites full persons and sub persons how it influences white moral theory and moral psychology and how this system is imposed on non whites through ideological conditioning and violence The Racial Contract argues that the society we live in is a continuing white supremacist state Holding up a mirror to mainstream philosophy this provocative book explains the evolving outline of the racial contract from the time of the New World conquest and subsequent colonialism to the written slavery contract to the separate but equal system of segregation in the twentieth century United States According to Mills the contract has provided the theoretical architecture justifying an entire history of European atrocity against non whites from David Hume s and Immanuel Kant s claims that blacks had inferior cognitive power to the Holocaust to the kind of imperialism in Asia that was demonstrated by the Vietnam War Mills suggests that the ghettoization of philosophical work on race is no accident This work challenges the assumption that

mainstream theory is itself raceless Just as feminist theory has revealed orthodox political philosophy s invisible white male bias Mills s explication of the racial contract exposes its racial underpinnings Charles Mills' The Racial Contract Elvira Basevich, 2025-06-30 This book features emerging and established philosophers revisiting Charles Mills The Racial Contract twenty five years after its publication Each contribution reassesses the singular book s bold critique of liberalism and social contract theory advancing and interrogating Mills sphilosophical legacy Notably lines of inquiry include the ideal nonideal distinction the merits of the social contract model for normative political inquiry and the epistemology of ignorance This book was originally published as a special issue of Critical Review of International Social and Political Philosophy of Charles W. Mills and The Racial Contract in Educational Justice Cheryl E. Matias, 2024-11-25 Race is everywhere and pretending not to see it only does more damage than good This book delves into the work of Charles Mills and how his underlying philosophies of race still play out in today s economic educational political and sociological arena Charles Mills left a legacy of philosophical racial analyses needed to better understand race racism whiteness and white supremacy worldwide From the Racial Contract to global issues of colonial whiteness and epistemological racial ignorance Mills theories still resonate in the research that race scholars conduct today Needless to say despite his passing Charles work lives on To honour Mills scholarship this book draws on interdisciplinary studies e g sociology political science Black studies and education to excavate the racial landscape of the U S post Trump Anti CRT bans BLM and global racial reckonings Within this volume prominent scholars of race worldwide and from a variety of disciplines discuss Mills theories as applied to contemporary discourses of race whilst also offering very personal vignettes that best illuminate who Charles was to us all Essentially the man behind the theories Filled with both deep theoretical analyses and personal stories of Charles this book will liven the spirits hearts and hope for racial justice and those who work endlessly towards it This book is a key resource for scholars researchers and practitioners in the fields of education sociology political science racial and ethnic studies development studies and philosophy It was originally published as a special issue of the journal Race Ethnicity and Education

The American Untouchables: America & the Racial Contract Andre Smith,2019-02-15 The issue of race is often a scab Americans choose to ignore However social science has a responsibility and an obligation to examine not simply the amenable subjects but also the controversial This work in a word is controversial Thomas Franks 2004 argued that cultural differences led white Kansans to abandon the Democratic Party for the Republican Party during the 1980s He specifically argued that abortion was the unifying issue in this ideological migration Simultaneously future President Ronald Reagan opened his campaign for the presidency in Philadelphia Mississippi the sight of the massacre of four young civil rights activists over a decade earlier Race has and is a factor in the American experience Franks premise is simply that the absence of the concentration of African Americans in the Kansas area negated the influence of the black threat hypothesis on the observed ideological switch of white Kansans This work argues that Franks premise fails to incorporate the over arching

