Racial Myth in English History Hugh A. MacDougall, 1982 Myths of origin enable people to locate themselves in time and space They offer an explanation of the unknown and hallow traditions by linking them to heroic events and personages of the distant past In addition they form the ground for belief systems or ideologies which providing a moral validation for attitudes and activities bind men together in a society writes the author who in his interesting and solidly based short study synthesizes several generations of English and continental scholarship in a way that enables a broad readership to obtain a clearer recognition of those elements in accepted mythologies which both unite and divide men Published in English

English Ethnicity and Race in Early Modern Drama Mary Floyd-Wilson, 2003-02-20 In *English Ethnicity and Race in Early Modern Drama* first published in 2003 Mary Floyd Wilson outlines what we might call scientific conceptions of racial and ethnic differences in sixteenth and seventeenth century English writing Drawing on classical and contemporary medical texts histories and cosmographies Floyd Wilson demonstrates that Renaissance understandings of racial and ethnic identities contradicted many modern stereotypes concerning difference Southerners Africans in particular were identified as dispassionate cool tempered and wise whereas the more northern English were understood to be unruly impressionable and slow witted Concerned with the unflattering and constraining implications of this classically derived knowledge English writers laboured to reinvent ethnology to their own advantage a labour that paved the way for the invention of more familiar racial ideas Floyd Wilson highlights these English revisionary efforts in her surprising and transformational readings of the

period's drama including Marlowe's *Tamburlaine*, Jonson's *The Masque of Blackness* and Shakespeare's *Othello* and *Cymbeline*