ideological switch of white voter migration to the Republican party that was occurring during the same period and that Reagan's speech in Philadelphia Mississippi was an overt cue that he was rejecting the civil rights consensus for an historically established race based social contract that positioned people of color outside the traditional bounds of the social contract The study is a sociopolitical analysis of the African American experience utilizing the racial contract framework developed by Charles Mills The racial contract holds that the social contract explicitly dictates interactions and transaction costs between citizens and government Mills supposition is that historically non Western Europeans were excluded from the penalties for violations of the social contract and a tacit race based contract dictated transaction costs and interactions between Europeans and non Europeans The work utilizes the framework to trace the sociopolitical environment from the first appearance of Africans in America to the present It has the supposition that the initial sociopolitical status of Africans in America was as a result of the reformation of the Western feudal agrarian culture with African captives attached to the land as the neo serfs but that the reformation of feudalism was only possible within the context that Africans were implicitly viewed as outside the bounds of the codified social contract It traces American sociopolitical conflict over the expansion of the racial contract which was the basis of the American Civil War and the establishment of an implicit sociopolitical order within the bounds of the racial contract at the end of the Civil War with codified sanctions for violations of commensality and Summary of Charles W. Mills's The Racial Contract Everest Media, 2022-03-27T22:59:00Z Please note endogamy This is a companion version not the original book Sample Book Insights 1 The social contract is actually several contracts in one The political contract is the foundation of government and our political obligations to it The moral contract is the foundation of the moral code established for the society by which the citizens are supposed to regulate their behavior 2 The Racial Contract is the set of agreements or meta agreements between the members of one subset of humans designated by racial criteria who agree to categorize the remaining subset of humans as nonwhite and of a different and inferior moral status 3 In the Racial Contract the state is used to partition and then transform human populations into white and nonwhite men The role of the state is to maintain and reproduce this racial order securing the privileges and advantages of full white citizens while maintaining the subordination of nonwhites 4 The racial contract represents a society s established morality as just a set of rules for expediting the rational pursuit and coordination of our own interests without conflict with those who are Hitler's Black Victims Clarence Lusane, 2004-11-23 Drawing on interviews with the black survivors doing the same thing of Nazi concentration camps and archival research in North America Europe and Africa this book documents and analyzes the meaning of Nazism's racial policies towards people of African descent specifically those born in Germany England France the United States and Africa and the impact of that legacy on contemporary race relations in Germany and more generally in Europe The book also specifically addresses the concerns of those surviving Afro Germans who were victims of Nazism but have not generally been included in or benefited from the compensation agreements that have been developed in recent

years The Contract and Domination Carole Pateman, Charles Mills, 2013-04-23 Contract and Domination offers a bold challenge to contemporary contract theory arguing that it should either be fundamentally rethought or abandoned altogether Since the publication of John Rawls s A Theory of Justice contract theory has once again become central to the Western political tradition But gender justice is neglected and racial justice almost completely ignored Carole Pateman and Charles Mills s earlier books The Sexual Contract 1988 and The Racial Contract 1997 offered devastating critiques of gender and racial domination and the contemporary contract tradition s silence on them Both books have become classics of revisionist radical democratic political theory Now Pateman and Mills are collaborating for the first time in an interdisciplinary volume drawing on their insights from political science and philosophy They are building on but going beyond their earlier work to bring the sexual and racial contracts together In Contract and Domination Pateman and Mills discuss their differences about contract theory and whether it has a useful future excavate the white settler contract that created new civil societies in North America and Australia argue via a non ideal contract for reparations to black Americans confront the evasions of contemporary contract theorists explore the intersections of gender and race and the global sexual racial contract and reply to their critics This iconoclastic book throws the gauntlet down to mainstream white male contract theory It is vital reading for anyone with an interest in political theory and political philosophy and the systems of male and racial domination

Race and Epistemologies of Ignorance Shannon Sullivan, Nancy Tuana, 2007-05-10 Offering a wide variety of philosophical approaches to the neglected philosophical problem of ignorance this collection builds on Charles Mills s claim that racism involves an inverted epistemology an epistemology of ignorance Contributors explore how different forms of ignorance linked to race are produced and sustained and what role they play in promoting racism and white privilege BOOK **JACKET** The Racial Contract Charles Wade Mills, 1997 Democracy Ricardo Blaug, John J. Schwarzmantel, 2000 At a time when democracy appears to be universally acclaimed as the only acceptable form of government it is all the more necessary to be clear about what democracy means Democracy A Reader provides a range of pivotal statements on this important topic from supporters and defenders as well as critics and skeptics The Dynamic Social Contract: An American Case Study Andre Smith, 2023-05-09 This book continues an exploration begun by Charles Mills and Carole Pateman with their examinations of the nuisances of the Western social contract The work examines the social contract within the variable of space or proximity and incorporates concepts first proposed by Benedict Anderson that of concepts of shared communal belonging or imagined The social contract is explored as a dynamic sociopolitical instrument that is influenced by the context of human interactions specifically space Space or proximity exists as a variable either increasing interactions and challenging sociopolitical norms or decreasing interactions and reinforcing sociopolitical norms We can trace proximity within a sociopolitical model with connections becoming more and more abstract as proximity increases and group membership becomes more abstract global global region nation religion ethnicity national region city town village and kin We accept that kinship or hereditary connections are the most atomistic And within this tree of proximity as proximity increases the ties of group membership become more tenuous and the incentive of collective action decreases production is the binding glue of the world economic system and the framework of the study but it is within the bounds of the productive system that the challenge of proximity and membership collide The collision occurs as the proximity of production increases and the reaction is a dynamic response within the social contract witnessed as a retraction **No Partiality** Douglas R. Sharp,2002-01-01 Douglas Sharp explores the theoretical constructions of race including its psychological sociopolitical and socioeconomic dimensions Finally Sharp carefully weaves a theological model of racial reconciliation for a new humanity

Off white Catherine Baker, Bogdan C. Iacob, Anikó Imre, James Mark, 2024-05-28 This volume foregrounds racial difference as a key to an alternative history of the Central and Eastern European region which revolves around the role of whiteness as the unacknowledged foundation of semi peripheral nation states and national identities and of the region s current status as a global stronghold of unapologetic white Christian nationalisms Contributions address the pivotal role of whiteness in international diplomacy geographical exploration media cultures music intellectual discourses academic theories everyday language and banal nationalism s many avenues of expressions The book offers new paradigms for understanding the relationships among racial capitalism populism economic peripherality and race **Contract Theory** Albert Weale, 2020 This volume offers an exposition and evaluation of major work in social contract theory From Class to Race Charles Wade Mills, 2003 In From Class to Race Charles Mills maps the from 1950 to the present theoretical route that brought him to the innovative conceptual framework outlined in his academic bestseller The Racial Contract 1997 Mills argues for a new critical theory that develops the insights of the black radical political tradition While challenging conventional interpretations of key Marxist concepts and claims the author contends that Marxism has been white insofar as it has failed to recognize the centrality of race and white supremacy to the making of the modern world By appealing to both mainstream liberal values and the structuralism traditionally associated with the left Mills asserts that critical race theory can radicalize the mainstream Enlightenment and develop a new kind of contractarianism that deals frontally with race and other forms of social oppression rather than evading them The Politics of Race and **Racialisation in the Middle East** Burcu Ozcelik, 2022-06-08 This book explores the extent to which race and racialisation offer us an explanatory framework to study the contemporary politics of identity in the Middle East today Most studies of the Middle East commonly presume that the race signifier is reserved for the juxtaposition of Black and White identity to which the Arab Persian and Turkish world counts itself as exterior Up until now few works on the Middle East have discussed race as central to their analysis This book works to remedy this shortcoming by extending the critical scholarship on race and racial subordination to the region s states and societies Crucially how does race interact with and confront other categories of identity such as gender religion sect and nationality What can a consideration of racialisation reveal about structures of

oppression in the Middle East and evolving forms of belonging and dispossession Adopting race as the focus of enquiry allows us to unpack what we are really talking about when we talk about difference in the region the reproduction and resilience of power and the insidious harmful mutations of identity based discrimination in unequal societies The Politics of Race and Racialisation in the Middle East is a significant new contribution to racial and ethnic studies and will be a great resource for academics researchers and advanced students of sociology politics history social anthropology political and cultural geography The chapters in this book were originally published as a special issue of Ethnic and Racial Studies Philosophy of Charles W.
